Diversity and Aging Among Immigrant Seniors in Canada Douglas Durst, Michael MacLean, 2010-01-01. Historically, Canada has been a nation of immigrants with 16.20% of its citizens being foreign born. Most immigrant research addresses the issues of integration and adjustment of young and adult immigrants with little work on aging. There are numerous books on immigrants and books on aging, but there are few that have considered the topics of both diversity and aging. *Diversity and Aging among Immigrant Seniors in Canada* breaks from that tradition and offers an eclectic collection of original research from among Canada's leading researchers on aging and immigrants. Some researchers refer to this emerging field as *Ethno gerontology*. There are two interesting groups of immigrant seniors: those who entered Canada at over 65 years of age and those who aged in Canada. Most Canadians are surprised to learn that the senior population of seniors has a higher percentage of immigrants (19.6%) than the general population (13.7%). As Canadians age, the country's composition of immigrant seniors has also changed from mainly European to greater cultural and ethnic diversity from Africa and Asia. This cultural and ethnic diversity has social, health, economic, policy implications and impacts on programs and services delivered to seniors. *Diversity and Aging among Immigrant Seniors in Canada* is divided into two main sections. In Part 1, the chapters explore general and universal issues such as national trends and demographics, theoretical orientations, issues of culture and legal dimensions, poverty and income, and end of life care. In Part 2, the chapters examine issues pertaining to specific ethnic groups. For example, there are chapters on the social well-being of Chinese immigrants, determinants of mental health for Iranian seniors, family dynamics for aging Haitian elders, and emerging issues for Punjabi families. *Diversity and Aging among Immigrant Seniors in Canada* offers both breadth and depth to the topic of aging among immigrants and is a must-read for social work and health care professionals, students in health and social services, policy and program planners, and families of aging immigrants. It is written in a language that crosses disciplines, shedding professional jargon, making it an informative and engaging read for professionals, researchers, and the general public.

Mediation Law Penny Brooker, 2013-10-23 In England mediation became a key part of the civil justice reform agenda after the Woolf Reforms of 1996 as disputants were deflected from litigation towards settlement outside the court system The Civil Procedure Rules CPR give courts the power to encourage mediation through judicial case management or use stronger measures by using costs to penalise parties who act unreasonably by refusing to use ADR or mediation One of the effects of this institutionalisation is an emerging case law that defines how mediation is practiced as it merges with the litigation process When mediation first began to be used in England the parties either agreed to mediate by a contract before a dispute happened or decided to attempt the process as a way of resolving disagreements Inevitably some disputants either refused to abide by their contractual obligations or would not follow through with the settlement agreements reached through the process This brought the authority of the law into a new area and the juridification process began This book explores how mediation law shapes the practice of mediation in the English jurisdiction It provides a

comprehensive examination of the legal framework for mediation and explores the jurisprudence in order to analyse the extent that institutionalisation by the state and courts has led to the monopolisation by lawyers and a further juridification process results The book includes a comparative legal methodology on the framework underpinning mediation practise in other common law jurisdictions including the United States Australia and Hong Kong in order to explicate shared or distinctive approaches to mediation The book will be of great interest to academics and students of legal theory and dispute resolution
