## **Religion And The Early Modern State Views From China Russia And The West:**

Religion and the Early Modern State James D. Tracy, Marguerite Ragnow, 2004-10-25 How did state power impinge on the religion of the ordinary person This perennial issue has been sharpened as historians uncover the process of confessionalization or acculturation by which officials of state and church collaborated in ambitious programs of Protestant or Catholic reform intended to change the religious consciousness and the behaviour of ordinary men and women In the belief that specialists in one area of the globe can learn from the questions posed by colleagues working in the same period in other regions this volume sets the topic in a wider framework Thirteen essays grouped in themes affording parallel views of England and Europe Tsarist Russia and Ming China show a spectrum of possibilities for what early modern governments tried to achieve by regulating religious life and for how religious communities evolved in new directions either in keeping with or in spite of official injunctions *Christianities in the Early Modern Celtic World* T. O' Hannrachain, R. Armstrong, Tadhg Ó hAnnracháin, 2014-07-30 Ranging from devotional poetry to confessional history across the span of competing religious traditions this volume addresses the lived faith of diverse communities during the turmoil of the sixteenth and seventeenth centuries Together they provide a textured understanding of the complexities in religious belief practice and organization **A House Divided: Wittelsbach Confessional Court Cultures in the Holy Roman Empire, c. 1550-1650** Andrew L. Thomas, 2010-04-06 This book is the only book length monograph comparing the impact of confessional identity on both halves of the Wittelsbach dynasty which provided Bavarian dukes and German emperors as well as its implications for late Renaissance court culture It demonstrates that religious conflict led to the development of distinctly confessional court cultures among the main Wittelsbach courts Likewise it illuminates how these confessional court cultures contributed significantly to the splintering of Renaissance humanism along religious lines in this era Concomitantly it sheds new light on the impact of late medieval dynastic competition on shaping the early modern Wittelsbach courts as well as the important role of Wittelsbach women in the creation and continuation of dynastic piety in their roles as wives mothers and patronesses of the arts **Good for the Souls** Nadieszda Kizenko, 2021 This book brings Russia into the rich scholarly and popular literature on confession penance discipline and gender in the modern world and in doing so opens a key window onto church state and society Sacred Violence Brent D. Shaw, 2011-09 Employs the sectarian battles which divided African Christians in late antiquity to explore the nature of violence in religious conflicts Britain and the Islamic World, 1558-1713 Gerald MacLean, Nabil Matar, 2011-05-26 Before they had an empire in the East the British travelled into the Islamic world to pursue trade and to form strategic alliances against the Catholic powers of France and Spain First hand encounters with Muslims Jews Greek Orthodox and other religious communities living together under tolerant Islamic rule changed forever the way Britons thought about Islam just as the goods they imported from Islamic countries changed forever the way they lived Britain and the Islamic World tells the story of how for a century and a half merchants and diplomats

travelled from Morocco to Istanbul from Aleppo to Isfahan and from Hormuz to Surat and discovered a world that was more fascinating than fearful Gerald MacLean and Nabil Matar examine the place of Islam and Muslims in English thought and how British monarchs dealt with supremely powerful Muslim rulers They document the importance of diplomatic and mercantile encounters show how the writings of captives spread unreliable information about Islam and Muslims and investigate observations by travellers and clergymen who reported meetings with Jews eastern Christians Armenians and Shiites They also trace how trade and the exchange of material goods with the Islamic world shaped how people in Britain lived their lives and thought about themselves

### **Kizilbash-Alevi in Ottoman Anatolia**

Ayfer Karakaya-Stump,2020-01-10 The Kizilbash were at once key players in and the foremost victims of the Ottoman Safavid conflict that defined the early modern Middle East Today referred to as Alevi they constitute the second largest faith community in modern Turkey with smaller pockets of related groups in the Balkans Yet several aspects of their history remain little understood or explored This first comprehensive socio political history of the Kizilbash Alevi communities uses a recently surfaced corpus of sources generated within their milieu It offers fresh answers to many questions concerning their origins and evolution from a revolutionary movement to an inward looking religious order

**British North America in the Seventeenth and Eighteenth Centuries** Stephen Foster,2016-11-10 Until relatively recently the connection between British imperial history and the history of early America was taken for granted In recent times however early American historiography has begun to suffer from a loss of coherent definition as competing manifestos demand various reorderings of the subject in order to combine time periods and geographical areas in ways that would have previously seemed anomalous It has also become common place to announce that the history of America is best accounted for in America itself in a three way melee between settlers the indigenous populations and the forcibly transported African slaves and their creole descendants The contributions to British North America in the Seventeenth and Eighteenth Centuries acknowledge the value of the historiographic work done under this new dispensation in the last two decades and incorporate its insights However the

volume advocates a pluralistic approach to the subject generally and attempts to demonstrate that the metropolitan power was of more than secondary importance to America in the seventeenth and eighteenth centuries The central theme of this volume is the question to what extent did it make a difference to those living in the colonies that made up British North America in the seventeenth and eighteenth centuries that they were part of an empire and that the empire in question was British The contributors some of the leading scholars in their respective fields strive to answer this question in various social political religious and historical contexts

