Looking For Harlem Urban Aesthetics In African American Literature:

Looking for Harlem Maria Balshaw, 2000-12-20 Taking the incredible flowering of African American literature in the 1920s as its starting point *Looking for Harlem* offers a cogent and persuasive new reading of a diverse range of twentieth century black American writing From the streets subways hotels and cabarets of New York s Harlem and Chicago s Southside Maria Balshaw moves beyond the canon to encompass often neglected writing by Rudolph Fisher Wallace Thurman and Claude McKay as well as the more familiar work of Richard Wright Ralph Ellison Nella Larsen and Toni Morrison In a provocative revision of African American literary history Balshaw examines the creation of an urban aesthetic and explores the links between the engagement with the city and fictional reconstructions of racial identity and race writing Focusing on the material culture of the city the visual sense of the urban environment the class dynamics of urban culture and the crucial importance of consumerism this study presents a critically astute challenging and very welcome new approach to a much studied area of contemporary American fiction

The Geographies of African American Short Fiction Kenton Rambsy, 2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives *The Geographies of African American Short Fiction* seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale Hurston and Richard Wright Using quantitative information and an extensive literary dataset *The Geographies of African American Short Fiction* explores how editorial practices shaped the canon of African American short fiction

Boys, Boyz, Bois Keith Harris, 2012-12-06 *Boys Boyz Bois* concerns questions of ethics gender and race in popular American images national discourse and cultural production by and about black men The book proposes an ethics of masculinity as ethnics refers to a system of morality and valuation and as ethics refers to a care of the self and ethical subject formation The texts of analysis include recent films by black African American filmmakers gangsta rap and hip hop and black star persona texts ranging from Blaxploitation and New Black Cinema to contemporary music video to autobiography and the public image of Sidney Poitier The book is a

significant contribution to cultural studies and gender studies and critical race theory What is distinctive about the book is the question of ethics as a question of race and gender American Tantalus Andrew Warnes, 2014-10-23 American Tantalus argues that modern US fictions often grow preoccupied by tantalisation This keyword might seem commonplace thesauruses certainly often lump it in with tease and torment in their general inventories of desire Such lists however mislead Just as most US dictionaries have in fact long recognised tantalise's origins in *The Odyssey* so they have defined it as the unique desire we feel for objects that like the fruit and water once cruelly placed before Tantalus lie within our reach yet withdraw from our attempts to touch them On these terms American Tantalus shows tantalise not only describes a particular kind of thwarted desire but also one that dominates modern US fiction to a remarkable extent For this term specifically evokes the yearning to touch alienated or virginal objects that we find examined by F Scott Fitzgerald Toni Cade Bambara Richard Wright and Toni Morrison and it also indicates the insatiable pursuit of the horizon so important to Willa Cather and Edith Wharton among others This eclectic canon indeed prefers the dictionary to the thesaurus unreachable destinations and untouched commodities here indeed tantalise inviting gestures of inquiry from which they then recoil This focus while lodging cycles of tantalisation at the very heart of American myth holds profound implications for our understanding of modernity and in particular of the cultural genesis of the commodity as a form Encyclopedia of American Urban History David Goldfield, 2007 Publisher description

Narratives of African American Women's Literary Pragmatism and Creative Democracy Gregory Phipps, 2018-11-02 This book charts an interdisciplinary narrative of literary pragmatism and creative democracy across the writings of African American women from the works of nineteenth century philosophers to the novels and short stories of Harlem Renaissance authors The book argues that this critically neglected narrative forms a genealogy of black feminist intersectionality and a major contribution to the development of American pragmatism Bringing together the philosophical writings of Maria Stewart Anna Julia Cooper and Mary Church Terrell and the fictional works of Jessie Fauset Nella Larsen and Zora Neale Hurston this text provides a literary pragmatist study of the archetypes tropes settings and modes of resistance that populate the narrative of creative democracy Above all this book considers how these philosophers and authors construct democracy as a lived experience that gains meaning not through state institutions but through communities founded on relationships among black women and their shared understandings of culture knowledge experience and rebellion

