Renaissance Notion Of Woman:

The Renaissance Notion of Woman Ian Maclean, 1980 This monograph dealing with the intellectual notions held during the Renaissance of what woman is surveys the ideas of the nature of woman sex difference and sex discrimination and the emergence of a feminist movement in the first half of the 17th century *The Renaissance Notion in Woman*, 1980

The Renaissance Notion of Woman Ian Maclean, 1987 Declamation on the Nobility and Preeminence of the Female Sex Henricus Cornelius Agrippa, 2007-11-01 Originally published in 1529 the *Declamation on the Preeminence and Nobility of the Female Sex* argues that women are more than equal to men in all things that really matter including the public spheres from which they had long been excluded Rather than directly refuting prevailing wisdom Agrippa uses women's superiority as a rhetorical device and overturns the misogynistic interpretations of the female body in Greek medicine in the Bible in Roman and canon law in theology and moral philosophy and in politics He raised the question of why women were excluded and provided answers based not on sex but on social conditioning education and the prejudices of their more powerful oppressors His declamation disseminated through the printing press illustrated the power of that new medium soon to be used to generate a larger reformation of religion

The Female Body in Medicine and Literature Andrew Mangham, Greta Depledge, 2013-08-15 Drawing on a range of texts from the seventeenth century to the present *The Female Body in Medicine and Literature* explores accounts of motherhood fertility and clinical procedures for what they have to tell us about the development of women's medicine The essays here offer nuanced historical analyses of subjects that have received little critical attention including the relationship between gynecology and psychology and the influence of popular art forms on so called women's science prior to the twenty first century Taken together these essays offer a wealth of insight into the medical treatment of women and will appeal to scholars in gender studies literature and the history of medicine

Constructions of Female Homoeroticism in Early Modern Drama D. Walen, 2005-09-16 This book explores representations of love and desire between

female characters in nearly seventy plays written between 1580 and 1660 The work argues that playwrights of late sixteenth and early seventeenth century England recognized and constructed richly diverse tropes of female homoerotic desire Writers place female characters in erotic situations with other female characters in playful scenarios of mistaken identity in anxious moments of amorous intrigue in predatory situations and in enthusiastic utopian representations of romantic love These plays indicate an awareness of female homoeroticism in early modern England and belie statements that literary evidence of homosexuality was concerned primarily with men Women and Literature in Britain, 1500-1700 Helen Wilcox, 1996-11-13

in particular Tracing the reception of these tales shows how they provided continuity despite considerable change in medicine being the common property of those on different sides of professional disputes about women's roles in both medicine and midwifery The study reveals how different genres used these stories changing their characters and plots but always invoking the authority of the classics in discussions of sexual identity The study raises important questions about the nature of medical knowledge the relationship between texts and observation and the understanding of sexual difference in the early modern world beyond the one sex model *Moderating Masculinity in Early Modern Culture* Todd W. Reeser, 2006

Moderating Masculinity in Early Modern Culture proposes a definition of gender based on a ternary model in which moderation and masculinity are inextricably linked Like the Aristotelian virtue of moderation which requires the presence of excess a Reading the Ovidian Heroine Kathryn L. McKinley, 2001 This study investigates the reception of Ovidian heroines in *Metamorphoses* commentaries written between 1100 and 1618 on the Continent in England Medieval and early modern clerical readings of the feminine in Ovid reflect greater heterogeneity than is commonly alleged **A Social History of Truth** Steven Shapin, 2011-11-18 How do we come to trust our knowledge of the world What are the means by which we distinguish true from false accounts Why do we credit one observational statement over another In *A Social History of Truth* Shapin engages these universal questions through an elegant recreation of a crucial period in the history of early modern science the social world of gentlemen philosophers in seventeenth century England Steven Shapin paints a vivid picture of the relations between gentlemanly culture and scientific practice He argues that problems of credibility in science were practically solved through the codes and conventions of genteel conduct trust civility honor and integrity These codes formed and arguably still form an important basis for securing reliable knowledge about the natural world Shapin uses detailed historical narrative to argue about the establishment of factual knowledge both in science and in everyday practice Accounts of the mores and manners of gentlemen philosophers are used to illustrate Shapin's broad claim that trust is imperative for constituting every kind of knowledge Knowledge making is always a collective enterprise people have to know whom to trust in order to know something about the natural world *The Colour of Angels* Constance Classen, 2002-01-04

The Colour of Angels uncovers the gender politics behind our attitude to the senses Using a wide variety of examples ranging from the sensuous religious visions of the middle ages through to nineteenth century art movements this book reveals a previously unexplored area of women's history **Women on Stage in Stuart Drama** Sophie Tomlinson, 2005 Publisher description Gender, Sexuality, and Early Music Todd C. Against Marriage Anne-Marie-Louise d'Orléans, Duchesse de Montpensier, 2007-11-01 In seventeenth century France

aristocratic women were valued by their families as commodities to be married off in exchange for money social advantage or military alliance Once married they became legally subservient to their husbands The duchesse de Montpensier a first cousin of Louis XIV was one of very few exceptions thanks to the vast wealth she inherited from her mother who died shortly after Montpensier was born She was also one of the few politically powerful women in France at the time to have been an accomplished writer In the daring letters presented in this bilingual edition Montpensier condemns the alliance system of marriage proposing instead to found a republic that she would govern a corner of the world in which women are their own mistresses and where marriage and even courtship would be outlawed Her pastoral utopia would provide medical care and vocational training for the poor and all the homes would have libraries and studies so that each woman would have a room of her own in which to write books Joan DeJean s lively introduction and accessible translation of Montpensier s letters four previously unpublished allow us unprecedented access to the courageous voice of this extraordinary woman
