Out Takes Essays On Queer Theory And Film Series Q:

Out Takes Ellis Hanson,1999 Brings together the work of both film scholars and queer theorists to advance a more sophisticated notion of queer film criticism *Out Takes* Ellis Hanson,1999 Brings together the work of both film scholars and queer theorists to advance a more sophisticated notion of queer film criticism **Twentieth-century American Cultural Theorists** Paul Hansom,2001 This award winning series systematically presents career biographies of writers from all eras and all genres through volumes dedicated to specific types of literature and time periods **The University** Paul A. Bové,2000 The essays collected in this issue of *boundary 2* were written in response to a call for papers that would treat the contemporary university in various regions and stages of formation around the world in light of the interaction between local and global realities Underlying this project is the assumption that profound changes in economy and world organization transform the function and value of universities in tension not only with the regional histories and forces in which particular universities function but also with what used to be called the idea of the university The authors of these essays approach this topic in two ways some present the history and current situation of the university in a given place and politics and some write of the new university's political economy as the state withdraws support for higher education and hands the institutions over to entrepreneurial and transnational corporate culture None of these essays defends the idea that the university pursues knowledge for its own sake Yet there is a tinge of nostalgia for this idea or at least for the idea that the university's task is to educate to destroy bias to cultivate Of course such an idea remains the public justification for the existence of the university especially in the advanced capitalist societies whose higher classes benefit the most from the globalization of economic production **GLQ** ,1999 **Pólvora, sangre y sexo** Assen Kokalov,2014-03-01 The book examines the links between literature and film in Latin America by using queer theory and a series of recent cultural productions whose arguments destabilize traditional gender roles and heteronormative masculinity For many years the connections between a literary text and its film adaptation have been considered only from the point of view of the latter's fidelity to the written work which many scholars imagined to be the original that filmmakers needed to respect Within the last two decades however the idea of adaptation fidelity has been challenged by a number of critics who refute the existence of an original text and promote the notion of an ambiguous and complex relationship between a literary work and its film adaptation Based on such developments and with the help of queer theory this book questions and revises several crucial theoretical approximations that analyze the relations between the two art forms in an attempt to overcome the limitations of fidelity discourse This is the first book length study that seeks to examine with the appropriate detail the connections between film and literature in Latin America through the lenses of queer theory and by focusing on the representations of numerous practices that do not fit within the general framework of heteronormative sexuality **Bibliographic Guide to Womens Studies 1998** New York Public Library Staff,1999-08 *Film - An International Bibliography* Malte Hagener,Michael Töteberg,2002-04-12 Diese
