Material Christianity Colleen McDannell, 1995-01-01 What can the religious objects used by nineteenth and twentieth century Americans tell us about American Christianity What is the relationship between the beliefs of the faithful and the landscapes they build This lavishly illustrated book investigates the history and meaning of Christian material culture in America over the last 150 years Drawing on a rich array of historical sources and on in-depth interviews with Protestants Catholics and Mormons Colleen McDannell examines the relationship between religion and mass consumption She describes examples of nineteenth century religious practice Victorians burying their dead in cultivated cemetery parks Protestants producing and displaying elaborate family Bibles Catholics writing for special water from Lourdes reputed to have miraculous powers And she looks at today's Christians Mormons wearing sacred underclothing as a reminder of their religious promises Catholics debating the design of tasteful churches and Protestants manufacturing marketing and using a vast array of prints clothing figurines jewelry and toys that some label Jesus junk but that others see as a witness to their faith McDannell claims that previous studies of American Christianity have overemphasized the written cognitive and ethical dimensions of religion presenting faith as a disembodied system of beliefs She shifts attention from the church and the

theological seminary to the workplace home cemetery and Sunday school highlighting a different Christianity one in which average Christians experience the divine the nature of death the power of healing and the meaning of community through interacting with a created world of devotional images environments and objects **The Saturday Evening Post** ,1900

Surviving the Evacuation 23: One Minute More Frank Tayell, 2025-05-24 Was anyone else alive With each kilometre travelled Maggs Espoir is increasingly certain the answer is no In the aftermath of the outbreak most people

barricaded their homes or fled to somewhere remote Maggs and her husband Etienne went to work ensuring the electricity supply for Quebec and beyond When the mushroom clouds rose above Montreal the lights finally went out and Maggs and Etienne were separated In the year since Maggs hasn't stopped searching for her husband or given up hope that he's still alive Between bandits plagues and the ever present undead Maggs and her small community are forced to flee one refuge after another As civilisation fades into memory the roads become increasingly treacherous Strangers are more likely to offer a gunshot than a welcome Medicines run out Food runs scarce Only the undead endure As the long winter finally comes to an end her community is forced to accept that they might be among the very last survivors in North America if not the world For some this realisation brings despair Others see the increasing division as an opportunity for power With factionalism rising Maggs is tempted to strike out on her own until the chance sighting of a plane suggests they aren't alone after all A plane means more than just survivors It means a runway a fuel supply and enough food security that some people can be spared from farming It means civilisation And if those people survived the evacuation then perhaps her husband survived too A story of love loss and determination set in the Pacific Northwest three months before the events of Book 22
