Renegade Dreams:

Renegade Dreams Laurence Ralph, 2014-09-15 Inner city communities in the US have become junkyards of dreams to quote Mike Davis wastelands where gangs package narcotics to stimulate the local economy gunshots occur multiple times on any given day and dreams of a better life can fade into the realities of poverty and disability Laurence Ralph lived in such a community in Chicago for three years conducting interviews and participating in meetings with members of the local gang which has been central to the community since the 1950s Ralph discovered that the experience of injury whether physical or social doesn't always crush dreams into oblivion it can transform them into something productive renegade dreams The first part of this book moves from a critique of the way government officials as opposed to grandmothers have been handling the situation to a study of the history of the historic Divine Knights gang to a portrait of a duo of gang members who want to be recognized as authentic rappers they call their musical style crack music and the difficulties they face in exiting the gang The second part is on physical disability including being wheelchair bound the prevalence of HIV AIDS among heroin users and the experience of brutality at the hands of Chicago police officers In a final chapter The Frame Or How to Get Out of an Isolated Space Ralph offers a fresh perspective on how to understand urban violence The upshot is a total portrait of the interlocking complexities symbols and vicissitudes of gang life in one of the most dangerous inner city neighborhoods in the US We expect this study will enjoy considerable readership among anthropologists sociologists and other scholars interested in disability urban crime and race

Interrogating Ethnography Steven Lubet, 2018 In this comprehensive review of urban ethnography Steven Lubet encountered a field that relies heavily on anonymous sources often as reported by a single investigator whose underlying data remain unseen Upon digging into the details he discovered too many ethnographic assertions that were dubious exaggerated tendentious or just plain wrong

Employing the tools and techniques of a trial lawyer Lubet uses original sources and contemporaneous documentation to explore the stories behind ethnographic narratives Many turn out to be accurate but others are revealed to be based on rumors folklore and unreliable hearsay Interrogating Ethnography explains how qualitative social science would benefit from greater attention to the quality of evidence and provides recommendations for bringing the field more closely in line with other fact based disciplines such as law and journalism

Dreams - the 60Th Part of Prophecy Deborah M. Miller,2018-10-15 These are images and words in the night In a dream in a vision of the night when deep sleep falls upon men while slumbering on their beds when he opens the ears of men and seals their instruction Job 33 15 16 NKJV Until you get to the place where you have extracted certain behaviors from your system one needs God to have something to put in your face Many times God has to go outside of our spiritual capacity and connect us to something psychologically or scare us with some kind of threat in order to keep us until we can walk as he wants us to walk He uses consequences and deterrents that catch us quickly They catch you on the way so you don t get too deep into something that is going to take half of your mind to get out of it You don t want to go to the edge of your mind to change your mind in order to do a different behavior Noel Jones Within the context of this reference those catalysts consequences and deterrents are your dreams

complex intersections of love and identity offering readers a poignant lens into the tumultuous experiences of women in her era Charlotte Brontë born in 1816 in Thornton England faced a life marked by personal tragedy which undoubtedly influenced her literary voice The loss of her mother and siblings deeply shaped her worldview fostering a profound sense of empathy and introspection Educated in a rigid patriarchal society Brontë's works often defy conventional gender roles reflecting her desire for independence and equality ultimately driving her to articulate the struggles of women in a male dominated literary landscape The Complete Works of Charlotte Brontë is an essential read for those interested in the foundations of feminist literature and the evolution of the Victorian novel This collection not only serves as a valuable academic resource but also as an enriching experience for readers who wish to explore the depth of human emotion and the challenges of societal norms through Brontë's indelible narratives Dive into this masterful anthology to fully appreciate the brilliance of Brontë's literary legacy

Fires of Gold Lauren Coyle Rosen, 2020 *Fires of Gold* is a powerful ethnography of the often shrouded cultural legal political and spiritual forces governing the gold mining industry in Ghana one of Africa's most celebrated democracies Lauren Coyle Rosen argues that significant sources of power have arisen outside of the formal legal system to police adjudicate and navigate conflict in this theater of violence destruction and rebirth These authorities or shadow sovereigns include the transnational mining company collectivized artisanal miners civil society advocacy groups and significant religious figures and spiritual forces from African Islamic and Christian traditions Often more salient than official bodies of government the shadow sovereigns reveal a reconstitution of sovereign power one that in many ways is generated by hidden dimensions of the legal system Coyle Rosen also contends that spiritual forces are central in anchoring and animating shadow sovereigns as well as key forms of legal authority economic value and political contestation This innovative book illuminates how the crucible of gold itself governed by spirits serves as a critical site for embodied struggles over the realignment of the classical philosophical triad the city the soul and the sacred

