Behiels, 1985-06-01 In this study of the intellectual origins of Quebec's Quiet Revolution of the 1960s, Michael Behiels has provided the most comprehensive account to date of the two competing ideological movements which emerged after World War II to challenge the tenets of traditional French Canadian nationalism. The neo-nationalists were a group of young intellectuals and journalists centered upon Le Devoir and L'Action nationale in Montreal who set out to reformulate Quebec nationalism in terms of a modern secular urban industrial society which would be fully master in its own house. An equally dedicated group of French Canadians of liberal or social democratic persuasion was based upon the periodical Cit libre, one of whose editors was Pierre Trudeau, and had links with organized labour. Cit libristes sought to remove what they considered to be the major obstacles to the creation of a modern francophone society: the all-pervasive influence of clericalism inherent in the Catholic church's control of education and the social services, and the persistence among Quebec's intelligentsia of an outmoded nationalism which advocated the preservation of a rural and elitist society and neglected the development of the individual and the pursuit of social equality. Behiels delineates the divergent societal models proposed by the two movements by focusing upon such themes as the critique of traditional nationalism, the roles of church, state, and labour, the response to the new federalism, the reform of education, and the search for a third party. He shows how the rivals combined to help bring down an anachronistic Union Nationale government in June 1960. In one form or another, he concludes, Cit libre liberalism and neo-nationalism have remained at the heart of the political and ideological debate that has continued in Quebec since the Duplessis era. **A Short History of Quebec** John A. Morris, 1995-10-18 Examining cartoons published between 1960 and 1979 Morris shows how the artists dealt with particular aspects of Quebec s political experience He looks at Berthio s drawings on Queen Elizabeth s visit and Dupras s on President de Gaulle s Girard s and Berthio s on Quebec Ottawa relations

Girerd s on the referendum campaign and Girerd s and Aislin s on the English minority in Quebec He points out recurring tensions oppositions and associations and analyses them from a sociological perspective One of Morris s major objectives is to better understand the framework through which ideas presented in cartoons are filtered to their audience focusing on the metaphors that underlie the frame message content and form of the cartoons Morris argues that the carnivalization of political figures and events whereby the social structure is mockingly inverted and society s values and taboos are exaggerated until they become ridiculous is a central metaphor governing Quebec cartoons of this period He also explores the metaphor of the family with England and France as grandparents Canada and Quebec as parents and the official language minorities as children
