Michelangelo And The Language Of Art:

Michelangelo and the Language of Art David Summers,1981 **Michelangelo** Georg Brandes,1967

Michelangelo and the Art of Letter Writing Deborah Parker, Michelangelo Buonarroti, 2010-10-21 Deborah Parker examines Michelangelo's use of language in his correspondence as a means of understanding the creative process of this extraordinary artist **Thinking with Shakespeare** William Poole, Richard Scholar, 2007 This book presents comparative and interdisciplinary essays that demonstrate the value of thinking with Shakespeare either as embodied in Shakespeare's own creative programme or in our use of philosophical paradigms as an approach to his works **The Cornucopian Mind and the Baroque Unity of the Arts** Giancarlo Maiorino, 1990 This comparative and interdisciplinary study focuses on a cluster of epoch-making themes that emerged in the late sixteenth century. Michelangelo and Giordano Bruno are taken as the founding fathers of the Baroque and we see that beyond the Alps their lessons were echoed in Montaigne, Cervantes and the Counter Reformation culture of the Mediterranean basin. Maiorino shows that the common denominator that links the origins of the Baroque to its maturity is the concept of form as process which is then articulated into chapters on the formative unity of the arts, art forms at the threshold and the development from humanist perfection to Baroque perfectibility. Such an evolution in literature and the arts is situated in relation to the age of explorations, Columbus, scientific inventions, the telescope and the fundamental shift from the enclosed Ptolemaic system to the open universe of the Copernican revolution. At the Baroque point of origin, the inner vitality of Michelangelo's emphasis on creation as process rather than completed act taught a crucial lesson to Baroque artists. Their response to the infinite and open universe of the New Science was one that took part to be as dynamic and metamorphic as life itself. It is in the context of open forms within an open universe that this study moves from Michelangelo to Bruno. His poetics of immeasurable abundance set process at the very core of the Baroque art, thought and science. Applied to the forms of art, growth and metamorphosis are linked to what Maiorino calls borrowing from Mikhail Bakhtin the Baroque chronotope of formation which refers to forms responding to the dynamics of space-time interactions. Such interactions were exhaustive and even tested the boundaries between reality and fiction, creation and denial, conformity and criticism from picaresque Spain to middle class Holland. And it is the painting of a Dutch artist, Rembrandt's *Aristotle Contemplating the Bust of Homer* that is taken as a symbol of the Baroque reconciliation of humanist learning with human or humane understanding. Such a humanizing attitude also marked the final transformation of humanist ideals of perfection into the Baroque experience of human perfectibility. This book will be of importance to all scholars concerned with the history of ideas, cultural history and the Baroque in literature and art *Key Writers on Art: From Antiquity to the Nineteenth Century* Chris Murray, 2005-08-18 *Key Writers on Art: From Antiquity to the Nineteenth Century* offers a unique and authoritative guide to theories of art from Ancient Greece to the end of the Victorian era, written by an international panel of expert contributors. Arranged chronologically to provide an historical framework, the 43 entries analyze

the ideas of key philosophers historians art historians art critics artists and social scientists including Plato Aquinas Alberti Michelangelo de Piles Burke Schiller Winckelmann Kant Hegel Burckhardt Marx Tolstoy Taine Baudelaire Nietzsche Ruskin Pater W Ifflin and Riegl Each entry includes a critical essay a short biography a bibliography listing both primary and secondary texts Unique in its range and accessibly written this book together with its companion volume *Key Writers on Art The Twentieth Century* provides an invaluable guide for students as well as general readers with an interest in art history aesthetics and visual culture

Early Modern Art Theory. Visual Culture and Ideology, 1400-1700 James Hutson, 2016-06-20

The development of art theory over the course of the Renaissance and Baroque eras is reflected in major stylistic shifts In order to elucidate the relationship between theory and practice we must consider the wider connections between art theory poetic theory natural philosophy and related epistemological matrices Investigating the interdisciplinary reality of framing art making and interpretation this treatment rejects the dominant synchronic approach to history and historiography and seeks to present anew a narrative that ties together various formal approaches focusing on stylistic transformation in particular artist s oeuvres Michelangelo Annibale Carracci Guercino Guido Reni Poussin and others and the contemporary environments that facilitated them Through the dual understanding of the art theoretical concept of the Idea an evolution will be revealed that illustrates the embittered battles over style and the overarching intellectual shifts in the period between art production and conceptualization based on Aristotelian and Platonic notions of creativity beauty and the goal of art as an exercise in encapsulating the divine truth of nature

Michelangelo's Art of Devotion in the Age of Reform Emily A. Fenichel, 2023-07-20 In this volume Emily A Fenichel offers an in depth investigation of the religious motivations behind Michelangelo s sculpture and graphic works in his late period Taking the criticism of the Last Judgment as its point of departure she argues that much of Michelangelo s late oeuvre was engaged in solving the religious and artistic problems presented by the Counter Reformation Buffeted by critiques of the Last Judgment which claimed that he valued art over religion Michelangelo searched for new religious iconographies and techniques both publicly and privately Fenichel here suggests a new and different understanding of the artist in his late career In contrast to the received view of Michelangelo as solitary intractable and temperamental she brings a more nuanced characterization of the artist The late Michelangelo Fenichel demonstrates was a man interested in collaboration penance meditation and experimentation which enabled his transformation into a new type of religious artist for a new era
