Michael Maier's Atalanta fugiens Helena M. de Jong,1969 Michael Maier's Atalanta fugiens Helena Maria Elisabeth de Jong,1969 **Michael Maier's Atalanta Fugiens** Helena Maria Elisabeth Jong,1969 **Poets Laureate in the Holy Roman Empire** John Flood,2011-09-08 Petrarch's revival of the ancient practice of laureation in 1341 led to the laurel being conferred on poets throughout Europe in the later Middle Ages and the Early Modern period Within the Holy Roman Empire Maximilian I conferred the title of Imperial Poet Laureate especially frequently and later it was bestowed with unbridled liberality by Counts Palatine and university rectors too This handbook identifies more than 1300 poets laureated within the Empire and adjacent territories between 1355 and 1804 giving wherever possible a sketch of their lives a list of their published works and a note of relevant scholarly literature The introduction and various indexes provide a detailed account of a now largely forgotten but once significant literary sociological phenomenon and illuminate literary networks in the Early Modern period A supplementary Volume 5 of Poets Laureate in the Holy Roman Empire A Bio bibliographical Handbook will be published in June 2019 **Alchemy and Chemistry in the 16th and 17th Centuries** Piyo Rattansi,Antonio Clericuzio,1994-08-31 The present volume owes its origin to a Colloquium on Alchemy and Chemistry in the Sixteenth and Seventeenth Centuries held at the Warburg Institute on 26th and 27th July 1989 The Colloquium focused on a number of selected themes during a closely defined chronological interval on the relation of alchemy and chemistry to medicine philosophy religion and to the corpuscular philosophy in the sixteenth and seventeenth centuries The relations between Medicina and alchemy in the Lullian treatises were examined in the opening paper by Michela Pereira based on researches on unpublished manuscript sources in the period between the 14th and 17th centuries It is several decades since the researches of R F Multhauf gave a prominent role to Johannes de Rupescissa in linking medicine and alchemy through the concept of a quinta essentia Michela Pereira explores the significance of the Lullian tradition in this development and draws attention to the fact that the early Paracelsians had themselves recognized a family resemblance between the works of Paracelsus and Roger Bacon's scientia experimentalis and indeed a continuity with the Lullian tradition *The Lost History of Cosmopolitanism* Leigh T.I. Penman,2020-11-26 The Lost History of Cosmopolitanism challenges our most basic assumptions about the history of an ideal at the heart of modernity Beginning in antiquity and continuing through to today Leigh T I Penman examines how European thinkers have understood words like kosmopolites cosmopolite cosmopolitan and its cognates The debates over their meanings show that there has never been a single stable cosmopolitan concept but rather a range of concepts sacred and secular inclusive and exclusive all described with the cosmopolitan vocabulary While most scholarly attention in the history of cosmopolitanism has focussed on Greek and Roman antiquity or the Enlightenments of the 18th century this book shows that the crucial period in the evolution of modern cosmopolitanism was early modernity Between 1500 and 1800 philosophers

theologians cartographers jurists politicians alchemists and heretics all used this vocabulary shedding ancient associations and adding new ones at will The chaos of discourses prompted thinkers to reflect on the nature of the cosmopolitan ideal and to conceive of an abstract cosmopolitanism for the first time This meticulously researched book provides the first intellectual history of an overlooked period in the evolution of a core ideal As such *The Lost History of Cosmopolitanism* is an essential work for anyone seeking a contextualised understanding of cosmopolitanism today **Digital scholarly edition in Austria**
