Works but finally the problems proved too much After enormous expenditure the first DMSs began to be withdrawn before the final RTs came out of service and between 1979 and 1983 all but the B20s were sold as is widely known the DMSs proved perfectly adequate with provincial operators once their London features had been removed OPO was to become fashionable again in the 1980s as the politicians turned on London Transport itself breaking it into pieces in order to sell it off Not only did the B20 DMSs survive to something approaching a normal lifespan but the new cheap operators awakening with the onset of tendering made use of the type to undercut LT and it was not until 1993 that the last DMS operated Universal
