Renaissance (great Ages of Man). JOHN. HALE,1969      *The Dawning* Terry MacKinnell,2011-03-09 The Dawning is a radically different and innovative approach to the astrological ages including the Age of Aquarius providing a fascinating insight into past ages our current turbulent times and what might be in store for our world over the next few thousand years Terry MacKinnell takes us on a journey into the astrological ages and with periscope detail presents an entertaining and thought provoking read that challenges astrological assumptions MacKinnell proposes that an oversight made by the ancients inadvertently impacted conventional astrological calculations and he explores the popular belief that the Age of Aquarius has already arrived when according to conventional astrology it is not due for many centuries to come He argues that the real Aquarian Age has indeed already arrived and did so in the 15th Century the same century historians claim as the beginning of modernity Continuing the journey he dives into our present and our future This fascinating book will appeal to astrologers archeo astronomers historians and everyone looking for a new perspective on the past the present and the future      **Ordering America** William H. Young,2010 Ordering America painting a felicitous portrait of Western civilization shows that its defining ideals rooted in man s common human nature a perception newly substantiated by modern evolutionary psychology were best fulfilled by realization of the American founding order Twentieth century progressivism and postmodern multiculturalism detoured America down the way of social constructionism human nature and equality are produced by culture and the state through groups The book sets a course to revive the Western ideals and return to an opportune center right American order applying latest scientific insights and restoring individual responsibility and reciprocity under more limited still energetic government befitting our century      Jacob Burckhardt's Social and Political Thought Richard Franklin Sigurdson,2004-01-01 Contrary to his usual portrayal as a disinterested aesthete Swiss cultural historian Jacob Burckhardt is characterised as an original social and political thinker in Richard Sigurdson s timely book Jacob Burckhardt s Social and Political Thought Burckhardt s thinking on a number of ideas including the relationship between the individual and the mass the tension between the ideals of equality and human excellence and the role of the intellectual in the modern state is the subject of insightful analysis thus providing a rare investigation into Burckhardt s culture critique of the nineteenth century Other important aspects of Burckhardt s life that undoubtedly influenced both his historical and political thought such as his ambiguous relationship with Friedrich Nietzsche are carefully scrutinised in this groundbreaking analysis of the Swiss historian Known primarily as an historian Burckhardt s historical writings provide not only a powerful critique of his own times but also a broad ranging political philosophy that can be placed within the larger German tradition of evaluating politics according to the values and standards of art and culture Although Burckhardt himself expressed his scepticism towards general theories and claimed to be devoid of a personal philosophical position through an examination of his works Sigurdson argues that both implicit and explicit political reflections and theories are recognisable

**Pity and Identity in the Age of Shakespeare** Toria Johnson, 2021

Exploring a wide range of material including dramatic works, medieval morality drama, and lyric poetry, this book argues for the central significance of literary material to the history of emotions. Early modern English writing about pity evidences a social culture built specifically around emotion, one at least partially defined by worries about who deserves compassion and what it might cost an individual to offer it. *Pity and Identity in the Age of Shakespeare* positions early modern England as a place that sustains messy and contradictory views about pity, all at once bringing together attraction, fear, anxiety, positivity, and condemnation to paint a picture of an emotion that is simultaneously unstable and essential, dangerous and vital, deceptive and seductive. The impact of this emotional burden on individual subjects played a major role in early modern English identity formation, centrally shaping the ways in which people thought about themselves and their communities.

Taking in a wide range of material including dramatic works by William Shakespeare, Thomas Heywood, Ben Jonson, Thomas Middleton, and William Rowley; medieval morality drama and lyric poetry by Philip Sidney, Thomas Wyatt, Samuel Daniel, Thomas Lodge, Barnabe Barnes, George Rodney, and Frances Howard, this book argues for the central significance of literary material to the broader history of emotions, a field which has thus far remained largely the concern of social and cultural historians. *Pity and Identity in the Age of Shakespeare* shows that both literary materials and literary criticism can offer new insights into the experience and expression of emotional humanity.
