

A woman with dark hair is lying on her side on a grassy lawn, wearing a patterned one-piece swimsuit. She is looking towards the camera with a slight smile. Above her, a large, vibrant pink flower with yellow stamens is in full bloom. The background is a soft-focus view of a garden with more greenery and flowers.

promoters and a Shangri La for sun worshippers and hardcore hedonists In Miami Beach it's often said that if you're not indicted you're not invited But the city's mad fascinating complexity resists easy stereotyping Fool's Paradise is more than just a present day profile of a dark Eden Gaines journeys back into the city's social and cultural history unearthing stories of the resort's past that are every bit as absorbing and jaw dropping as those of its present The book begins with a snapshot of the city's current excess this is after all a sun washed hamlet that boasts on a per capita basis more bars and breast implants than any other place in America then plunges into the Beach's origins chronicling the audacious rise of such hoteliers as the Fontainebleau's Ben Novack and the Eden Roc's Harry Mufson the sharp elbowed tactics of Al Capone and Frank Sinatra and the Mac 10 shooting sprees of the Marielito and Colombian drug lords From there the narrative shifts to two wildly eccentric souls who gave their lives to preserving the city's architectural dazzle and creating its color palette introduces us to the Most Powerful Man in Miami Beach and arrives finally in the modern day where we meet among others a kinky German playboy who once owned a quarter of South Beach and publicly flaunts his sexual escapades a fabulously successful nightclub promoter whose addictive past seems to have given him a portal into the night world's id and a gaggle of young sexy models dreamers and schemers on a mission to achieve significance Evoking the Beach's surreal blend of flashy Vegas and old Hollywood glamour as well as its manic desperation and reckless wealth Gaines persuasively demonstrates that though the Beach is in the words of its most famous drag queen an island of broken toys a place where people get away with things they'd never get away with anyplace else it casts an irresistible spell

**Hearts of the City** Herbert Muschamp, 2013-12-11 From the late Herbert Muschamp the former architecture critic of The New York Times and one of the most outspoken and influential voices in architectural criticism a collection of his best work The pieces here from The New Republic Artforum and The New York Times reveal how Muschamp's views were both ahead of their time and timeless He often wrote about how the right architecture could be inspiring and uplifting and he uniquely drew on film literature and popular culture to write pieces that were passionate and often personal changing the landscape of architectural criticism in the process These columns made architecture a subject accessible to everyone at a moment when because of the heated debate between modernists and postmodernists architecture had become part of a larger public dialogue One of the most courageous and engaged voices in his field he devoted many columns at the Times to the lack of serious new architecture in this country and particularly in New York and spoke out against the agenda of developers He departed from the usual dry didactic style of much architectural writing to playfully for example compare Frank Gehry's Guggenheim Bilbao to the body of Marilyn Monroe or to wax poetic about a new design for Manhattan's manhole covers One sees in this collection that Muschamp championed early on the work of Frank Gehry Rem Koolhaas Zaha Hadid Thom Payne Frank Israel Jean Nouvel and Santiago Calatrava among others and was drawn to the theoretical writings of such architects as Peter Eisenman Published here for the first time is the uncut version of his brilliant and poignant essay about gay culture and Edward Durrell Stone's museum at 2 Columbus Circle

Fragments from the book he left unfinished whose title we took for this collection *A Dozen Years* *Metroscope* and *Atomic Secrets* are also included *Hearts of the City* is dazzling writing from a humanistic thinker whose work changed forever the way we think about our cities and the buildings in them

**The Water Will Come** Jeff Goodell, 2017-10-24 What if Atlantis wasn't a myth but an early precursor to a new age of great flooding Across the globe scientists and civilians alike are noticing rapidly rising sea levels and higher and higher tides pushing more water directly into the places we live from our most vibrant historic cities to our last remaining traditional coastal villages With each crack in the great ice sheets of the Arctic and Antarctica and each tick upwards of Earth's thermometer we are moving closer to the brink of broad disaster By century's end hundreds of millions of people will be retreating from the world's shores as our coasts become inundated and our landscapes transformed From island nations to the world's major cities coastal regions will disappear Engineering projects to hold back the water are bold and may buy some time Yet despite international efforts and tireless research there is no permanent solution no barriers to erect or walls to build that will protect us in the end from the drowning of the world as we know it *The Water Will Come* is the definitive account of the coming water why and how this will happen and what it will all mean As he travels across twelve countries and reports from the front lines acclaimed journalist Jeff Goodell employs fact science and first person on the ground journalism to show vivid scenes from what already is becoming a water world An immersive mildly gonzo and depressingly well timed book about the drenching effects of global warming and a powerful reminder that we can bury our heads in the sand about climate change for only so long before the sand itself disappears
