Reminiscences Of Rudolf Steiner:

Reminiscences of Rudolf Steiner and Work on the First Goetheanum Assya Turgeniev, 2003 Assya Turgeniev was a Russian artist and one of Rudolf Steiner's most important co-workers best known for her engraving work on the colored windows of the first Goetheanum building in Dornach Switzerland In these unique reminiscences she provides eye witness reports of the burning of the first Goetheanum the time surrounding the death of Rudolf Steiner the early performances of his Mystery Plays Steiner's lecturing and travels abroad the artistic work on the Goetheanum the carving of the Group statue and the Christmas plays and Faust She also describes the development of eurythmy and recounts her memories of Marie Steiner Edith Maryon and others Turgeniev initially set out to write a complete account of the period during which Anthroposophy was founded and developed but illness prevented her from doing so Nevertheless the fragment which constitutes this book is one of the most valuable accounts available **Memories of Rudolf Steiner** Anna Samweber, 1991 Anna Samweber was an active coworker in Berlin with Rudolf Steiner and Marie Steiner von Sivers for several years This lively homely and often moving collection of anecdotes and recollections was recorded by Jacob Streit during an intensive two days shortly before Anna's death They contribute a warm and intimate picture of Rudolf Steiner the man and his work

A Man Before Others Rudolf Steiner Press, 1993 This illuminating collection of essays and reminiscences by Rudolf Steiner's pupils and early collaborators contains a wealth of personal details on Steiner and his work What emerges is his great unity of purpose and breadth of thought and his ability to attend to the smallest practical details while laying the seeds for spiritual impulses that would flourish far into the future These essays reveal him as a man of vision practical ability humor and selflessness

Reminiscences of Rudolf Steiner Andrei Bely, 1987-06 Both because it is the gift of the Russian people to be able to describe another's soul configuration in a particularly pictorial and concrete way and because each of these writers knew Rudolf Steiner and saw him frequently their impressions are especially living and vivid In these eminently readable reminiscences Andrei Bely the foremost symbolist poet of Russia in the twentieth century Assya Turgenieff a niece of novelist Ivan Turgenieff and Margarita Voloschin wife of a Russian poet and a well known painter in her own right recount their personal observations and experiences with Rudolf Steiner Beautifully illustrated by photographs as well as drawings and paintings by Turgenieff and Voloschin this collection offers striking and surprising impressions of Rudolf Steiner

Rudolf Steiner as a Spiritual Teacher Peter Selg, 2010 He listened extremely attentively apparently not looking at me at all but totally devoted to my words Franz Kafka The only love that you can show me is to call me anytime day or night when you need me Rudolf Steiner to Friedrich Rittelmeyer For Peter Selg if Anthroposophy to be a living reality we must learn to know and love Rudolf Steiner as he appeared to those who knew and loved him namely as a spiritual teacher To help us do so he gathered recollections of those of who knew Steiner personally historical witnesses to the living phenomenon of the figure of the teacher It is his hope that these firsthand accounts will help readers see and experience the amazing ever mysterious

person that Rudolf Steiner was a dynamic energetic dual citizen of both the spiritual and the physical worlds He moved constantly between these two realities while his whole life was dedicated in service to the spiritual evolution of humanity Nonetheless he was also deeply sociable and a true friend convivial cheerful humorous and always able to enjoy and tell a good joke He was also austere and painfully serious In other words Rudolf Steiner was a paradox Steiner was imposing but it would be difficult to say why He was slim there was no heaviness in him Indeed what seemed to strike most people first was his lightness He moved rhythmically youthfully artistically with quick light steps his posture erect but fluid his head seeming to float between Heaven and Earth Yet he was fully grounded When he stood it was as if nothing could move him When he spoke his gestures and tone expressed perfectly what he had to say He was completely one with what he said so that he changed as the content changed Those who listened to his lectures found themselves transported to the source of what they were hearing Sometimes ten Steiners would pass before them To hear a lecture was a meditation experience Quite another figure appeared in conversations which filled his every public moment One experienced luminous kindness selfless interest and intense listening attention It was as though one were singled out in the world and having a sense of being allowed complete inner freedom All who came to him for advice felt Steiner's love They felt that he saw the best in them and spoke from that point of view whether it was a matter of life's journey or esoteric training By his example then he sought to exemplify the kind of spiritual community toward which he hoped anthroposophists would strive For anyone who has wondered what Rudolf Steiner was like this book will open many windows