**Tobacco in Russian History and Culture** Matthew Romaniello, Tricia Starks, 2011-04-27 According to the World Health Organization approximately seventy percent of men and thirty percent of women in Russia smoke and the WHO estimated that at the close of the twentieth century 280 000 Russians died every year from smoking related illnesses a rate over three times higher than the global average The demographic crisis in current Russia has occasioned interest by President Putin in health care efforts and by historians in the source of these problems Tobacco in Russian History and Culture explores tobacco's role in Russian culture through a multidisciplinary approach starting with the growth of tobacco consumption from its first introduction in the seventeenth century until its pandemic status in the current post Soviet health crisis The essays as a group emphasize the ways in which from earliest contact tobacco's status as a foreign commodity forced Russians to confront their national political and economic interests in its acceptance or rejection and find there markers of gender class or political identity International contributors from the fields of history literature sociology and economics fully present the dramatic impact of the weed called the blossom from the womb of the daughter of Jezebel

**The Empress and the Heavenly Masters** Luk Yuping, 2016-02-16 Over twentyseven meters long the Ordination Scroll of Empress Zhang 1493 is an important Ming Dynasty Daoist artifact from the San Diego Museum of Art's collection that records the imperial ordination of Empress Zhang 1470 1541 consort of the Ming Dynasty Hongzhi emperor r 1488 1505 by Zhang Xuanqing d 1509 the fortyseventh Heavenly Master of the Zhengyi institution This book uncovers the history of imperial ordinations through a detailed examination of the scroll's transcriptions and the meticulously painted images of celestial beings as well as the influences of the Daoist leaders known as the Zhengyi Heavenly Masters

**Shrines to Living Men in the Ming Political Cosmos** Sarah Schneewind, 2020-10-26 Shrines to Living Men in the Ming Political Cosmos the first book focusing on premortem shrines in any era of Chinese history places the institution at the intersection of politics and religion When a local official left his post grateful subjects housed an image of him in a temple requiting his grace that was the ideal model By Ming times the living shrine was legal old and justified by readings of the classics Sarah Schneewind argues that the institution could invite and pressure officials to serve local interests the policies that had earned a man commemoration were carved into stone beside the shrine Since everyone recognized that elite men might honor living officials just to further their own careers premortem shrine rhetoric stressed the role of commoners who embraced the opportunity by initiating many living shrines This legitimate institutionalized political voice for commoners

expands a scholarly understanding of public opinion in late imperial China aligning it with the efficacy of deities to create a nascent political conception Schneewind calls the minor Mandate of Heaven Her exploration of premortem shrine theory and practice illuminates Ming thought and politics including the Donglin Party's battle with eunuch dictator Wei Zhongxian and Gu Yanwu's theories

**The Human Odyssey** Stephen Green, 2019-09-19 Erudite bold and wide ranging a book that makes you think about knowledge wisdom and what the future has in store PETER FRANKOPAN A book of remarkable sweep and scope not just learned but deeply humane TOM HOLLAND The long human odyssey of self discovery has reached a crucial stage everything we do affects everyone and everything else and we know it The next hundred years will bring more change than we can easily imagine more opportunities for more people to achieve the fulfilment of a good life and more risks that could result in catastrophic harm to the entire planet Viewed geopolitically the main question is whether the world views of the world's most important and influential powers China and America the one fundamentally Confucian the other essentially individualist can be made to work together constructively At the same time on a deeper level the even greater question is how the irreversible fact of urbanisation may nurture healthy and mature human individuality such that the accumulated wisdom of the world's great cultures becomes mutually transforming and enriching This bold and wide ranging book explores those questions with all the risks and opportunities they hold for generations still to come

Twilight of the Saints James Grehan, 2016 Twilight of the Saints takes readers to Ottoman Syria and Palestine and offers a new interpretation of the religious history of the region James Grehan looks past Islam Christianity and Judaism and uncovers a common folk religiosity which has largely disappeared in modern times

**Desperate Magic** Valerie Kivelson, 2013-10-30 In the courtrooms of seventeenth century Russia the great majority of those accused of witchcraft were male in sharp contrast to the profile of accused witches across Catholic and Protestant Europe in the same period While European courts targeted and executed overwhelmingly female suspects often on charges of compacting with the devil the tsars courts vigorously pursued men and some women accused of practicing more down to earth magic using poetic spells and home grown potions Instead of Satanism or heresy the primary concern in witchcraft testimony in Russia involved efforts to use magic to subvert mitigate or avenge the harsh conditions of patriarchy serfdom and social hierarchy Broadly comparative and richly illustrated with color plates Desperate Magic places the trials of witches in the context of early modern Russian law religion and society Piecing together evidence from trial records to illuminate some of the central puzzles of Muscovite history Kivelson explores the interplay among the testimony of accusers the leading questions of the interrogators and the confessions of the accused Assembled they create a picture of a shared moral vision of the world that crossed social divides Because of the routine use of torture in extracting and shaping confessions Kivelson addresses methodological and ideological questions about the Muscovite courts equation of pain and truth questions with continuing resonance in the world today Within a moral economy that paired unquestioned hierarchical inequities with expectations of reciprocity magic and suspicions of magic emerged

