Look at It This Way Jack McArdle, 2005 A personal theological exploration of the afterlife *The Gift of Purpose* J. Alexander Rutherford, 2020-12-18 Many writers and commentators are convinced that Western culture and society are unravelling Who can blame them As I write this violent protests rage across the USA in response to senseless murders The political sphere has never seemed to virulent and a deadly epidemic has affected all our lives Many are agreed that there are serious problems working themselves out in Western society yet among Christians there is little agreement over the approach we should take to the West and its problems This issue how Christians should approach engagement with culture is not a new one nor is it a uniquely Western issue Christians in every age and in every culture are confronted with this question In response to many today who see it as the Christian responsibility to save the West to preserve its unique cultural heritage and achievements this author argues that our lives in this world need to be governed by three theological themes ecclesiology soteriology and eschatology That is we must prioritize the local church engage with society with the understanding that earthly kingdoms are manifestations of Satan s kingdom and live in light of Christ s imminent return

The Pursuit of Meaning Benicia Masangu, 2022-07-12 The book is a simplified and structured way of understanding the reason for the complex journey of life on earth as God sees it and the presentation of the path that leads to meaning and redemption **Augustine on the Christian Life** Gerald Bray, 2015-10-14 Augustine is widely considered to be one of the most influential theologians of all time and stands as a giant among giants in the history of the Christian faith However while many Christians are familiar with the broad strokes of his theology few readers today have explored the riches of his spiritual life In this addition to Crossway s growing Theologians on the Christian Life series renowned scholar Gerald Bray seeks to show us that Augustine is just as relevant today as it was in AD 430 Focusing on the North African pastor s personal transformation and dependence on the the Word of God Bray gives us a picture of this ancient hero of the faith that can sharpen and encourage modern believers Part of the Theologians on the Christian Life series **Worldview as Worship** Eddie Karl Baumann, 2011-08-01 The goal of many evangelical educators is to facilitate biblical thinking and the worldview transformation of their students Yet aside from upholding a set of moral behaviors or maintaining positions on issues perceived to be Christian the goals and aspirations of most evangelical young people differ little from their unbelieving peers As George Barna has noted We have a generation coming up that isn t looking at Christianity to answer spiritual concerns We either change or we lose them Worldview as Worship contends that the approach taken by most evangelical educators to the issue of worldview transformation has neglected to address two fundamental components of worldviews First that our initial worldviews are not philosophical systems but rather faith dispositions and that worldview transformation cannot simply present the biblical worldview as a more rational or logical system but must address issues of the heart as well as the mind Second unlike philosophies that are individual worldviews are communal and are learned and transformed within the

context of community practice Appealing to Paul's teaching in Romans 12:1-2 Worldview as Worship approaches the renewing of your mind as the result of the believer's presentation of themselves as a holy sacrifice which is your spiritual service of worship The book advocates an approach to worldview transformation that focuses on believers as apprentices rather than simply as students an approach that holds true to the biblical model of discipleship As a result worldview transformation works best when the application of faith to the issues of learning and life are modeled by the faith community and where students are given the opportunity to put faith into practice Transforming into Christlikeness Hung Chey Loh,

The Catholic Moral Tradition Today Charles E. Curran, 1999-04-05 The Catholic tradition has always tried to explain its theology in a coherent and systematic way but the great changes and tensions existing within Catholic moral theology today have made it difficult to develop systematic approaches to what was once called fundamental moral theology Now a leading scholar active in this field for forty years offers a synthesis of Catholic moral theology set in the context of the broader Catholic tradition and the significant developments that have occurred since the Second Vatican Council Charles E Curran's succinct coherent account of his wide ranging work in Catholic moral theology points out agreements disagreements and changes in significant aspects of the Catholic moral tradition His systematic approach explores major topics in a logical development the ecclesiological foundation and stance of moral theology the person as moral subject and agent virtues principles and norms conscience and decision making and the role of the church as a teacher of morality Curran's work condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its rich history Of great interest to theologians for its broad synthetic scope this book is also a thorough introduction to the Catholic moral tradition for students and interested readers including non Catholics *Themelios, Volume 41, Issue 2* D. Faith, Hope, Love, and Justice Anselm K. Min, 2018-03-28 Faith hope and love traditionally called theological virtues are central to Christianity This book renews faith hope and love in the context of the many contemporary challenges in many unique ways It is an ecumenical collection of papers equally divided between Catholic and Protestant positions that seek to radically renew the classical doctrine of faith hope and love and argues for their essential connection to the praxis of justice It contains eight different approaches each represented by a distinguished theologian and addressing different aspects of the issues and followed by insightful and critical responses It does not merely seek to renew the theological virtues but to also reconstruct them in the demanding context of justice and the contemporary world nor is it simply a treatise on justice but a theoretical and practical reflection on justice as vital expressions of faith in God hope in God and love of God A non dogmatic and non ideological approach it accommodates both conservative and liberal positions and avoids the separation of the theological virtues from the demands of the contemporary world as well as the separation of justice talk from the theological context of faith hope and love It seeks above all to renew not merely repeat

