*Render Unto Caesar* Sabrina P. Ramet, Donald W. Treadgold, 1995 From the introduction For many people it may come as a surprise to learn that the history of ecological politics has not always been inherently and necessarily progressive and benign In fact ecological ideas have a history of being distorted and placed in the service of highly regressive ends even of fascism itself This theme is discussed in the two essays presented here Fascist Ideology The Green Wing of the Nazi Party and its Historical Antecedents and Ecology and the Modernization of Fascism in the German Ultra Right Annotation copyright by Book News Inc Portland OR

*The Translatability of the Religious Dimension in Shakespeare from Page to Stage, from West to East* Jenny Wong, 2018-05-29 This interdisciplinary study traverses the disciplines of translation studies hermeneutics theater studies and sociology Under the power turn or political turn in translation studies the omission and untranslatability of religious material are often seen as the product of censorship or self censorship But the theology of each individual translating agent is often neglected as a contributing factor to such untranslatability This book comprehensively traces the hermeneutical process of the translators as readers and the situational process and semiotics of theater translation Together these factors contribute to an image of translated literature that in turn influences the literature's reception While translation theorists influenced by the current sociological turn view social factors as determining translation activities and strategies this volume argues that the translator's or the dramatist's theology and religious values interact with the socio cultural milieu to carve out a unique drama production Often it is the religious values of the translating agents that determine the product rather than social factors Further the translatability of religious discourse should be understood in a broader sense according to the seven dimensions proposed by Ninian Smart rather than merely focusing on untranslatability as a result of semantic and linguistic differences

Annotation copyright by Book News Inc Portland OR      **Religion in Global Politics** Jeffrey Haynes, 2014-10-13 One of the most resilient ideas about societal development after World War II was that nations would inevitably secularise as they modernised However as we come to the end of the secular twentieth century it is obvious that religion continues to be an important factor in politics around the world The author examines the continuing importance of religion focusing upon the regions of Europe the Americas Africa and Asia      *An Introduction to International Relations and Religion* Jeffrey

Haynes, 2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics

**The Young Bultmann** William D. Dennison, 2008 During his early life 1884-1925 Rudolf Bultmann passionately attempted to unite scholar and laity through his understanding of God which developed in the context of his home and its love for the common people of the church the legacy of Schleiermacher Marburg Lutheran neo Kantianism the eschatological perspective of the History of Religion School dialectical theology and Heidegger's philosophy of existence Bultmann always insisted that God reflected the inner forces of life within each human being Over the years however Bultmann came to hold that Lutheran neo Kantianism provided the basic structure by which to analyze critique and strengthen his understanding of God In light of this neo Kantian structure Bultmann insisted that God could not be the formulation of any scientific ethical or artistic construction In other words God could not be the object or manifestation of human reason in any form since God transcended human reason Hence in 1925 through the assistance of the dialectical theologians and Heidegger Bultmann presented his purest formulation of a neo Kantian understanding of God God as the spontaneous moment of encountering the dialectical forces within our existential being      **The Routledge History of East Central Europe since 1700** Irina

Understanding the War in Kosovo Florian Bieber, Zidas Daskalovski, 2004-08-02 The war in Kosovo has been a defining moment in post Cold War Europe Kosovo has great importance beyond the Balkans as the most ambitious attempt of the international community to prevent internal conflicts and rebuild a society destroyed by war and ethnic cleansing As the danger of ethnic conflict prevails in the region and elsewhere around the world the experience of Kosovo offers important lessons This is a comprehensive survey of developments in Kosovo leading up to during and after the war in 1999 providing additionally the international and regional framework to the conflict It examines the underlying causes of the war the attempts by the international community to intervene and the war itself in spring 1999 It critically examines the international administration in Kosovo since June 1999

and contextualizes it within the relations of Kosovo to its neighbours and as part of the larger European strategy in Southeastern Europe with the stability pact. It does not seek to promote one interpretation of the conflict and its aftermath but brings together a range of intellectual arguments from some sixteen researchers from the Balkans, the rest of Europe and North America.

**Balkan Babel** Sabrina Petra Ramet, 2018-02-19. The fourth edition of this critically acclaimed work includes a new chapter, a new epilogue and revisions throughout the book. Sabrina Ramet, a veteran observer of the Yugoslav scene, traces the steady deterioration of Yugoslavia's political and social fabric in the years since 1980, arguing that while the federal system and multiethnic fabric laid down fault lines, the final crisis was sown in the failure to resolve the legitimacy question triggered by economic deterioration and pushed forward toward war by Serbian politicians bent on power, either within a centralized Yugoslavia or within an ethnically cleansed Greater Serbia. With her detailed knowledge of the area and extensive fieldwork, Ramet paints a strikingly original picture of Yugoslavia's demise and the emergence of the Yugoslav successor states.

**Colonial Modernity in Korea** Gi-Wook Shin, Michael Robinson, 2020-03-23. The twelve chapters in this volume seek to overcome the nationalist paradigm of Japanese repression and exploitation versus Korean resistance that has dominated the study of Korea's colonial period, 1910-1945, by adopting a more inclusive pluralistic approach that stresses the complex relations among colonialism, modernity and nationalism. By addressing such diverse subjects as the colonial legal system, radio telecommunications, the rural economy and industrialization, and the formation of industrial labor, one group of essays analyzes how various aspects of modernity emerged in the colonial context and how they were mobilized by the Japanese for colonial domination, with often unexpected results. A second group examines the development of various forms of identity, from nation to gender to class, particularly how aspects of colonial modernity facilitated their formation through negotiation, contestation and redefinition.

