Between Text and Text Michaela Bauks,Wayne Horowitz,Bernd Hene,2013-06-19 The intertextuality research of antique texts and their reception in Medieval and modern times is the subject of this volume 1 What is a text and what is an intertext This concerns the various different forms of text and how they present themselves in architecture iconography lexicography the study of lists etc 2 Forms of intertextuality on the relationship between writtenness and oralness how oral texts are objectified during textualisation and become fixed acts of speech K Ehlich how especially antique texts were shaped by the continual interconnectedness of oral and written traditions 3 What is understood in ancient Oriental and antique literature by tradition and transmission To this end the research includes languages historical reality and antique thought structures making clear that the transferral of tradition occurs not only within a close cultural circle but in the exchange with neighbouring cultures over large distances and geographic boundaries 4 On the relationship between intertextuality and canon A number of contributions study this aspect of ongoing historical debate as it often found for culturally definitive and canonised texts a necessary part of the their rejuvenation process Contributions by M Bauks A Lange Z Plese Ph Alexandre S Aufr re M Oeming K Davidowicz A Wagner G Selz M F Meyer L Roig Lanzillotta M Dimitrova F Waldman W Horowitz M Risch J van Ruiten L Bormann A Miltenova J Taschner G Brooke G Dorival A Harder and S Alkier *The Inside Text* R. Harper,L. Palen,A. Taylor,2005-03-21 SMS or Text is one of the most popular forms of messaging Yet despite its immense popularity SMS has remained unexamined by science Not only that but the commercial organisations who have been forced to offer SMS by a demanding public have had very little idea why it has been successful Indeed they have until very recently planned to replace SMS with other messaging services such as MMS This book is the first to bring together scientific studies into the values that texting provides examining both cultural variation in countries as different as the Philippines and Germany as well as the differences between SMS and other communications channels like Instant Messaging and the traditional letter It presents usability and design research which explores how SMS will evolve and what is likely to be the pattern of person to person messaging in the future In short The Inside Text is a fundamental resource for anyone interested in mobile communications at the start of the 21st Century **Love's Labour's Lost.
