**Love & Death** Max Wallace, Ian Halperin, 2004-04-09 A stunning and groundbreaking investigation into the death of one of the great rock icons of our times revealing new evidence that points to a terrible conclusion On Friday April 8 1994 a body was discovered in a room above a garage in Seattle For the attending authorities it was an open and shut case of suicide What no one knew then however and which is only being revealed here for the very first time is that the person found dead that day Kurt Cobain the superstar frontman of Nirvana was murdered In early April 1994 Cobain went missing for days or so it seemed in fact some people knew where he was and one of them was Courtney Love Now a star in Hollywood and rock music in early 1994 she was preparing to release her major label debut with her band Hole and what she knew then though few others did was that Cobain was planning to divorce her Love it also reveals for the first time the case tapes made by Love s own P I Tom Grant a man on a mission to find the truth about Kurt Cobain s demise and introduces us to a number of characters who feature in various theories about plots to kill Cobain In addition Cobain s grandfather goes public charging that his grandson was murdered Drawing on new forensic evidence and police reports obtained under the Freedom of Information Act the book explodes the myths that have long convinced the world that Cobain took his own life and reveals that the official scenario was scientifically impossible Against a background of at least sixty eight copycat suicides since 1994 award winning investigative journalists Max Wallace and Ian Halperin have conducted a ten year crusade for the truth and in Love Death they are finally able to present a chilling and convincing case that each and every one of these suicides was preventable and in doing so they call for this case to be reopened and properly investigated Love & Death Max Wallace, Ian Halperin, 2001-01-01 A stunning and groundbreaking investigation into the death of one of the great rock icons of our time Kurt Cobain revealing new evidence that points to a terrible conclusion Max Wallace and Ian Halperin have conducted a ten year crusade for the truth about what happened to Nirvana s former frontman and in Love Death they are finally able to present a chilling and convincing case that points to one thing Kurt Cobain did not commit suicide

Fee,Jeffrey B. Webb,2019-05-24 This up to date introduction to the complex world of conspiracies and conspiracy theories provides insight into why millions of people are so ready to believe the worst about our political legal religious and financial institutions Unsupported theories provide simple explanations for catastrophes that are otherwise difficult to understand from the U S Civil War to the Stock Market Crash of 1929 to the terrorist attacks on the World Trade Center in New York Ideas about shadowy networks that operate behind a cloak of secrecy including real organizations like the CIA and the Mafia and imagined ones like the Illuminati additionally provide a way for people to criticize prevailing political and economic

arrangements while for society's disadvantaged and forgotten groups conspiracy theories make their suffering and alienation comprehensible and provide a focal point for their economic or political frustrations. These volumes detail the highly controversial and influential phenomena of conspiracies and conspiracy theories in American society. Through interpretive essays and factual accounts of various people, organizations, and ideas, the reader will gain a much greater appreciation for a set of beliefs about political scheming, covert intelligence gathering, and criminal rings that has held its grip on the minds of millions of American citizens and encouraged them to believe that the conspiracies may run deeper and with a global reach.

**Kurt Cobain** Jeff Burlingame, 2006. Traces the life, career, and impact of rock musician Kurt Cobain.

**Drugs as Weapons Against Us** John L. Potash, 2015-05-25. *Drugs as Weapons Against Us* meticulously details how a group of opium trafficking families came to form an American oligarchy and eventually achieved global dominance. This oligarchy helped fund the Nazi regime and then saved thousands of Nazis to work with the Central Intelligence Agency (CIA) operations such as MK Ultra. Pushed LSD and other drugs on leftist leaders and left-leaning populations at home and abroad. Evidence supports that this oligarchy further led the United States into its longest running wars in the ideal areas for opium crops while also massively funding wars in areas of coca plant abundance for cocaine production under the guise of a war on drugs that is actually the use of drugs as a war on us. *Drugs as Weapons Against Us* tells how scores of undercover U.S. Intelligence agents used drugs in the targeting of leftist leaders from SDS to the Black Panthers, Young Lords, Latin Kings, and the Occupy Movement. It also tells how they particularly targeted leftist musicians including John Lennon, Jimi Hendrix, Kurt Cobain, and Tupac Shakur to promote drugs while later murdering them when they started sobering up and taking on more leftist activism. The book further uncovers the evidence that Intelligence agents dosed Paul Robeson with LSD, gave Mick Jagger his first hit of acid, hooked Janis Joplin on amphetamines, as well as manipulating Elvis Presley, Eminem, the Wu Tang Clan, and others.

*The Rock And Roll Book Of The Dead* David Comfort, 2009-08-25. Once you're dead, you're made for life. Jimi Hendrix, Hendrix, Janis Morrison, Elvis, Lennon, Cobain, Garcia. Their reckless brilliance held the key to their self-destruction. Their deaths had much in common and surprisingly so did their lives. From lonely childhoods marred by loss to groundbreaking music and turbulent careers that ended tragically and suspiciously, David Comfort explodes the myths as he probes the sinister roles of Hendrix's manager and girlfriend in his death and subsequent cover-up. The bizarre odyssey of Jim Morrison's corpse. Why Kurt Cobain was worth more dead than alive to Courtney Love. The twisted motives that caused John Lennon to sail through the Devil's Triangle to Bermuda, nearly going down in a storm shortly before he was fatally shot. The crippling disease and miracle drug that drove Elvis to suicide. Charismatic and gifted but also isolated and conflicted, these are not the rock icons you thought you knew. Here are their larger-than-life stories of turmoil and excess that led to their early deaths and ultimate immortality. It's a wild ride to the other side of fame. Fame is the soul-eater. Jerry Garcia. Everybody loves you when you're six feet in the ground. John Lennon. Includes rare photos. David Comfort is the author of

three bestselling nonfiction books His short fiction has appeared in numerous magazines including Eclectic Literary Forum Pacific Review Coe Review and Belletrist Review He has been the recipient of several literary prizes and a finalist for such prestigious awards as the Nelson Algren Award and America's Best A former rock musician he has spent over 30 years studying rock music particularly the revolutionary and fatalistic pioneers of the 1960s He lives in Santa Rosa California
