Adopted Women and Biological Fathers Elizabeth Hughes, 2017-03-01 *Adopted Women and Biological Fathers* offers a critical and deconstructive challenge to the dominant notions of adoptive identity The author explores adoptive women's experiences of meeting their biological fathers and reflects on personal narratives to give an authoritative overview of both the field of adoption and the specific history of adoption reunion This book takes as its focus the narratives of 14 adopted women as well as the partly fictionalised story of the author and examines their experiences of birth father reunion in an attempt to dissect the ways in which we understand adoptive female subjectivity through a psychosocial lens Opening a space for thinking about the role of the discursively neglected biological father this book exposes the enigmatic dimensions of this figure and how telling the relational story of reconciliation might be used to complicate wider categories of subjective completeness belonging and truth This book attempts to subvert the culturally normative unifying system of the mother child bond and prompts the reader to think about what the biological father might represent and how his role in relation to adoptive female subjects may be understood This book will be essential reading for those in critical psychology gender studies narrative work sociology and psychosocial studies as well as appealing to anyone interested in adoption issues and female subjectivity **Life Lines: Writing Transcultural Adoption** John McLeod, 2015-10-22