MEMORIES OF RUDOLF STEINER Anna Samweber, 2015-09-07 I rang the bell the door opened and there stood Rudolf Steiner in person I was so taken aback that I dropped the basket which burst open and all my clothes and underclothes together with my other belongings were lying at the feet of the Doctor A ball of wool got away and rolled between Dr Steiner's feet into the long corridor Somewhat surprised but amused he said I have never been greeted in this way

Reminiscences of Rudolf Steiner Andrey Bely, Assya Turgenieff, Margarita Woloschin, 1987 In these lively eminently readable reminiscences Andrei Belyi the foremost symbolist poet of Russia in our century Assya Turgenieff a niece of novelist Ivan Turgenieff and Margarita Woloschin wife of a Russian poet and a well known painter in her own right recount their experiences with Rudolf Steiner

Memories of Rudolf Steiner Ludwig Polzer-Hoditz, René M. Querido, 1987-01-01 Rudolf Steiner Gary Lachman, 2007-02-01 The first truly popular biography of the influential twentieth century mystic and educator who while widely known for founding the Waldorf schools and other educational and humanitarian movements remains a mystery to many who benefit from his ideas People everywhere have heard of Waldorf schools Biodynamic farming Camphill Villages and other innovations of the Austrian philosopher Rudolf Steiner 1861 1925 Indeed Steiner as an architect artist teacher and agriculturalist ranks among the most creative and prolific figures of the early twentieth century pioneering work in alternative education holistic health and environmental research While his accomplishments are felt all over the world few people understand this unusual figure

Steiner's own writings and lectures fill several bookcases intimidating those who would like to know more. Works on Steiner are often dense and insider in tone further deterring the curious. No popular biography written by a sympathetic but critical outsider has been available. Gary Lachman's *Rudolf Steiner* provides this missing introduction. Along with telling Steiner's story and placing Steiner in his historical context, Lachman's book presents Steiner's key ideas in a readable accessible manner. In particular, Lachman considers the spread of Steiner's most popular projects which include Waldorf schools, one of the leading forms of alternative education, and Biodynamic farming, a popular precursor to organic farming. He also traces Steiner's beginnings as a young intellectual in the ferment of fin de siècle culture to his rise as a thought leader within the influential occult movement of Theosophy to the founding of his own metaphysical teaching called Anthroposophy. Finally, the book illustrates how Steiner's methods are put into practice today and relates Steiner's insights into cosmology to the work of current thinkers. *Rudolf Steiner* is a full-bodied portrait of one of the most original philosophical and spiritual luminaries of the last two centuries and gives those interested in the history of ideas the opportunity to discover one of the most underappreciated figures of the twentieth century. *Rudolf Steiner, Life and Work Volume 3 (1900-1914)* Peter

