Mexico Mystique Frank Waters, 2023-09-05 In *Mexico Mystique* Frank Waters draws us deeply into the ancient but still living myths of Mexico To reveal their hidden meanings and their powerful symbolism he brings to bear his gift for intuitive imagination as well as a broad knowledge of anthropology Jungian psychology astrology and Eastern and esoteric religions He offers a startling interpretation of the Mayan Great Cycle our present Fifth World whose beginning has been projected to 3113 B C and whose cataclysmic end has been predicted by 2011 A D      **At the End of Time** Robin Robertson, 2011-05-01 Many cycles predicting the end of times fill our modern dialog from the coming of the Millennium to 2012 Robin Robertson helps to clarify these prophesies and offers insight into the central issues of our challenges and the experience and their life changing implications For eighteen hundred years the prophecies in the Book of Revelation have captured the collective Western imagination Saint John s rich imagery and the dramatic urgency of the looming disasters he predicts have both fascinated and frightened us with its apparent message that the end of time is near Robin Robertson Ph D deciphers the mystical theology and visions of the prophets seers and shamans His analysis incorporates the insights of modern mathematics and Chaos Theory as well as his personal insights gained through his work as a Jungian therapist and teacher Robertson holds a mirror to humanity s need to know Self and God He explains that Saint John s vision foretells the massive change in consciousness that is happening in our time      *Corn Woman Sings* Barron Eleanor Druckrey, PhD, Eleanor Barron Druckrey, Eleanor Barron Druckrey, 2008 Do you want to know the spirit asked twenty three year old Eleanor Barr n Druckrey in 1967 At the time the young woman was not quite ready Ten years later and still stalked by spirits day and night Barr n Druckrey accepted the invitation to embark on a journey of discovery through her dreams She began to understand a pattern of brilliance and beauty related to the ancient past when magic wonder and awe reigned throughout the native cultures in the Americas Drawn from more than thirty years of recorded dreams *Corn Woman Sings* brings Native American traditions to life Interwoven with Barr n Druckrey s personal stories and discussions on the legends of the great dreamers Corn Woman s legacy lays a path of transformation and renewal for the modern day curandera medicine woman and mystic in all walks of life *Corn Woman Sings* shows you how to start building a dream map that will lead you to personal transformation It illustrates the process of opening up to your inner self and starting the process of uniting mind body and spirit Only time will tell what you might witness in your dreams      Mediacology Antonio Lopez, 2008 Traditional media literacy models are mostly left brained inherited from the legacy of alphabetic literacy the Gutenberg press revolution and industrial mass media production New digital media radically alter the environment their nonlinear multisensory field like properties are more right brain oriented Consequently rather than focus exclusively on deconstructing the products of design objects such as an advertisement text digital learning should respond to the design of the system itself including cultural and cognitive bias Mediacology proposes a design for pattern approach called media permaculture which restructures media

literacy to be in sync with new media practices connected with sustainability and the perceptual functions of the right brain hemisphere In the same way that permaculture approaches gardening by establishing the natural parameters of its ecological niche media permaculture explores the individual s mediacological niche in the context of knowledge communities By applying bioregional thinking to the symbolic order media permaculture redresses the standard one size fits all literacy model by taking into account diverse cognitive strategies and emerging convergence media practices Antonio Lopez applies a practical knowledge of alternative media cross cultural communication and ecology to build a meaningful theory of media education

**Pseudoscience** Lydia Kang,Nate Pedersen,2025-02-18 From the authors of Quackery a visual and narrative history of popular ideas phenomena and widely held beliefs disproven by science From the easily disproved to the wildly speculative to straight up hucksterism Pseudoscience is a romp through much more than bad science it s a light hearted look into why we insist on believing in things such as Big Foot astrology and the existence of aliens Did you know for example that you can tell a person s future by touching their butt Rumpology It s a thing but not really Or that Stanley Kubrick made a fake moon landing film for the US government Except he didn t Or that spontaneous human combustion is real It ain t but it can be explained scientifically Pseudoscience is a wild mix of history pop culture and good old fashioned science that not just entertains but sheds a little light on why we all love to believe in things we know aren t true

Negru,2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history     **Gospel of the Open Road** Robert C. Gordon, PhD,2001-01-28 Gospel of the Open Road reclaims Ralph Waldo Emerson Walt Whitman and Henry David Thoreau as Americas spiritual birthright It rescues them from literary history and reveals them in their true light as democracys prophets of the soul Emerson Whitman and Thoreau were religious seers who developed a new form of spirituality and Gospel of the Open Road explains in scholarly yet passionate fashion the deep wisdom that is their enduring legacy It presents them as a viable spiritual path for those who do not belong and do not want to belong to any organized religion But this book does more It draws fascinating parallels between the new spirituality taught by Emerson Whitman Thoreau and ancient spiritual wisdom as found in shamanism Goddess worship Tantra Taoism Confucianism Vajrayana and Zen Buddhism and Hinduism This book is an evocative synthesis of humanitys most venerable spiritual wisdom and the most modern of philosophical social psychological political scientific and Humanistic concepts It traces the New Age spiritual revolution to its source in Emerson Whitman and Thoreau and explains how to apply their spiritual teachings to our everyday life here on Earth     **The Orion Zone** Gary David,2010-04-20 Ancient star lore exploring the mysterious location of Pueblos

in the American Southwest circa 1100 AD that appear to be a mirror image of the major stars of the Orion constellation. Many readers are familiar with the correlation between the pyramids of Egypt and the stars of Orion. Beginning in 1100 A.D. on the Arizona desert, the Hopi constructed a similar pattern of villages that mirrors all the major stars in the constellation. As Above, so Below: The Orion Zone explores this ground-sky relationship and its astounding global significance. Packed with diagrams, maps, astronomical charts, and photos of ruins and rock art, this useful guidebook decodes the ancient mysteries of the Pueblo Indian world.
