society and culture Studies in the History of the Renaissance 1873 to argue that the habitual dismissal of deconstruction as aestheticist fails to recognize the genuine philosophic point and political engagement within aestheticism Reading Jacques Derrida and Paul de Man in light of Pater's Renaissance Loesberg begins by accepting the charge that deconstruction is aestheticist He goes on to show however that aestheticism and modern deconstruction both produce philosophical knowledge and political effect through persistent self questioning or self resistance and in the internal critique and destabilization of hegemonic truths Throughout Loesberg reinterprets Pater and reexamines the contributions of deconstruction in relation to the apparent theoretical shift away from deconstruction and toward new historicism Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Aesthetics After Metaphysics Miguel de Beistegui, 2012 This book focuses on a dimension of art which the philosophical tradition from Plato to Hegel and even Adorno has consistently overlooked such was its commitment explicit or implicit to mimesis and the metaphysics of truth it presupposes De Beistegui refers to this dimension which unfolds outside the space that stretches between the sensible and the supersensible the space of metaphysics itself as the hypersensible and show how the operation of art to which it corresponds is best described as metaphorical The movement of the book then is from the classical or metaphysical aesthetics of mimesis Part One to the aesthetics of the hypersensible and metaphor Part Two Against much of the history of aesthetics and the metaphysical discourse on art he argues that the philosophical value of art doesn't consist in its ability to bridge the space between the sensible and the supersensible or the image and the Idea and reveal the sensible as proto conceptual but to open up a different sense of the sensible His aim then is to shift the place and role that philosophy attributes to art

On Form, 2008-09-18 What is form Why does form matter In this imaginative and ambitious study Angela Leighton assesses not only the legacy of Victorian aestheticism and its richly resourceful keyword form but also the very nature of the literary She shows how writers for two centuries and more have returned to the idea of form as something which contains the secret of art itself She tracks the development of the word from the Romantics to contemporary poets and offers close readings of among others Tennyson Pater Woolf Yeats Stevens and Plath to show how form has provided the single most important way of accounting for the movements of literary language itself She investigates for instance the old debate of form and content of form as music or sound shape as the ghostly dynamic and dynamics of a text as well as its long association with the aestheticist principle of being for nothing In a wide ranging and inventive argument she suggests that form is the key to the pleasure of the literary text and that that pleasure is part of what literary criticism itself needs to answer and convey
