Elias (Jr.), James Gillies, Svend Riemer, 1964 **Public Health Service Publication**, 1969 *Centrality and Cities* James
Bird, 2013-04-15 Professor Bird presents a synthesis of the many approaches to the study of a central feature of modern life
the city including its distant past and its future He sees centrality as a mental projection on to space and discusses the
concept in relation to three types of its manifestation in spatial terms the city as centre of a tributary region the centres and
central areas of cities themselves and the city considered as a centre or gateway for other distant regions often overseas This
book should do much to unravel the fundamental similarities between cities of the world while recognizing the myriad
variations upon a common theme This book was first published in 1977 *The City* Joel Kotkin, 2007-12-18 If humankind can
be said to have a single greatest creation it would be those places that represent the most eloquent expression of our species
s ingenuity beliefs and ideals the city In this authoritative and engagingly written account the acclaimed urbanist and
bestselling author examines the evolution of urban life over the millennia and in doing so attempts to answer the age old
question What makes a city great Despite their infinite variety all cities essentially serve three purposes spiritual political and
economic Kotkin follows the progression of the city from the early religious centers of Mesopotamia the Indus Valley and
China to the imperial centers of the Classical era through the rise of the Islamic city and the European commercial capitals
ending with today s post industrial suburban metropolis Despite widespread optimistic claims that cities are back in style
Kotkin warns that whatever their form cities can thrive only if they remain sacred safe and busy and this is true for both the
increasingly urbanized developing world and the often self possessed global cities of the West and East Asia Looking at cities
in the twenty first century Kotkin discusses the effects of developments such as shifting demographics and emerging
technologies He also considers the effects of terrorism how the religious and cultural struggles of the present pose the
greatest challenge to the urban future Truly global in scope *The City* is a timely narrative that will place Kotkin in the
company of Lewis Mumford Jane Jacobs and other preeminent urban scholars **Metropolis. Values in Conflict, C. E.**