the classical doctrine of faith hope and love in the contemporary context of the urgency of justice and to do so ecumenically comprehensively and from a variety of perspectives and aspects *The Gospels and Christian Life in History and Practice* Richard Valantasis,Douglas K. Bley, Dennis C. Haugh,2009-07-16 The Gospels And Christian Life reads the four canonical Gospels as handbooks for religious formation through communal practices The book focuses on the communities that produced each gospel the dynamic energy each gospel displays for creating and sustaining community life the different interpretations of the person of Jesus and the different systems of organization and leadership each gospel promulgated The authors carefully describe the social context of each Gospel and delineate the practices the texts prescribe Each gospel has an imaginative portal an introductory chapter introducing the necessary background for understanding the social intellectual and religious setting for each gospel Their reading of each Gospel builds on these foundations to illustrate the nature and scope of the community s practices Their work starts from the assumption that the communities did not look to the Gospels for biographical data on the life of Jesus to offer the reader a powerful reading of each Gospel community its unique practices and the way people were trained to become members of it This book is aimed at undergraduate and graduate teachers and students pastors and the general audience eager for new ways to understand the New Testament *Justification and the Kingdom of God, Volume One* Paul Chul Hong Kang,2025-01-17 The Justification and Kingdom of God series seeks to answer the question How can justified Christians in Jesus bear the fruit of faith reflecting growth in God s image To address this the series helps readers understand what happens to the image bearers of God in Adam or in Jesus Christ This reveals the deeper meaning of the gospel and the restoration of God s image uncovering hidden treasures Now the challenge is whether you will accept these treasures The Kingdom of the Covenant emphasizes the eternal kingdom of the living God through the lens of God s righteousness This encourages readers to remember God s righteousness which runs through his covenants serves as the legal standard of governance the standard of salvation and the standard of a good life Just as God s righteousness is the foundation of his word for his kingdom God s word is the standard for wisdom knowledge judgment and actions Through his word God opens the gates of heaven and connects the present reality of lives with the eternal nature of his kingdom Now lives of faith on this earth carry eternal consequences This book asks What would you do with this gift God s word The Living Church ,1979 **Reimagining the Landscape of Religious Education** Zehavit Gross,2023-03-13 This book brings together new thinking and research on religious education s complex and evolving role in the multicultural diverse postmodern era It facilitates new realism and understanding of the current situation from empirical and reflective accounts relating to a variety of countries and political contexts as well as providing innovative methodological approaches to the study of education and religion In different contexts around the world at different levels of education and from different theoretical lenses religious education occupies a contested space The ongoing changing nature of the world due to increasing secularization rapid technological change mass immigration globalization processes conflict and challenging security issues

from inter to intra state levels and with shifting geopolitical power balances generates the need to reconceptualize where religious education is positioned. It claims that religious education on its own can be an agent of moral, social and spiritual transformation, but this is disputed. There is significant controversy about whether special religious education that is in faith education still has a role within the post modern world. Cuckoos in Our Nest Iain Provan, 2023-05-23. Throughout the history of the Christian church there have been moments of significant theological crisis and we are currently in the midst of another. But our pressing question is not Who is Jesus as it was in the fourth century nor How can we be saved as it was in the sixteenth. Now it is What is a human being. In many communities that claim the name Christian even people who can provide correct answers to the first two questions are currently confused when it comes to the third. This book is intended to help all such readers understand how they should as faithful Christians respond to this crucially important question and how they should live as a result. At the same time it seeks to equip these serious Christians to recognize the non Christian roots of the powerful competing ideas of the human that they encounter every day both in contemporary society and in contemporary churches and to have the courage to reject them. For these unbiblical ideas when embedded in a church do damage to Christian faith and life. They are destructive cuckoos in the Christian nest.
