beyond his scientific and engineering achievements thanks to the rich variety and public prominence of his professional and political activities His generation Lenin s generation was inevitably at the forefront of Russian life from the 1910s to the 1930s and Lomonosov took his place there as one of the country s best known and ultimately notorious engineers As well as an innovative engineer who campaigned to enhance the role of science he played a major role in shaping and administering the Russian railways and undertook several diplomatic and scientific missions to the West during the early years of the Revolution Falling from political favour during an assignment in Germany 1923 1927 he achieved notoriety in Russia as a non returner by apparently declining to return home Thereby escaping probable arrest and execution he began a new life abroad 1927 1952 which included a research post at the California Institute of Technology in 1929 1930 collaborative projects with the famous physicist P L Kapitsa in Cambridge a long time association with the Institution of Mechanical Engineers in London and work for the British War Office during the Second World War From Marxist revolutionary to American academic this study reveals Lomonosov s extraordinary life Drawing on a wide variety of official Russian sources as well as Lomonosov s own diaries and memoirs a vivid portrait of his life is presented offering a better understanding of how science technology and politics interacted in early twentieth century Russia

**The Political Life of Josiah C. Wedgwood** Paul Mulvey, 2010  
New study of the Radical politician Josiah Wedgwood setting him in context and illuminating many of the political issues of the time In his day Josh Wedgwood was one of Britain s best known and most outspoken Radical politicians He served in three wars and in a Parliamentary career lasting from 1906 to 1943 first with the Liberals and then with Labour he fought to uphold personal liberty and to limit the power of the state Instead of the collectivism of socialists or social imperialists Wedgwood advocated a Radical vision of Victorian Individualism as the solution to the problems of social inequality at home and growing threats abroad that Britain faced in the first half of the twentieth century His support of individual freedom a redistribution of landowner s wealth and a voluntary and democratic British Empire received only limited support in his own lifetime but he fought for them with vigour and passion throughout his career This study of his life throws new light upon some of the defining ideological and policy issues of the most turbulent period of modern British history PAUL MULVEY

teaches at the London School of Economics **Imperial Connections** Thomas R. Metcalf, 2007-04-24 An innovative remapping of empire Imperial Connections offers a broad ranging view of the workings of the British Empire in the period when the India of the Raj stood at the center of a newly globalized system of trade investment and migration Thomas R Metcalf argues that India itself became a nexus of imperial power that made possible British conquest control and governance across a wide arc of territory stretching from Africa to eastern Asia His book offering a new perspective on how imperialism operates emphasizes transcolonial interactions and webs of influence that advanced the interests of colonial India and Britain alike Metcalf examines such topics as law codes and administrative forms as they were shaped by Indian precedents the Indian Army s role in securing Malaya Africa and Mesopotamia for the empire the employment of Indians

especially Sikhs in colonial policing and the transformation of East Africa into what was almost a province of India through the construction of the Uganda railway He concludes with a look at the decline of this Indian Ocean system after 1920 and considers how far India's participation in it opened opportunities for Indians to be a colonizing as well as a colonized people

Adrian Jarvis,2016-12-05 During the 19th century the engineering of ports and harbours became a large and specialised branch of the profession This development began in ports in physically difficult locations and may be particularly identified with the growth of the Port of Liverpool Stimulated by the arrival of ever larger steamships and the heavy investment in port facilities that they demanded it spread around much of the world The opening papers give examples of what could be achieved in antiquity the following ones set out the advances in design and technology from 1700 to the start of this century and note some of the failures and recurrent problems They also illustrate the critical importance of political and economic factors in determining what the engineers achieved      **Indian Engineering** ,1918      **The Artizan** ,1865

*Women in Higher Education, 1850-1970* E. Lisa Panayotidis,Paul Stortz,2017-09-19 This edited collection illustrates the way in which women's experiences of academe could be both contextually diverse but historically and culturally similar It looks at both the micro individual women and universities and macro level comparative analyses among regions and countries within regional national trans national and international contexts The contributors integrally advance knowledge about the university in history by exploring the intersections of the lived experiences of women students and professors practices of co education and intellectual and academic cultures They also raise important questions about the complementary and multidirectional flow and exchange of academic knowledge and information among gender groups across programmes disciplines and universities Historical inquiry and interpretation serve as efficacious ways with which to understand contemporary events and discourses in higher education and more broadly in community and society This book will provide important historical contexts for current debates about the numerical dominance and significance of women in higher education and the tensions embedded in the gendering of specific academic programs and disciplines and university policies missions and mandates      History of Ancient and Modern Birkenhead Philip Sulley,1907      **Proceedings of the Royal Society of London** Royal Society (Great Britain),1918      **The Dock and Harbour Authority** ,1998      **House of Commons Parliamentary Papers** Great Britain.
