## Religion And The One:

**The Gertrude Stein Reader** Gertrude Stein, 2002-10-14 This anthology collects 51 of Stein's most experimental poems, stories, portraits, and plays. *A History of Theory and Method in the Study of Religion and Dance* Kimerer L.

LaMothe, 2018-10-22 The relationship between religion and dance is as old as humankind. Contemporary methods for studying this relationship date back a century. The difference between these two time frames is significant: scholars are still developing theories and methods capable of illuminating this vast history that take account of their limited place within it. *A History of Theory and Method in the Study of Religion and Dance* takes on a primary challenge of doing so: overcoming a conceptual dichotomy between religion and dance forged in the colonial era that justified western Christian hostility towards dance traditions across six continents over six centuries. Beginning with its enlightenment roots, LaMothe narrates a selective history of this dichotomy, revealing its ongoing work in separating dance studies from religious studies. Turning to the Bushmen of the African Kalahari, LaMothe introduces an ecokinetic approach that provides scholars with conceptual resources for mapping the generative interdependence of phenomena that appear as dance and/or religion. **Ethics,**

**Religion, and the Good Society** Joseph Runzo, 1992-01-01 People living in a pluralistic age are aware of diversity among themselves and consider it both natural and enriching for humankind. However, there are many disagreements that create ethical questions on the nature of human good, religion, and public morality, and more. Joseph Runzo, with the help of a diverse group of contributors, skillfully deals with these ethical issues. **Religions as Brands** Jean-Claude Usunier, Jörg

Stolz, 2016-04-01 During the twentieth century, religion has gone on the market place. Churches and religious groups are forced to sell god in order to be attractive to religious consumers. More and more religions are seen as brands that have to be recognizable to their members and the general public. What does this do to religion? How do religious groups and believers react? What is the consequence for society as a whole? This book brings together some of the best international specialists from marketing, sociology, and economics in order to answer these and similar questions. The interdisciplinary book treats new developments in three fields that have hitherto evolved rather independently: the commoditization of religion, the link between religion and consumer behavior, and the economics of religion. By combining and cross-fertilizing these three fields, the book shows just what happens when religions become brands. *World Religions in America, Fourth Edition* Jacob

Neusner, 2009-10-07 The fourth edition of *World Religions in America* continues its lauded tradition of providing students with reliable and nuanced information about America's religious diversity while also reflecting new developments and ideas. Each chapter was updated to reflect important changes and events and current statistics and information. New features include a timeline of key events and people for each tradition, sidebars on major movements or controversies, personal stories from members of various faiths, a theme-based organization of subjects, more subheads, three new chapters exploring America's increasing religious diversity, and suggestions for further study. *Religion in India* Fred W. Clothey, 2007-01-24 An ideal

first introduction to India's fascinating and varied religious history. Written by an experienced teacher, this student-friendly textbook is full of lively discussion and vivid examples. **The Myth of Religious Violence** William T. Cavanaugh, 2009-09-03. The idea that religion has a dangerous tendency to promote violence is part of the conventional wisdom of Western societies, and it underlies many of our institutions and policies, from limits on the public role of religion to efforts to promote liberal democracy in the Middle East. William T. Cavanaugh challenges this conventional wisdom by examining how the twin categories of religion and the secular are constructed. A growing body of scholarly work explores how the category religion has been constructed in the modern West and in colonial contexts according to specific configurations of political power. Cavanaugh draws on this scholarship to examine how timeless and transcultural categories of religion and the secular are used in arguments that religion causes violence. He argues three points: 1. There is no transhistorical and transcultural essence of religion. What counts as religious or secular in any given context is a function of political configurations of power. 2. Such a transhistorical and transcultural concept of religion as non-rational and prone to violence is one of the foundational legitimating myths of Western society. 3. This myth can be and is used to legitimate neo-colonial violence against non-Western others, particularly the Muslim world. **Generating Generosity in Catholicism and Islam** Carolyn M. Warner, Ramazan Kılınc, Christopher W. Hale, Adam B. Cohen, 2018-05-10. Using an innovative methodological approach combining field experiments, case studies, and statistical analysis, this book explores how the religious beliefs and institutions of Catholics and Muslims prompt them to be generous with their time and resources. Drawing upon research involving more than 1,000 Catholics and Muslims in France, Ireland, Italy, and Turkey, the authors examine Catholicism and Islam in majority and minority contexts, discerning the specific factors that lead adherents to help others and contribute to social welfare projects. Based on theories from political science, economics, religious studies, and social psychology, this approach uncovers the causal connections between religious community dynamics, religious beliefs and institutions, and socio-political contexts in promoting or hindering the generosity of Muslims and Catholics. The study also provides insight into what different religious beliefs mean to Muslims and Catholics and how they understand those concepts. **Yoga, Meditation, and Mysticism** Kenneth Rose, 2016-09-08. Contemplative experience is central to Hindu yoga traditions, Buddhist meditation practices, and Catholic mystical theology, and despite doctrinal differences, it expresses itself in suggestively similar meditative landmarks in each of these three meditative systems. In *Yoga, Meditation, and Mysticism*, Kenneth Rose shifts the dominant focus of contemporary religious studies away from tradition-specific studies of individual religious traditions, communities, and practices to examine the contemplative universals that arise globally in meditative experience. Through a comparative exploration of the itineraries detailed in the contemplative manuals of Theravada Buddhism, Patanjali's Yoga, and Catholic mystical theology, Rose identifies in each tradition a moment of sharply focused awareness that marks the threshold between immersion in mundane consciousness and contemplative insight. As concentration deepens, the meditator steps through this threshold onto a globally

shared contemplative itinerary which leads through a series of virtually identical stages to mental stillness and insight Rose argues that these contemplative universals familiar to experienced contemplatives in multiple traditions point to a common spiritual mental and biological heritage Pioneering the exploration of contemplative practice and experience with a comparative perspective that ranges over multiple religious traditions religious studies philosophy neuroscience and the cognitive science of religion this book is a landmark contribution to the fields of contemplative practice and religious studies

