Wittine,2017-10-13 It is inevitable that humankind will become extinct Nowadays the advance of technology has overtaken the human capacity to control the possible consequences of any kind of progress Extinction is always multifactorial Double faced Janus Meerkater a reborn Neanderthal and leading nanotechnologist has created EMULATOR an unexcelled thinking machine and technological singularity Thus Murphy s law and the D renmatt principle are put in motion Leo Lobeck the Trojan Jason Stardust and Xixi Bruneau are fighting the technocalypse Brain emulation in combination with wormhole physics could create an escape route for mankind That way reality is broken and reveals itself as an illusion in the empirical dimensions of human experience The world events turn out to be pure satire In the end all human minds will be uploaded to EMULATOR and Friedrich Nietzsche the great but unfortunately insane philosopher will be God Perhaps we are all part of an experiment Maybe to be human is just a test of what animate creatures would do given by nature limited intelligence and maximum ignorance The Origin and Evolution of Humans and Humanness D. Tab Rasmussen,1993 This volume

represents the proceedings of the Irving Stone Memorial Symposium on The Origin of Humans and Humanness Scientists in the fields of anthropology archaeology biology and ecology were invited to discuss their research concerning the how s

where s and why s of the evolutionary history of humans Using our knowledge of the behavior and reproduction of living primates chapter 1 describes what made the earliest human like animals of 4 million years ago different from their ape relatives While showing how the science of paleontology works the origin of our genus Homo is discussed in chapter 2 With emphasis on those humans who first made regular use of stone tools some 2 million years ago chapter 3 interprets ancient human behavior and ecology from an archeological perspective Tools from genetics molecular biology archaeology and paleontology are used to examine the origin of modern Homo sapiens in chapter 4 Chapter 5 looks at the artistry of Ice Age craftsmen Finally using computer methods chapter 6 delves into the complex issue of how does human behavior change and what is the relationship between biological and cultural evolution

The Science of Human Evolution John H. Langdon,2016-10-25 This textbook provides a collection of case studies in paleoanthropology demonstrating the method and limitations of science These cases introduce the reader to various problems and illustrate how they have been addressed historically The various topics selected represent important corrections in the field some critical breakthroughs models of good reasoning and experimental design and important ideas emerging from normal science

A Global History of The Earlier Palaeolithic Mark J. White,2022-10-10 This book tells the story of both the ancient humans who made handaxes and the thoughts and ideas of scholars who have spent their lives trying to understand them Beginning with the earliest known finds this volume provides a linear and thematic account of the history of the Old Stone Age or Palaeolithic period covering major discoveries interpretations and debates worldwide a story that takes us from the embers of the Great Fire of London to the beginning of the Covid 19 pandemic It offers a comprehensive and unique history of archaeological theory and interpretation seeking to explain how we know what we know about the deep past and how ideas about it have changed over time reflecting both scientific and societal change At its heart lies the quest for an answer to a most curious and sometimes beautiful tool ever made the handaxe While focused on the Earlier Palaeolithic period the book provides a readable account of how ideas about the prehistoric past generally were formed and altered showing how the wider discipline came to be dominated by a succession of different theoretical paradigms each seeking different answers from the same data set Serving a dual purpose as a historical narrative and as a reference source this book will be of interest to all students and researchers interested in deep human prehistory and evolution archaeological theory and the history of archaeology
