Núñez,2021-06-15 Being is greater than doing We all come into the world with a certain emptiness in our lives an emptiness that leads to a search for meaning And the world tells us that search for meaning can be solved by doing Unfortunately an overemphasis on doing has led many people away from cultivating an interior life that allows them to sustain their exterior life This explains the many failures we continuously see in day to day life When a person s inner life who he or she is is not prepared that person s character does not have the maturity or the strength to sustain them in the long run In this book Miguel N ez points us to Scripture and experience to show us how being is more important than doing He teaches us how to cultivate the foundations of our lives so that we can be what we need to be in order to do what we need to do

Vietnam's Socialist Servants Minh T. N. Nguyen, 2014-08-27 Since Vietnam introduced economic reforms in the mid 1980s domestic service has become an established sector of the labour market and domestic workers have become indispensable to urban life in the rapidly changing country This book analyzes the ways in which the practices and discourses of domestic service serve to forge and contest emerging class identities in post reform Vietnam Drawing on a rich and diverse range of qualitative data including ethnographies interviews and narratives it shows that such practices and discourses are rooted in cultural notions of gender and rural urban difference and enduring socialist structures of feeling which in turn clash with the realities of growing differentiation Domestic workers experiences reveal negotiations with class boundaries actively set by the urban middle class who seek distinction through emerging notions and practices of domesticity These boundaries are nevertheless riddled with gender and class anxiety on the side of the latter partly because of the very struggles and contestations of the domestic workers More broadly Minh T N Nguyen links the often invisible intimate dynamics of class formation in the domestic sphere with wider political economic processes in a post socialist country embarking on marketization while retaining the political control of a party state As a pioneering ethnographic study of domestic service in Vietnam today this book will be of great interest to students and scholars of Southeast Asian culture society social anthropology gender studies human geography and development studies **Streets and population**

Evans,2005-10-25 A tremendous book the biography of a city which charts the multifarious pathways from bacilli to burgomaster Roy Porter London Review of Books Why were nearly 10 000 people killed in six weeks in Hamburg while most of Europe was left almost unscathed As Richard J Evans explains it was largely because the town was a free city within Germany that was governed by the English ideals of laissez faire The absence of an effective public health policy combined with ill founded medical theories and the miserable living conditions of the poor to create a scene ripe for tragedy The story of the cholera years is in Richard Evans s hands tragically revealing of the age s social inequalities and governmental pitilessness and incompetence it also offers disquieting parallels with the world s public health landscape today including the current coronavirus crisis **Kashmir and Jammu** Joshua Duke,1910 **Anti-Corruption Generation: The Voice of Young Civil Servant in Transformation** Panggih Priyo Subagyo,Royyan Mahmuda Daulay ,Wahyu Saefudin, As Nelson Mandela said Education is the most powerful weapon we can use to change the world This book is part of the education we provide to young civil servants which provides an in depth understanding of the dangers of corruption and the importance of integrity This book will also inspire current and future generations reminding us that eradicating corruption is not just the government s task but also the responsibility of all of us