where those expectations were most egregiously violated Witchcraft in Russia surfaces as one of the ways that oppression was contested by ordinary people scrambling to survive in a fiercely inequitable world Masters and slaves husbands and wives and officers and soldiers alike believed there should be limits to exploitation and saw magic deployed at the junctures where hierarchical order veered into violent excess *Europe's Reformations, 1450-1650* James D. Tracy, 2006-03-23 In this widely praised history noted scholar James D Tracy offers a comprehensive lucid and masterful exploration of early modern Europe s key turning point Establishing a new standard for histories of the Reformation Tracy explores the complex religious political and social processes that made change possible even as he synthesizes new understandings of the profound continuities between medieval Catholic Europe and the multi confessional sixteenth and seventeenth centuries This revised edition includes new material on Eastern Europe on how ordinary people experienced religious change and on the pluralistic societies that began to emerge Reformation scholars have in recent decades dismantled brick by brick the idea that the Middle Ages came to an abrupt end in 1517 Martin Luther s Ninety five Theses fitted into an ongoing debate about how Christians might better understand the Gospel and live its teachings more faithfully Tracy shows how Reformation era religious conflicts tilted the balance in church state relations in favor of the latter so that the secular power was able to dictate the doctrinal loyalty of its subjects Religious reform Catholic as well as Protestant reinforced the bonds of community while creating new divisions within towns villages neighborhoods and families In some areas these tensions were resolved by allowing citizens to profess loyalty both to their separate religious communities and to an overarching body politic This compromise a product of the Reformations though not willed by the reformers was the historical foundation of modern pluralistic society Richly illustrated and elegantly written this book belongs in the library of all scholars students and general readers interested in the origins events and legacy of Europe s Reformation *Early Modern Europe, 1450-1789* Merry E. Wiesner-Hanks, 2022-08-25 Thoroughly updated edition of a best selling acclaimed book placing early modern European history in a global and environmental context **Lexikon of the Hispanic Baroque** Evonne Levy, Kenneth Mills, 2014-01-06 Over the course of some two centuries following the conquests and consolidations of Spanish rule in the Americas during the late fifteenth and early sixteenth centuries the period designated as the Baroque new cultural forms sprang from the cross fertilization of Spanish Amerindian and African traditions This dynamism of motion relocation and mutation changed things not only in Spanish America but also in Spain creating a transatlantic Hispanic world with new understandings of personhood place foodstuffs music animals ownership money and objects of value beauty human nature divinity and the sacred cultural proclivities a whole lexikon of things in motion variation and relation to one another Featuring the most creative thinking by the foremost scholars across a number of disciplines the Lexikon of the Hispanic Baroque is a uniquely wide ranging and sustained exploration of the profound cultural transfers and transformations that define the transatlantic Spanish world in the Baroque era Pairs of authors one treating the peninsular Spanish kingdoms the other those of the Americas provocatively

investigate over forty key concepts ranging from material objects to metaphysical notions Illuminating difference as much as complementarity departure as much as continuity the book captures a dynamic universe of meanings in the various midst of its own re creations The Lexikon of the Hispanic Baroque joins leading work in a number of intersecting fields and will fire new research it is the indispensable starting point for all serious scholars of the early modern Spanish world A 17th Century Knight Ben Norman,2024-12-30 Sir Simonds D Ewes a seventeenth century gentleman bred in Dorset but ultimately shaped by a deep and lasting love for Suffolk was not destined for greatness Nor did he have greatness thrust upon him in his short lifetime Yet this was hardly the point Son to a respectable family D Ewes rose through local legal and political ranks to become a first hand witness to a succession of monumental events in England As MP for Sudbury from 1640 he was one of those who saw with agonising immediacy from the benches of Westminster the rapid decline of the political situation in the mid 1600s Simonds held his breath along with the rest when Charles I forcibly entered the Commons in 1642 and he was there to survey the stunning rise of Oliver Cromwell through the 1640s When civil war arrived D Ewes observed the battle lines being drawn before his very eyes A 17th Century Knight has two aims Firstly it seeks to chart the life of Simonds D Ewes himself the husband father friend antiquary devout Protestant even widower His was an affecting story of personal loss professional and recreational gain and complex familial relationships that is deserving of study Secondly it endeavours to weave a fresh narrative of the tempestuous first half of the 1600s including the English Civil War using D Ewes s experiences and wealth of written material as a focal point As this book shows there is still much to be uncovered about a period in history that we think we all know *Church Building and Society in the Later Middle Ages* Gabriel Byng,2017-12-14 The construction of a church was undoubtedly one of the most demanding events to take place in the life of a medieval parish It required a huge outlay of time money and labour and often a new organisational structure to oversee design and management Who took control and who provided the financing was deeply shaped by local patterns in wealth authority and institutional development from small villages with little formal government to settlements with highly unequal populations This all took place during a period of great economic and social change as communities managed the impact of the Black Death the end of serfdom and the slump of the mid fifteenth century This original and authoritative study provides an account of how economic change local politics and architecture combined in late medieval England It will be of interest to researchers of medieval socio economic and art history
