salaried employee of the Dutch East India Company a multinational trading company His mission was to find new lands with goods to trade He first saw New Zealand on 13th December 1642 Five days later he had a dramatic encounter with the locals a tribe of M ori called Ng ti T matak kiri This was the first meeting of M ori and Europeans Tasman had not found an empty land it had already been discovered and settled New Zealand was discovered by Polynesians from the Central Pacific around 950 AD but remained only sparsely populated for three hundred years In approximately 1300 AD a wave of Polynesian migration began The immigrants that went to New Zealand did so for self preservation They risked the voyage to New Zealand to escape warfare death or starvation On 19th December 1642 Abel Tasman s crews met the locals with fatal consequences Those local M ori were descendants of the crew of the waka Kurahaup who had arrived in New Zealand about 300 years earlier Two Voyages follows the journeys of the waka Kurahaup its occupants and their descendants and Abel Tasman and his crew It follows the journeys from their origins to their point of coincidence in Golden Bay This wonderfully illustrated book explores the discovery of New Zealand by the Polynesians and by the Europeans after them It looks at the factors giving impetus to the two journeys the people who undertook them their routes the means by which they travelled and their tragic first meeting There are many books about the history of New Zealand that begin with the arrival of Europeans this one ends there