Selg, 2015-08-01. This third volume of Peter Selg's comprehensive presentation of Rudolf Steiner's life and work begins with Steiner's invitation to lecture in the Theosophical Society during the summer of 1900. From the outset of his theosophical involvement, Steiner was resolved to serve and develop the Western path to the spirit traversed in full conscious clarity of thought. He was therefore critical of the tendency to avoid the modern standards of a sound knowledge process in matters of spirituality and esotericism and instead emphasized the importance of idealist philosophy as groundwork for understanding spiritual cognition. Whoever speaks of the coldness of the world of ideas can only think ideas, not experience them. Those who live the true life in the world of ideas feel in themselves the being of the world working in warmth that cannot be compared to anything else. *Rudolf Steiner: Goethe's World View*. Although his approach did not always harmonize with theosophical pursuits, Rudolf Steiner recognized the sincere striving at the basis of this movement and agreed to take on increasingly greater responsibility for the German Section. Marie von Sivers, who would later become his wife, was his most supportive colleague during this time. At a decisive juncture, Steiner broke from the Theosophical Society to found the Anthroposophical Society through which he would continue the development of modern spiritual science more freely in accord with his original intentions. This volume covers the period during which Steiner wrote some of his foundational works: *Christianity as Mystical Fact*, *Theosophy*, *Knowledge of the Higher Worlds*, and *An Outline of Esoteric Science*. Peter Selg also describes the building of the first Goetheanum in Dornach as an artistic embodiment of esoteric wisdom giving rise to an international working community as well as the performance of the mystery dramas and Rudolf Steiner's profound Christological lectures known as the Fifth Gospel. **Star Wisdom and Rudolf Steiner** David Tresemer, 2007-02. Flower essences are liquid energetic remedies derived from living flowers. They bring the natural dynamic energy of the plant directly into the human electro

system where they work to bring about movement toward health and balance. Because of their energetic and living quality, they work directly and deeply in the emotional system, assisting in the release of early wounds and trauma. These suppressed imprints are considered to be a main cause of many types of diseases or imbalances today. Flower essences are a perfect complement to many of today's health practices. They enhance the effects of energy work, physical therapy, acupuncture, psychotherapy, cranial sacral work, massage, aroma therapy, and many other forms of healing and treatment. Flower essences are safe, natural, and non-toxic.

Continuing the work of Edward Bach, *Stars of the Meadow* looks deeply into the relationship between health and the human personality. David Dalton takes us on a thorough and soulful exploration of how to use more than forty medicinal herbs as flower essences, portraying each flower in a way that is both substantive and inspired. Each description is organized to present a picture of how the flower essence affects the adult personality as it has been formed through life and describes its direct clinical effects on children and animals. Dalton also connects different types of flowers based on the number and arrangement of petals as well as associated colors and qualities to the system of human chakras or energy centers. This innovative approach allows the reader to discover new ways to employ flower essences to focus on specific areas of one's being, from the most physical to the highest levels, allowing a kind of flexibility rarely found in any single system of healing. *Stars of the Meadow* is a valuable guide not only for those who are new to flower essences but also for seasoned herbalists who wish to deepen their knowledge of this effective method of healing body, mind, and soul.

The Creative Power of Anthroposophical Christology Sergei O. Prokofieff, Peter Selg, 2011-10-18. Introductory essays written 1884-1897. CW 1. The holistic paradigm: Gaia, deep ecology, and new alchemy all have a hidden ancestor: Johann Wolfgang von Goethe (1749-1832). At the youthful age of twenty-one, Steiner was chosen to edit Goethe's scientific writings for the principle Goethe edition of his time. Goethe's literary genius was universally acknowledged; it was Steiner's task to understand and comment on Goethe's scientific achievements. Steiner recognized the significance of Goethe's work with nature and his epistemology, and here began Steiner's own training in epistemology and spiritual science. This collection of Steiner's introductions to Goethe's works re-vision the meaning of knowledge and how we attain it. Goethe had discovered how thinking could be applied to organic nature, and that this experience requires not just rational concepts but a whole new way of perceiving. In an age when science and technology have been linked to great catastrophes, many are looking for new ways to interact with nature. With a fundamental declaration of the interpenetration of our consciousness and the world around us, Steiner shows how Goethe's approach points the way to a more compassionate and intimate involvement with nature. *Nature's Open Secret* is a translation of Goethe's *Naturwissenschaftliche Schriften Einleitungen* (1884-1897). Previous translations were titled *Goethe the Scientist* and *Goethean Science*. GA 1.

Rudolf Steiner's Sculptural Group Sergei O. Prokofieff, 2013. Saved by good fortune from the flames that engulfed the first Goetheanum, Rudolf Steiner's wooden sculpture of the Christ, the Representative of Humanity, standing between the adversary forces of Lucifer and Ahriman, remains intact.
