Gabriele Bartz, Eberhard König

Michelangelo Clasicos:

Influence and Power Ruth Zimmerling, 2005-12-28 Some years ago on request of the German Political Science Association DVPW an empirical investigation On the state and the orientation of political science in the Federal Republic of Germany was conducted by Carl B hret Among other interesting 1 information in the paper that was subsequently published the author presented the results of a survey among 254 political scientists in the Federal Republic on what they considered to be the sine qua non basic concepts of the discipline In various respects the data are remarkable 2 On the one hand the enormous diversity of the answers corroborates statistically what has long been known from experience i e the existence of an extremely wide variety of standpoints perspectives and approaches within the discipline An interesting case in point is the concept of power Somewhat surprisingly power was not the most frequently mentioned term But it did of course end up at the very top of the list in third place behind conflict and interest What is noteworthy is that it gained this position by being named only 81 times that is by less than a third of the respondents This is no insignificant detail Certainly to that minority of scholars whose conceptions of politics do include power as an indispensable basic concept the approaches of the vast majority of their colleagues for whom as their answers in the survey reveal power does not play an eminent role must appear in an 3 important sense mistaken or perhaps even incomprehensible

Poemas y poetas clásicos ingleses. De Geoffrey Chaucer a Dylan Thomas. Antología bilingüe anotada, 2005 **The National union catalog, 1968-1972**, 1973

Miguel Angel Buonarroti Gabriele Bartz, Eberhard König, 2000 Ética y diálogo en la administración pública: una propuesta para combatir la corrupción y fortalecer la gobernanza Juan José Sanabria López, 2023-04-11 El Estado actualmente se erige como la forma dominante de organización del poder político en el planeta de modo que casi todas las personas son ciudadanos de uno de ellos Con la globalización como fondo y a partir de las ideas neoliberales se busca la reducción del Estado al mínimo con el fin de que las demandas de la sociedad fuesen atendidas en el mercado por agentes nacionales o internacionales con base en la creencia de que el mercado es un instrumento más eficiente que el Estado para la distribución de valores escasos Sin embargo problemáticas como la concentración de la riqueza la inseguridad el combate a actividades ilícitas e incluso el fomento a la investigación científica y el desarrollo del conocimiento por mencionar algunas son demandas que deben ser atendidas y que el mercado por sí solo no puede resolver La obra se inserta en este panorama planteándose como objetivo general analizar el papel que deben tener la tica y el diálogo como instrumentos que permiten propiciar la constitución de un espacio de gobierno público y republicano que sea capaz de combatir la corrupción y de crear condiciones de gobernanza

Ciencia y política Rosendo Bolívar Meza, 1965 **The National Union Catalogs, 1963-1964** **La Ciencia de la Administración Pública: Un Enfoque Político de la Actividad Administrativa Del Estado en El Marco de la Globalización** Juan José Sanabria López, 2002 *Más Bobbio y menos Schmitt, más espacio, pero juntos:* Bertín, Hugo D, 2021-05-28 Hoy más personas habitan en países con regímenes democráticos en el mundo que hace

cincuenta años pero desde la segunda década del 2000 estamos asistiendo a una nueva fase de recesión de la democracia liberal a nivel global. Las democracias liberales están más acosadas por los populismos que por las autocracias más por el declive en el funcionamiento pleno de sus atributos que por rupturas violentas de los golpes de Estado cíclicos. No se usan balas para sustituir a las democracias sino leyes para destruir al Estado de derecho. Los líderes populistas tienen mayor probabilidad de debilitar la democracia que de romperla; las pueden convertir en iliberales pero encuentran más límites a la hora de transformarlas en autocracias. Los relevamientos de la opinión pública internacional sugieren que la democracia sigue siendo preferida como forma de gobierno. Las personas han perdido confianza sobre cómo se gobierna en la democracia pero no están desconectadas con ella; al contrario se observa mayor participación a través de las protestas públicas y en las redes sociales. Se vota y se reclama. Hay motivos para la preocupación pero ser demasiado dramático. Más Bobbio y menos Schmitt significa en términos prescriptivos más democracias participativas y menos democracias plebiscitarias más mediación política y menos personalismo más amistad política entre adversarios y menos polarización entre enemigos más pluralismo y menos unanimidad. Más espacio pero juntos a nivel local representa la necesidad de gobernar para todos especialmente para los sectores que siguen siendo económicamente postergados o excluidos y para aquellos que son marginados por motivos sociales culturales étnicos religiosos o identitarios. No deberíamos distraernos. La democracia liberal no está funcionando bien con la concepción del Estado mínimo o débil ni con el poder invisible que excluye a la opinión pública del proceso de formación y control de las decisiones políticas. Más espacio pero juntos a nivel internacional encarna el desafío de formar coaliciones políticas en torno a los valores de la democracia liberal para enfrentar a las autocracias. En el fondo lo que está en juego es una batalla por las ideas abiertas vs cerradas. Bobbio nos recuerda que la democracia liberal discurre a través del proceso de ensayo y error de aprendizaje y negociación; continúa de autocrática. Acepta la alternancia en el poder. Respeta el Estado de derecho y al gobierno limitado. Cultiva la empatía la tolerancia el diálogo la deliberación la persuasión la búsqueda del consenso. Esquiva la unanimidad la imposición o la violencia. Es la mejor vía para aspirar al bien común. Más que instrumental su supremacía es de orden moral.

Viaje del Parnaso y otras poesías (Los mejores clásicos) Miguel de Cervantes, 2016-02-18

Un volumen nuevo con todos los versos independientes de Cervantes. Introducción y notas de Laura Fernández García profesora de la Universidad Autónoma de Barcelona. El presente volumen recoge la producción poética exenta de Miguel de Cervantes es decir el grueso de la obra que no incluye en sus novelas y obras teatrales. Destaca de toda ella el nuevo poema narrativo del autor que da título al libro una suerte de relato mítico y autobiográfico en el que Cervantes viaja al monte Parnaso para encontrarse con el dios Apolo. Esta edición da cuenta del aspecto menos conocido del irreplicable talento del autor más universal de nuestras letras. La investigadora de la Universidad Autónoma de Barcelona Laura Fernández García la ha dotado además de un impecable aparato de notas así como del estudio que abre el volumen y los apéndices finales.
