

A dramatic landscape featuring a rugged mountain peak in the foreground, partially covered in snow or light-colored rock. The sky is filled with soft, golden light from a low sun, creating a warm, hazy atmosphere. The overall scene is serene and majestic.

Love your enemies, bless
them that curse you, do
good to them that hate you.

Love For An Enemy:

'*Love Your Enemies*' John Piper, 1979 *Enemies and How to Love Them* Gerard Vanderhaar, 2013-09-01 This compassionate book describes the making of enemies in our personal social and national lives. It goes on to outline a nonviolent approach to resolving enmity wherever it arises. It taps the rich resources of Jesus two thousand year old formula: Love your enemies with the help of our contemporary understanding of Gandhian active nonviolence. The author offers a life changing habit breaking approach of understanding focusing and negotiating as a positive alternative to the usual flight or fight response to enemies. The book sketches an informative portrait of the Soviet Union that includes insights into its communist ideology its political structures and the practice of religion in the country. The book stresses that the USSR is a nation of real people who are interesting sometimes colorful yet always struggling.

On Love and Charity Saint Thomas Aquinas, 2008-07 Among the great works of Thomas Aquinas the Commentary on the Sentences of Peter Lombard has suffered almost total neglect among translators. Such neglect is surprising considering that the massive Commentary more than 4 000 pages in the last printed edition is not only Aquinas's first systematic engagement with all the philosophical and theological topics on which he expended his energy over the span of a short career but is also characterized by an exuberance and elaborateness seldom found in his subsequent writings. Although Chenu had already drawn attention decades ago to the importance of studying this youthful tour de force for a fuller understanding of Thomas's more mature work the Commentary on the Sentences has remained a closed book for many modern students of Thomistic and medieval thought because of its relative inaccessibility in English or in Latin. The present volume containing all the major texts on love and charity makes available what is by far the most extensive translation ever to be made from the Commentary with the added benefit that the better part of the translation is based on the as yet unpublished critical edition of the Leonine Commission. The collection of texts from all four books has a tight thematic coherence that makes it invaluable to students of Thomas's moral philosophy moral theology and philosophical theology. In addition the inclusion of parallel texts from Aquinas's first Parisian Commentary as well as from his second Roman attempt at a commentary the recently rediscovered *Lectura Romana* makes this edition all the more valuable for those who wish to track the internal development of Thomas's thinking on these matters. The new availability of so many rich passages from the Commentary on the Sentences will encourage and facilitate use of a magnificent resource that deserves to be better known. The printed volume is supplemented by a web based document containing a fuller introduction webnotes and a bibliography. To reach this supplementary information click [here](#).