Traveling with Sugar Amy Moran-Thomas, 2019-12-03 *Traveling with Sugar* reframes the rising diabetes epidemic as part of a five hundred year old global history of sweetness and power Amid eerie injuries changing bodies amputated limbs and untimely deaths many people across the Caribbean and Central America simply call the affliction sugar or as some say in Belize traveling with sugar A decade in the making this book unfolds as a series of *crónicas* a word meaning both slow moving story and slow moving disease It profiles the careful work of those still fighting it as they grapple with unequal material infrastructures and unsettling dilemmas Facing a new incarnation of blood sugar these individuals speak back to science and policy misrecognitions that have prematurely cast their lost limbs and deaths as normal Their families arts of maintenance and repair illuminate ongoing struggles to survive and remake larger systems of food land technology and medicine

The Petro-state Masquerade Ryan Cecil Jobson, 2024-12-04 A historical and ethnographic study of the fraught relationship between fossil fuels and political power in Trinidad and Tobago Examining the past present and future of Trinidad and

Tobago's oil and gas industries anthropologist Ryan Cecil Jobson traces how a model of governance fashioned during prior oil booms is imperiled by declining fossil fuel production and a loss of state control. Despite the twin island nation's increasingly volatile and vulnerable financial condition, however, government officials continue to promote it as a land of inexhaustible resources and potentially limitless profits. The result is what Jobson calls a masquerade of permanence whereby Trinbagonian state actors represent the nation as an interminable reserve of hydrocarbons primed for multinational investment. In *The Petro state Masquerade*, Jobson examines the gulf between this narrative crafted by the postcolonial state and the vexed realities of its dwindling petroleum fueled aspirations. After more than a century of commercial oil production, Trinidad and Tobago instructs us to regard the petro state as less a permanent form than a fragile relation between fossil fuels and sovereign authority. Foregrounding the concurrent masquerades of oil workers, activists, and Carnival revelers, Jobson argues that the promise of decolonization lies in the disarticulation of natural resources, capital, and political power by ordinary people in the Caribbean.

Social Deviance Tim Delaney, 2017-06-16 The topic of social deviance is inherently intriguing. People in general and college students in particular find the topic of deviant behavior fascinating. This can be explained at least in part by a combination of the subject matter itself, our own past deviant behaviors, and our willingness and desire to evaluate and comment on the behaviors of others. While the topic of deviant behavior seems straightforward at the surface, the study of social deviance reveals how complicated it really is. Although *Social Deviance* utilizes a textbook style approach in its coverage of deviant behavior, this comprehensive, straightforward, and student-friendly book maintains student interest because of the author's use of real-life phenomena and current examples. Each chapter includes chapter objectives, an introductory story, a glossary of key terms, discussion questions, and boxed material. The boxed materials include a Closer Look box that zooms in on topics that warrant deeper explanation and a Connecting Social Deviance and Popular Culture box that shows how contemporary forms of popular culture illustrate deviant behavior.

Live to See the Day Nikhil Goyal, 2023-08-22 An indelible portrait of three children struggling to survive in the poorest neighborhood of the poorest large city in America, Kensington, Philadelphia, is distinguished only by its poverty. It is home to Ryan, Giancarlo, and Emmanuel, three Puerto Rican children who live among the most marginalized families in the United States. This is the story of their coming of age, which is beset by violence: the violence of homelessness, hunger, incarceration, stray bullets, sexual and physical assault, the hypermasculine logic of the streets, and the drug trade. In Kensington, eighteenth birthdays are not rites of passage but statistical miracles. One mistake drives Ryan out of middle school and into the juvenile justice pipeline. For Emmanuel, his queerness means his mother's rejection and sleeping in shelters. School closures and budget cuts inspire Giancarlo to lead walkouts, which get him kicked out of the system. Although all three are high school dropouts, they are on a quest to defy their fate and their neighborhood and get high school diplomas. In a triumph of empathy and drawing on nearly a decade of reporting, sociologist and policymaker Nikhil Goyal follows Ryan, Giancarlo, and Emmanuel on their mission.

plunging deep into their lives as they strive to resist their designated place in the social hierarchy In the process Live to See the Day confronts a new age of American poverty after the end of welfare as we know it after zero tolerance in schools criminalized a generation of students after the odds of making it out are ever slighter

Connective Tissue Lily N. Shapiro, 2025-07-15 An ethnography of factory accidents and their attendant reconstructive plastic surgeries in Coimbatore Tamil Nadu Connective Tissue explores notions of risk work and labor practices and the way meaning is made from experiences of trauma care and recovery The book charts a rough chronology of the accident from the workspace that preceded it the transformation of the workspace by the accident through journeys to and treatment in the hospital and then the various and complex ways in which the accident reverberates into the future during recovery Connective Tissue revisits scholarship on factory labor by analyzing the accident as constitutive of the experience of work itself and it refines existing conversations about the body trauma and care by introducing an analysis informed by theories of labor and production Author Lily N Shapiro argues that care does not happen in spite of or on the margins of capitalism but rather that capitalism

happens in and through care and caring relations These experiences are intersected by identities of caste class and gender and entangled in state discourse about labor rights welfare and industrial law Life and Works of Charlotte Brontë and Her Sisters: Villette, by C.
