Looking Deep:

Looking Deep in the Southern Sky Raffaella Morganti, Warrick J. Couch, 2013-11-11 The idea of a joint ESO Australia meeting on the large number of exciting new facilities that are or will soon be available in the southern hemisphere arose quite naturally. In the optical and the near infrared the Very Large Telescope VLT will soon be operational. In the radio the Australia Telescope Compact Array is going to be upgraded to higher frequencies 20 and 100 GHz together with an improvement in very long baseline interferometry VLBI facilities. Other major facilities such as the Large Millimetre Array and the SKA are being planned. Moreover new deep surveys are underway in the southern hemisphere: the southern Hubble Deep Field, the ESO Imaging Survey, the Sloan Digital Sky Survey with the UK Schmidt telescope and the Anglo-Australian Telescope AAT 2dF galaxy QSO redshift survey in the optical and the Parkes multibeam HI survey and Molonglo Observatory Synthesis Telescope MOST Wide Field continuum survey at radio wavelengths. With all these new facilities important progress will be made regarding important issues such as the large scale structure of the universe, the very early universe and the associated first epoch of galaxy formation. The generation of large databases and the opportunity for sensitive follow up observations in complementary wavebands mean that coordinated radio, infrared and optical projects in the southern hemisphere are likely to become increasingly attractive and important.

Child Of Mist: Dark Days (Child Of Mist, Book 2) Lola Stvil, There is no escape from the Hell that awaits them. There is evil everywhere. Rayne turns. How will she know whom to trust as they undergo their new mission? And now they are facing the wrath of the dark Fae world. Is there any hope of them surviving? With darkness lurking in every shadow, one thing is clear: not everyone will make it out alive.

Safe House Andrew Vachss, 1999-03-30 In Burke Vachss gave readers of crime fiction a hero they could believe in: an avenger whose sense of justice was forged behind bars and tempered on New York's meanest streets. In this blistering new thriller Burke is drawn into his ugliest case yet: one that involves an underground network of abused women and the sleekly ingenious stalkers who've marked them as their personal victims. Burke's client is Crystal Beth, a beautiful outlaw with a tattoo on her face and a mission burned into her heart. She is trying to shield one of her charges from a vengeful ex with fetishes for Nazism and torture. But the stalker has a protector: someone so informed, so ruthless and so connected that he need only make a few phone calls to shut down Crystal Beth's operation for good. And Burke, along with it, is sinuous in its complexities, brutal in its momentum. Safe House is Burke at the edge of his nerve and cunning. And it's Vachss at the peak of his form.

Tactics of Conquest Barry N. Malzberg, 2011-09-29 You mean we're truly going to play for the fate of the Universe? Exactly. The Overlord said a forty-one game chess match to be broadcast throughout all civilized sectors of your Universe so that everyone can witness it. But why chess? Why me? Why this planet? Because chess is ideal for such a final judgement: it is a methodical game with absolutely no element of luck and therefore there can be no complaints by the loser. Chess is known only to you, your plant and you, and your opponent are the most evenly matched living players. Good against evil. No other chess.