**Movement Or Moment?** Patrick Claffey, Joe Egan, 2009. This collection of essays was written to mark the fortieth anniversary of the Second General Conference of Latin American Bishops, which convened at Medellín, Colombia, in 1968. Inspired by the Second Vatican Council and seeking to implement its vision, the bishops viewed the occasion as a decisive one for Latin America, which they saw as standing on the threshold of a new epoch in the history of our continent. It appears to have been a time full of zeal for emancipation, liberation from every form of servitude, of personal maturity and of collective integration. Forty years later, however, it is appropriate to remember the event and to review the significance of liberation theology in light of all that has happened during the intervening period. The colloquium at the Milltown Institute, Dublin, which led to this book, sought to do precisely that: to establish where liberation theology now stands, by questioning whether it really is a significant theological and ecclesial movement or merely a moment whose time has passed and to investigate its enduring legacy.

*The Assemblage of Korean Shamanism* Joonseong Lee, 2022-10-14. The most unique aspect of Korean shamanism is its mysterious duality that continually reiterates the processes of deterritorialization and reterritorialization. This book approaches that puzzle of mysterious duality using an

interdisciplinary lens Korean shamanism has been under continuous oppression and marginalization for a long time and that circumstance has never dissipated Shaman culture can be found in every corner of people's lives in contemporary Korea but few acknowledge their indigenous beliefs with pride This mysterious duality has deepened as the mediatization process of Korean shamanism has developed Korean shamanism was revived as the dynamic of shamanic inheritance in the process but these dynamics have also become the object of mockery For this reason any true understanding of Korean shamanism rests in how to unravel the unique puzzles of this mysterious duality In this book the duality is mapped out by playing with the puzzles surrounding the contextualization of Korean shamanism and mediatization

**Gender Reversals and Gender Cultures** Sabrina Petra Ramet, 2002-11 This collection of original essays explores the historical and cultural diversity of the experience of gender reversal over an exceptional geographical and chronological range Topics covered include anthropology history literature

**Serbia Since 1989** Sabrina P. Ramet, Vjeran I. Pavlakovic, 2011-09-01 During their thirteen years in power Slobodan Milosevic and his cohorts plunged Yugoslavia into wars of ethnic cleansing leading to the murder of thousands of civilians The Milosevic regime also subverted the nation's culture twisted the political mainstream into a virulent nationalist mold sapped the economy through war and the criminalization of a free market returned to gender relations of a bygone era and left the state so dysfunctional that its peripheries Kosovo Vojvodina and Montenegro have been struggling to maximize their distance from Belgrade through far reaching autonomy or through outright independence In this valuable collection of essays Vjeran Pavlakovic Reneo Lukic and Obrad Kesic examine elements of continuity and discontinuity from the Milosevic era to the twenty first century the struggle at the center of power and relations between Serbia and Montenegro Contributions by Sabrina Ramet James Gow and Milena Michalski explore the role of Serbian wartime propaganda and the impact of the war on Serbian society Essays by Eric Gordy Maja Miljovic Marko Hoare and Kari Osland look at the legacy of Serbia's recent wars issues of guilt and responsibility the economy and the trial of Slobodan Milosevic in The Hague Sabrina Ramet and Biljana Bijelic address the themes of culture and values Frances Trix Emil Kerenji and Dennis Reinhartz explore the peripheries in the politics of Kosovo a Vojvodina and Serbia's Roma Serbia Since 1989 reveals a Serbia that is still traumatized from Milosevic's rule and groping toward redefining its place in the world

**The Mysteries of Artemis of Ephesos** Guy MacLean Rogers, 2012-11-27 Artemis of Ephesos was one of the most widely worshiped deities of the Graeco Roman World Her temple the Artemision was one of the seven wonders of the ancient world and for more than half a millennium people flocked to Ephesos to learn the great secret of the mysteries and sacrifices that were celebrated every year on her birthday In this work Guy MacLean Rogers sets out the evidence for the celebration of Artemis's mysteries against the background of the remarkable urban development of the city during the Roman Empire and then proposes an entirely new theory about the great secret that was revealed to initiates into Artemis's mysteries The revelation of that secret helps to explain not only the success of Artemis's cult and polytheism itself but more surprisingly the

demise of both and the success of Christianity Contrary to many anthropological and scientific theories the history of polytheism including the celebration of Artemis s mysteries is best understood as a Darwinian tale of adaptation competition and change     *Shamanism, Discourse, Modernity* Thomas Karl Alberts, 2016-03-03 Shamanism Discourse Modernity considers indigenous peoples struggles for human rights anxieties about anthropocentric mastery of nature neoliberal statecraft and entrepreneurialism of the self The book focuses on four domains shamanism indigenism environmentalism and neoliberalism in terms of interrelated historical processes and overlapping discourses In doing so it engages with shamanism s manifold meanings in a world increasingly sensitive to indigenous peoples practices of territoriality increasingly concerned about humans integral relationship with natural environments and increasingly encouraged and coerced to adjust self conduct to comport with and augment government conduct