A History of the Harlem Renaissance Rachel Farebrother, Miriam Thaggert, 2021-02-04 This book presents original essays that explore the eclecticism of Harlem Renaissance literature and culture *How the Streets Were Made* Yelena Bailey, 2020-10-12 In this book Yelena Bailey examines the creation of the streets not just as a physical racialized space produced by segregationist policies but also as a sociocultural entity that has influenced our understanding of blackness in America for decades Drawing from fields such as media studies literary studies history sociology film studies and music studies this book engages in an interdisciplinary analysis of the how the streets have shaped contemporary

perceptions of black identity community violence spending habits and belonging Where historical and sociological research has examined these realities regarding economic and social disparities this book analyzes the streets through the lens of marketing campaigns literature hip hop film and television in order to better understand the cultural meanings associated with the streets Because these media represent a terrain of cultural contestation they illustrate the way the meaning of the streets has been shaped by both the white and black imaginaries as well as how they have served as a site of self assertion and determination for black communities

Writing the City Desmond Harding,2004-06-01 Writing the City examines and challenges the traditional transatlantic axis of urban modernism London Paris New York an axis that has often elided the historical importance of other centers that have shaped metropolitan identities and discourses According to Desmond Harding James Joyce s internationalist vision of Dublin generates powerful epistemic and cultural tropes that reconceive the idea of the modern city as a moral phenomenon in

transcultural and transhistorical terms Taking up the works of both Joyce and John Dos Passos Harding investigates the lasting contributions these author s made to transatlantic intellectual thought in their efforts to envisage the city *Fictions of Globalization* James Annesley,2009-02-01 The globalization debate has become a dominant question in many disciplines but has only tended to be covered within literary studies in the context of postcolonial literature This book focuses on reading contemporary novels in relation to globalization

Re-Covering Modernism David Earle,2016-03-03 In the first half of the twentieth century modernist works appeared not only in obscure little magazines and books published by tiny exclusive presses but also in literary reprint magazines of the 1920s tawdry pulp magazines of the 1930s and lurid paperbacks of the 1940s In his nuanced exploration of the publishing and marketing of modernist works David M Earle questions how and why modernist literature came to be viewed as the exclusive purview of a cultural elite given its availability in such popular forums As he examines sensational and popular manifestations of modernism as well as their reception by critics and readers Earle provides a methodology for reconciling formerly separate or contradictory materialist cultural visual and modernist approaches to avant garde literature Central to Earle s innovative approach is his consideration of the physical aspects of the books and magazines covers dust wrappers illustrations cost which become texts in their own right Richly illustrated and accessibly written Earle s study shows that modernism emerged in a publishing ecosystem that was both richer and more complex than has been previously documented

The Negritude Movement Reiland Rabaka,2015-05-20 The Negritude Movement provides readers with not only an intellectual history of the Negritude Movement but also its prehistory W E B Du Bois the New Negro Movement and the Harlem Renaissance and its posthistory Frantz Fanon and the evolution of Fanonism By viewing Negritude as an insurgent idea to invoke this book s intentionally incendiary subtitle as opposed to merely a form of poetics and aesthetics The Negritude Movement explores Negritude as a traveling theory la Edward Said s concept that consistently crisscrossed the Atlantic Ocean in the twentieth century from Harlem to Haiti Haiti to Paris Paris to Martinique Martinique to Senegal and on and on ad infinitum The Negritude Movement maps the movements of proto Negritude concepts from Du Bois s discourse in *The Souls of Black Folk* through to post Negritude concepts in Fanon s *Black Skin White Masks* and *The Wretched of the Earth* Utilizing Negritude as a conceptual framework to on the one hand explore the Africana intellectual tradition in the twentieth century and on the other hand demonstrate discursive continuity between Du Bois and Fanon as

well as the Harlem Renaissance and Negritude Movement The Negritude Movement ultimately accents what Negritude contributed to arguably its greatest intellectual heir Frantz Fanon and the development of his distinct critical theory Fanonism Rabaka argues that if Fanon and Fanonism remain relevant in the twenty first century then to a certain extent Negritude remains relevant in the twenty first century
