**Philosophy, Rhetoric, and Thomas Hobbes** Timothy Raylor, 2018-11-01 Thomas Hobbes claimed to have founded the discipline of civil philosophy political science The claim did not go uncontested and in recent years the relationship of philosophical reasoning to rhetorical persuasion in Hobbes s work has become a

significant area of discussion as scholars attempt to align his disparaging remarks about rhetoric with his dazzling practice of it in works like *Leviathan*. The dominant view is that having rejected an early commitment to humanism and with it rhetoric when he adopted the scientific approach to philosophy in the late 1630s Hobbes later came to re-embrace it as an essential aid to or part of philosophy. Philosophy Rhetoric and Thomas Hobbes proposes that Hobbes was from first to last dubious about the place of rhetoric in civil society and came to see it as a pernicious presence within philosophy a position from which he did not retreat. It offers a fresh and expanded picture of Hobbes's humanism by examining his years as a country house tutor his teaching and his translation of Thucydides the influence on him of Bacon and the range of his early natural historical and philosophical interests. In demonstrating the distinctively Aristotelian character of his understanding of rhetoric the book also revisits the new approach to philosophy Hobbes adopted at the end of the 1630s clarifying the nature and scope of his concern about the contamination of philosophy and political life by the procedures of rhetorical argumentation.

Based on the Field Being philosophy founded by Lik Kuen Tong this theory gives an account of the ontological foundations of both kinds of rhetoric. Beginning with an exposition of the nature of Field Being rhetoric as Eastern and Western this book presents chapters on Eastern and Western rhetoric over history as power ethics art creativity politics and communication. It acknowledges the thinking of many philosophers and rhetoricians who have contributed to East West comparative studies in both fields and argues that both understandings of rhetoric are necessary for global communication.

**Rhetoric and the Writing of History, 400-1500** Matthew Kempshall, 2011-08-31 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500. Concentrating on the general principles of classical rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put. By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of

Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development Galileo's Reading Crystal Hall,2013-12-12 Galileo 1564 1642 incorporated throughout his work the language of battle the rhetoric of the epic and the structure of romance as a means to elicit emotional responses from his readers against his opponents By turning to the literary as a field for creating knowledge Galileo delineated a textual space for establishing and validating the identity of the new idealized philosopher Galileo s Reading places Galileo in the complete intellectual and academic world in which he operated bringing together for example debates over the nature of floating bodies and Ludovico Ariosto s Orlando furioso disputes on comets and the literary criticism of Don Quixote mathematical demonstrations of material strength and Dante s voyage through the afterlife and the parallels of his feisty note taking practices with popular comedy of the period **The Present State of Scholarship in the History of Rhetoric** Lynée

**Theorizing Histories of Rhetoric** Michelle Ballif, 2013-02-25 During the decades of the 1980s and 1990s historians of rhetoric composition and communication vociferously theorized historiographical motivations and methodologies for writing histories in their fields After this fertile period of rich contested and impassioned theorization scholars busily undertook the composition of numerous historical works complicating master narratives and recovering silenced voices and rhetorical practices Yet though historians in these fields have gone about the business of writing histories the discussion of theorization has been quiet In this welcome volume fifteen scholars consider once again the theory of historiography asking difficult questions about the purposes and methodologies of writing histories of rhetoric broadly defined and questioning what it means what it should mean what it could mean to write histories of rhetoric composition and communication The topics addressed include the privileging of the literary and the textual over material artifacts as prime sources of evidence in the study of classical rhetoric the use of rhetorical hermeneutics as a methodology for interpreting past practices the investigation of feminist methodologies that do not fit into the dominant modes of feminist historiographical work and the examination of archives with a queer eye to better construct nondiscriminatory narratives Contributors also explore the value of approaching historiography through the lenses of jazz improvisation and complexity theory and the historiographical method of writing the future in ways that refigure our relationships to time and to ourselves Consistently thoughtful and carefully argued these essays successfully revive the discussion of historiography in rhetoric inspiring fresh avenues of exploration in the field

**Reading the Ovidian Heroine** Kathryn McKinley, 2017-09-18 This study investigates the reception of Ovid's heroines in Metamorphoses commentaries written between 1100 and 1618 The Ovidian heroine offers a telling window onto medieval and early modern clerical constructions of gender and selfhood In the context of classical representations of the feminine the book examines Ovid's engagement of the heroine to explore problems of intentionality The second part of the study presents commentaries by such clerics as William of Orlans the Vulgate commentator Thomas Walsingham and Raphael Regius illustrating the reception of the Ovidian heroine in medieval France and England as well as in Renaissance Italy and Germany The works analyzed here show that clerical readings of the feminine in Ovid reflect greater

heterogeneity than is commonly alleged Both moralizing summaries and Latin editions used as schooltexts are discussed
