Michel Tournier Le Coq De Bruyere:

Michel Tournier, Le Coq de Bruyère W. D. Redfern, 1996 This book is a study of Michel Tournier's collection of short stories *Le Coq de bruyere* but it is also much more Author Walter Redfern sees the stories as a microcosm of the whole fictional universe of Tournier widely regarded as France's premier living writer Michel Tournier's Metaphysical Fictions Susan Petit, 1991-01-01 This study of the fictional themes and techniques of Michel Tournier reveals his profound radicalism as a social critic and novelist despite the seeming conventionality of his works Guided by Tournier's essays and interviews Petit examines his fiction in light of plot sources philosophical and anthropological training and his belief that fiction should change the world Close study of *Vendredi ou les limbes du Pacifique* *Le Roi des aulnes* *Les M t ores* *Gaspard Melchior et Balthazar* and *La Goutte d or* as well as the short fiction in *Le Coq de bruy re* and *Le M dianoeche amoureux* shows Tournier's revolutionary conception of plot structuring as he develops key themes whether religion sensuality or prejudice in more than twenty years spent reconceiving the nature of fiction Gilles Deleuze: Travels in Literature M. Bryden, 2006-11-28 Deleuze's writing is permeated with references to literature Despite asserting that he was not a literary critic Deleuze provides exhilarating and original interactions with texts This study offers in depth encounters between Deleuze's thought and the writers who fascinated him demonstrating the productivity of a Deleuzian frame of reference **Audio Book** Mikko Keskinen, 2008-01-01 Audio Book deals with the ways in which the auditory voices sounds noises is represented in postphonograph narrative fiction More specifically it examines how the various technologies enabling the transmission or storing of sound and voice are figured in selected prose works Drawing from contemporary American British French and German literature the author discusses these use of these technologies in Nicholson Baker's *Vox* Michel Tournier's *Tristan* *Vox* Heinrich B ll's *Murke's Collected Silences* Don DeLillo's *The Body Artist* Nick Hornby's *High Fidelity* and Sylvia Brownrigg's *The Metaphysical Touch* The texts foreground sound technologies the telephone radio tape recorder answering machine record player or counterintuitively e mail in their narration and manifest important aspects of audio in literature In prior criticism these texts have not been systematically read from media technological perspectives The sound technologies represented in the texts problematize the clear distinction between speech and writing or between natural articulation and its technological reproduction Audio Book suggests that literary writing is metaphorically conceivable as a transmitting and storing technology as an audiobook of sorts capable of recording upon writing and reproducing upon reading auditory information The sound technologies proper have also bearing on the narrative structure metaphors and style of each fictional work studied in Audio Book In addition themes such as identity genre the nature of literary representation and the absence presence problem are brought to the fore on account of the technologies depicted Reform and Counterreform John C. Hawley, 2020-10-12 No detailed description available for *Reform and Counterreform* Paternity and Fatherhood Lieve Spaas, Trista Selous, 2016-07-27 What kind of connotation does the word father have in everyday language How have

states and governments defined and manipulated the paternal role What is a father figure What can literature tell us about absent or overbearing fathers How far is the cultural construct of fatherhood linked to biological paternity and what is biological paternity These are some of the questions explored through the chapters in this book which together offer a fascinatingly complex view of fatherhood across the centuries Deleuze and Religion Mary Bryden,2002-01-04 Despite the ever expanding body of Deleuzian scholarship single volume has explored the religious dimensions of Deleuze's writing Now Mary Bryden has assembled a team of international scholars to do just that Their essays illustrate the ways in which Deleuzian thought is antithetical to religious debate as well as the ways in which it contributes to those debates This volume will be invaluable for researchers teachers and students of theology philosophy critical theory cultural studies and literary criticism as well as to students of French who read Deleuze's work in its original language *Michel Tournier and the Metaphor of Fiction* Jean-Pierre Boulé,David Platten,1999-01-01 Michel Tournier is a writer who explores complex philosophical questions in the guise of concrete imagistic narratives This comprehensive study privileges the notion of literary reference by which the world of text is understood or experienced in metaphorical relation to the world outside of it Metaphor in the context of Tournier's fiction shows how the fantastic merges with the real to provide new perspectives on many diverse aspects of the modern world the Crusoe myth Nazism the value to society of art and religion and the nature of education This book elucidates an aesthetic of Tournier's fiction that encompasses the writer's stated ambition to go beyond literature Handbook of Ecocriticism and Cultural Ecology Hubert Zapf,2016-05-10 Ecocriticism has emerged as one of the most fascinating and rapidly growing fields of recent literary and cultural studies From its regional origins in late twentieth century Anglo American academia it has become a worldwide phenomenon which involves a decidedly transdisciplinary and transnational paradigm that promises to return a new sense of relevance to research and teaching in the humanities A distinctive feature of the present handbook in comparison with other survey volumes is the combination of ecocriticism with cultural ecology reflecting an emphasis on the cultural transformation of ecological processes and on the crucial role of literature art and other forms of cultural creativity for the evolution of societies towards sustainable futures In state of the art contributions by leading international scholars in the field this handbook maps some of the most important developments in contemporary ecocritical thought It introduces key theoretical concepts issues and directions of ecocriticism and cultural ecology and demonstrates their relevance for the analysis of texts and other cultural phenomena *Sexuality, Iconography, and Fiction in French* Jason James Hartford,2018-02-19 This book explores the modern cultural history of the queer martyr in France and Belgium By analyzing how popular writers in French responded to Catholic doctrine and the tradition of St Sebastian in art Queering the Martyr shows how religious and secular symbols overlapped to produce not one but two martyr types These are the queer type typified first by Gustave Flaubert which is a philosophical foil and the gay type popularized by Jean Genet but created by the Belgian Georges Eekhoud which is a political and pornographic device

Grounded in feminist queer theory and working from a post psychoanalytical point of view the argument explores the potential and limits of these two figures noting especially the persistence of misogyny in religious culture
