**The Impact of the Second World War on Mexican Americans in the Southwest** Monique Bre, 2007-12 Seminar paper from the year 2004 in the subject American Studies Culture and Applied Geography grade 2.0 Dresden Technical University Institut Amerikanistik course Latinos as in the U S 8 entries in the bibliography language English abstract The United States

are a nation of immigrants Mexican Americans are part of this country and make up about thirteen million people of Mexican descent these days This minority group is the second largest ethnic group in the U S Mexican American M 3 5 Since the U S is a nation of immigrants frictions and conflicts between the different nationalities have never been avoidable in history and will not be in the future Throughout this paper the issue of racism and discrimination will always appear and be discussed because I think this is a burning issue which exists still today in the U S society In this seminar paper I am going to analyze the influence of the Second World War on Mexican Americans in the southwest I chose this topic because the Second World War had an important impact on the people living in the United States and marked a turning point in the lives of the Mexican American population I will focus on Mexican American soldiers and their experiences they gained in the war and after their service Furthermore I am going to examine how Mexican Americans contributed to the war effort and if this had changed anything on their acceptance and acknowledgement among the Anglo society While thousands of Mexican American soldiers were fighting in the war their families back home in the southwest gained different experiences With the help of two incidents that happened during the war years in the southwest of the United States I want to show in what way Mexican Americans had to suffer unjust treatment and prejudice of the white population I will also take into consideration the various changes in the labor force as well as the reactions of Mexican Americans towards discrimination

**The main source** **After the Blessing** Esther Bonilla Read, 2022-02-08 This lieutenant gets up there and says American soldiers don't huddle and put their hands in their pockets on a cold day They stand at attention there was a buzz in Spanish Hey they called us Americans Armando Flores Army Air Corps Many Catholic families blessed their children before they left home After the Blessing tells the stories of many young Mexican Americans who left home to fight for their country During the Mexican Revolution 1910 1920 many families fled Mexico to prevent their underage sons from being forced to fight Ironically the offspring of these immigrants often ended up across the ocean in a much larger war Despite the bias and mistreatment most Mexican Americans faced in the US some 500 000 fought bravely for their country during World War II Their stories range from hair raising accounts of the Battle of the Bulge to gut wrenching testimony about cannibalism in the Pacific In After the Blessing Mexican Americans reveal their experiences in combat during WWII stories that have rarely been told

**The impact of the Second World War on Mexican Americans in the Southwest** Monique Bre, 2005-10-14 Seminar paper from the year 2004 in the subject American Studies Culture and Applied Geography grade 2 0 Dresden Technical University Institut Amerikanistik course Latinos as in the U S language English abstract The United States are a nation of immigrants Mexican Americans are part of this country and make up about thirteen million people of Mexican descent these days This minority group is the second largest ethnic group in the U S Mexican American M 3 5 Since the U S is a nation of immigrants frictions and conflicts between the different nationalities have never been avoidable in history and will not be in the future Throughout this paper the issue of racism and discrimination will always appear and be discussed because I think this is a

burning issue which exists still today in the U S society In this seminar paper I am going to analyze the influence of the Second World War on Mexican Americans in the southwest I chose this topic because the Second World War had an important impact on the people living in the United States and marked a turning point in the lives of the Mexican American population I will focus on Mexican American soldiers and their experiences they gained in the war and after their service Furthermore I am going to examine how Mexican Americans contributed to the war effort and if this had changed anything on their acceptance and acknowledgement among the Anglo society While thousands of Mexican American soldiers were fighting in the war their families back home in the southwest gained different experiences With the help of two incidents that happened during the war years in the southwest of the United States I want to show in what way Mexican Americans had to suffer unjust treatment and prejudice of the white population I will also take into consideration the various changes in the labor force as well as the reactions of Mexican Americans towards discrimination The main sources of the paper where I based my knowledge on and where I received the information necessary to provide a good overview of the situation during the war years are Meier s and Ribera s books Mexican Americans American Mexicans and Readings on La Raza which offered a detailed and critic description of Mexican Americans living in the United States At the end of this paper the reader should have gained an impression on the difficult times of the war period for Mexican Americans an ethnic minority who always had to fight for acknowledgement and their civil rights

**World War II and Mexican American Civil Rights** Richard Griswold del Castillo, 2022-02-24 This historical study examines how Mexican American experiences during WWII galvanized the community s struggle for civil rights World War II marked a turning point for Mexican Americans that fundamentally changed their relationship to US society at large The experiences of fighting alongside white Americans in the military as well as working in factory jobs for wages equal to those of Anglo workers made Mexican Americans less willing to tolerate the second class citizenship that had been their lot before the war Having proven their loyalty and Americanness during World War II Mexican Americans began to demand the civil rights they deserved In this book Richard Griswold del Castillo and Richard Steele investigate how the wartime experiences of Mexican Americans helped forge their civil rights consciousness and how the US government responded The authors demonstrate for example that the US government discovered Mexican Americans during World War II and began addressing some of their problems as a way of ensuring their willingness to support the war effort The book concludes with a selection of key essays and historical documents from the World War II period that provide a first person perspective of Mexican American civil rights struggles

*Mexican-American Veterans, Class, and Identity During and After World War II* Emila A. Lopez, 2015 Although Mexican Americans served in large numbers during World War II for many years they had been left out of the story In recent years as historians have sought to write Mexican Americans back in to the World War II narrative there have been differing opinions on the impact that World War II had on the Mexican American fight for civil rights In order to be able to analyze the influence of World War

II on Mexican American civil rights we must specifically look at different spheres of racism Without much influence from the war Mexican American civil rights groups had been fighting for equality in official arenas such as bureaucratic and institutional racism using the legal system before the war and continued to do so afterward The fight against social racism followed a different trajectory Mexican Americans had organized in years before World War II and fought for labor rights and in some cases for social equality Although they were successful in attaining some of their demands this success was more attributable to the need for their services than it was to changing perceptions about Mexican Americans World War II was incredibly important to the Mexican American fight against social inequality because the combination of the renewed hope and demands for equality on the part of returning Mexican American veterans combined with the patriotic climate of World War II created an environment in which Mexican American veterans could demand equality based off of the veteran status

Dowling, 2014-03-15 Honorable Mention Oliver Cromwell Cox Book Award presented by the Racial and Ethnic Minorities Section of the American Sociological Association 2015 With Mexican Americans constituting a large and growing segment of U S society their assimilation trajectory has become a constant source of debate Some believe Mexican Americans are following the path of European immigrants toward full assimilation into whiteness while others argue that they remain racialized as nonwhite Drawing on extensive interviews with Mexican Americans and Mexican immigrants in Texas Dowling s research challenges common assumptions about what informs racial labeling for this population Her interviews demonstrate that for Mexican Americans racial ideology is key to how they assert their identities as either in or outside the bounds of whiteness Emphasizing the link between racial ideology and racial identification Dowling offers an insightful narrative that highlights the complex and highly contingent nature of racial identity
