Nothing Bad Happens to Good Girls Esther Madriz, 2023-04-28 The possibility of being a victim of a crime is ever present on my mind thinking about it as natural as breathing 40 year old woman This is a compelling analysis of how women in the United States perceive the threat of crime in their everyday lives and how that perception controls their behavior Esther Madriz draws on focus groups and in depth interviews to show the damage that fear can wreak on women of different ages and socioeconomic backgrounds Although anxiety about crime affects virtually every woman Madriz shows that race and class position play a role in a woman's sense of vulnerability Fear of crime has resulted in public demand for stronger and more repressive policies throughout the country As funds for social programs are cut Madriz points out those for more prisons and police are on the increase She also illustrates how media images of victims good victims aren't culpable bad victims invite trouble and a tough political stance toward criminals are linked to a general climate of economic uncertainty and conservatism Madriz argues that fear itself is a strong element in keeping women in subservient and self limiting social positions Policing themselves they construct a restricted world that leads to positions of even greater subordination Being a woman means being vulnerable Considering the enormous attention given to crime today including victims rights and use of public funds Madriz's informative study is especially timely The possibility of being a victim of a crime is ever present on my mind thinking about it as natural as breathing 40 year old woman This is a compelling analysis of how women in the United States perceive the threat of crime in their everyday The Spanish Language in the United States José Cobas, Bonnie Urciuoli, Joe Feagin, Daniel Delgado, 2022-02-24 The Spanish Language in the United States addresses the rootedness of

Kin Alai Reyes-Santos,2015-06-15 Beset by the forces of European colonialism US imperialism and neoliberalism the people of the Antilles have had good reasons to band together politically and economically yet not all Dominicans Haitians and Puerto Ricans have heeded the calls for collective action So what has determined whether Antillean solidarity movements fail or succeed In this comprehensive new study Ala Reyes Santos argues that the crucial factor has been the extent to which Dominicans Haitians and Puerto Ricans imagine each other as kin Our Caribbean Kin considers three key moments in the region s history the nineteenth century when the antillanismo movement sought to throw off the yoke of colonial occupation the 1930s at the height of the region s struggles with US imperialism and the past thirty years as neoliberal economic and

social policies have encroached upon the islands At each moment the book demonstrates specific tropes of brotherhood marriage and lineage have been mobilized to construct political kinship among Antilleans while racist and xenophobic discourses have made it difficult for them to imagine themselves as part of one big family Recognizing the wide array of contexts in which Antilleans learn to affirm or deny kinship Reyes Santos draws from a vast archive of media including everything from canonical novels to political tracts historical newspapers to online forums sociological texts to local jokes Along the way she uncovers the conflicts secrets and internal hierarchies that characterize kin relations among Antilleans but she also discovers how they have used notions of kinship to create cohesion across differences Hearings United States.
