Mexico's Leaders, Their Education & Recruitment Roderic A. Camp, 1980 *Mexico's Leaders, Their Education and Recruitment* Roderic A. Camp, 1980-01-01 **Mexico's Leaders, Their Education & Recruitment** Roderic A. Camp, 1980

The Metamorphosis of Leadership in a Democratic Mexico Roderic Ai Camp, 2010-11-11

The Metamorphosis of Leadership in a Democratic Mexico is a broad analysis of Mexico's changing leadership over the past eight decades stretching from its pre-democratic era 1935-1988 to its democratic transition 1988-2000 to its democratic period 2000 to the present. In it, Roderic Camp, one of the most distinguished scholars of Mexican politics, seeks to answer two questions: 1. how has Mexican political leadership evolved since the 1930s and in what ways beyond ideology has the shift from a semi-authoritarian one-party system to a democratic electoral system altered the country's leadership and 2. which aspects of Mexican leadership have been most affected by this shift in political models and when and why did the changes in leadership occur. Rather than viewing Mexico's current government as a true democracy, Camp sees it as undergoing a process of consolidation under which the competitive electoral process has resulted in a system of governing institutions supported by the majority of citizens and significant strides toward plurality. Accordingly, he looks at the relationship between the decentralization of political power and the changing characteristics, experiences, and paths to power of national leaders. The book, which represents four decades of Camp's work, is based upon a detailed study of 3000 politicians from the 1930s through the present, incorporating regional media accounts and Camp's own interviews with Mexican presidents, cabinet members, assistant secretaries, senators, governors, and party presidents.

The Oxford Handbook of Mexican Politics Roderic Ai Camp, 2012-02-16

A comprehensive view of the remarkable transformation of Mexico's political system to a democratic model. The contributors to this volume assess the most influential institutions, actors, policies, and issues in the country's current evolution toward democratic consolidation.

Intellectuals and the State in Twentieth-Century Mexico Roderic Ai Camp, 2014-04-15

In developing countries, the extent to which intellectuals disengage themselves in state activities has widespread consequences for the social, political, and economic development of those societies. Roderic Camp's examination of intellectuals in Mexico is the first study of a Latin American country to detail the structure of intellectual life rather than merely considering intellectual ideas. Camp has used original sources, including extensive interviews, to provide new data about the evolution of leading Mexican intellectuals and their relationship to politics and politicians since 1920.

Mexico's Political Stability Roderic Ai Camp, 2019-08-28

Mexico is undergoing its worst economic crisis since the world depression of the 1930s. In this volume, contributors analyze significant patterns that might affect political stability and legitimacy, economic viability, and social change over the next several years, often reaching controversial conclusions. They argue, for example, that the military is not likely to change its present civil-military role, that political opposition rather than political violence or pressure from foreign governments will have the most profound influence on the changing pattern of

political legitimacy and system stability and that decision making in the private sector may have the greatest potential to resolve or exacerbate the current crisis Finally they suggest that because economic conditions have been altered so dramatically in the recent period Mexican policymakers will need to develop a new range of political alternatives to stabilize the economy and redirect the country's future Democracy Within Reason Miguel Angel Centeno, 2010-11-01 *Prison Bureaucracies in the United States, Mexico, India, and Honduras* Brian Norris, 2018-02-19 Modern criminal justice institutions globally include police criminal courts and prisons Prisons unlike courts which developed out of an old aristocratic function and unlike police which developed out of an ancient posse or standing army function are only about 200 years old and are humanitarian inventions Prisons defined as modern institutions that deprive the freedom of individuals who violate societies most basic norms in lieu of corporal or capital punishment were near universal at the dawn of the 21st century and their use was expanding globally The US alone spent 60 billion on prisons in 2014 *Prison Bureaucracies* addresses two fundamental questions Do prisons in Christian Hindu and Muslim societies separated by space and level of socioeconomic development follow a common evolutionary path Given that differences in prison structure and performance exist what factors resources laws leadership historical accident institutions culture account for differences Based on more than 150 interviews conducted in ten international trips with prison administrators in 15 male state prisons in the US Mexico India and Honduras Norris provides ethnographic descriptions of prisons bureaucracies that are immediately recognizable as similar institutions but that nonetheless possessed distinctive forms and developmental trajectories Economists and political scientists have argued that incentives provided by institutions matter for good or bad public administration and this is undeniable in the prisons of this study But institutional incentives were one factor among many affecting the form and function of the prisons and prison systems of this study **Political Recruitment across Two Centuries** Roderic Ai Camp, 2013-12-06 During more than twenty years of field research Roderic Ai Camp built a monumental database of biographical information on more than 3 000 leading national figures in Mexico In this major contribution to Mexican political history he draws on that database to present a definitive account of the paths to power Mexican political leaders pursued during the period 1884 to 1992 Camp's research clarifies the patterns of political recruitment in Mexico showing the consequences of choosing one group over another It calls into question numerous traditional assumptions including that upward political mobility was a cause of the Mexican Revolution of 1910 Comparing Mexican practices with those in several East Asian countries also allows Camp to question many of the tenets of political recruitment theory His book will be of interest to students not only of Mexican politics but also of history comparative politics political leadership and Third World development