**Dynamics in the History of Religions between Asia and Europe** ,2011-11-25 This first volume of the series Dynamics in the History of Religions reviews the opening conference of the K te Hamburger Kolleg at the Ruhr University Bochum The first section concentrates on the formation of what later come to be termed world religions through inter religious contact the second part focuses on the significance of interreligious contacts also during their expansive phase Methodological problems of multi perspective research and especially the lack of a general religious terminology are discussed in the third chapter while the final papers outline various aspects of secularization and re sacralisation in the age of globalisation as an effect of multicultural contacts in a world wide web of religious interferences Contributors include Marion Steinicke Volkhard Krech Peter Wick Victor H Mair Heiner Roetz Patrick Olivelle Jens Schlieter Guy Stroumsa Sarah Stroumsa Nikolas Jaspert Michael Lecker John Tolan Eun jeung Lee Michael Lackner Stephen C Berkwitz Sven Bretfeld Lucian H Ischer Jan Assmann Robert Ford Campany Russell McCutcheon Tim H Barrett Francesca Tarocco Ronald M Davidson Markus Zehnder Aslam Syed Marion Eggert Peter Schalk Peter Beyer Ian Reader Jos Casanova Heinz Georg Held

*Globalization* Jan-Erik Lane,2014-07-25 Efforts at coordination between nations are at the heart of the challenges of globalization Despite steadily growing interdependencies individual nations still have specific interests that present obstacles to globalization While some challenges inspired by the need to coordinate are viewed as inevitable by many they are less optimistic about prospects for success Jan Erik Lane argues that one should focus objectively upon the possibility of failures Lane analyzes four kinds of challenges to interdependency all of which are growing in geopolitical relevance First countries need to diminish their dependency on fossil fuel and shift to a reliable supply of energy because fossil fuels are diminishing Second environmental degradation must be addressed because it is accelerating under the strain of earth s population Lane advocates an ecological footprint approach Third a single global market economy and its complexities must be addressed as national economies are increasingly opened Finally as traditional state sovereignty weakens foreign military intervention in both international and intra state conflicts increases Governments are attempting to address these interdependencies or reply to the challenges they pose mainly through international organizations and regionalism These efforts are discussed at length In addition problems with international law are reviewed as Lane warns against the utopian hopes of global constitutionalism Globalization also examines the potential consequences of failing to address the need for coordination in efforts to address shared global challenges Who Do You Say That I Am? Calvin E. Shenk,2006-04-07 Out of long

involvement with adherents of many religions Shenk dares to assert that one can be profoundly respectful of people of other faith traditions and still retain the integrity of one's own faith from the Foreword by Wilbert R Shenk Can we respect other religions and still view Christ as normative for all Yes says Calvin Shenk Professor Emeritus of Religion at Eastern Mennonite University How Answers are not simple However biblical perspectives on religions provide reliable starting points for the journey And placing Christ at the center of the quest yields clarity amid complexity For Christians candid commitment to the uniqueness of Christ is to be accomplished by the integrity of Christ This leads to loving witness that includes truly dialoguing with persons committed to other religions Who Do You Say That I Am assesses contemporary theologies of religious pluralism as well as several of the world's major religions yet remains accessible to all thoughtful Christians

**Peacemaking and Religious Violence** Roger A. Johnson, 2009-09-01 From its very beginning Christian faith has been engaged with religious violence The first Christians were persecuted by their co religionists and then by imperial Rome Jesus taught them in such circumstances not to retaliate but to be peacemakers to love their enemies and to pray for their persecutors Jesus's response to religious violence of the first century was often ignored but it was never forgotten Even during those centuries when the church herself persecuted Christian heretics Jews and Muslims some Christians still struggled to bear witness to the peace mandate of their Lord In the thirteenth century Thomas Aquinas wrote a theology to help his Dominican brothers persuade Cathar Christians to return to their Catholic faith peacefully Ramon Lull a Christian student of Arabic and the Qur'an sought to help his fellow Christians recognize the elements of belief they shared in common with the Muslims in their midst In the fifteenth century Nicholas of Cusa a Church Cardinal and theologian expanded Lull's project to include the newly discovered religions of Asia In the seventeenth century Lord Herbert an English diplomat and lay Christian began to identify the political union of church and government as a causal factor in the religious warfare of post Reformation Christendom One and a half centuries later Thomas Jefferson a lay theologian of considerable political stature won a political struggle in the American colonies to disestablish religion first in his home colony of Virginia and then in the new nation he helped to found All five of these theologians reclaimed the peace mandate of Jesus in their response to the religious violence of their own eras All of which points us to some intriguing Christian responses to religious violence in our own century as recounted in the epilogue

**The Universalist Leader** ,1924 **All Gods Battle Amazing George** Hilton McCabe, 2013-05 Amazing George lives a life of bad and good religious choices His conscious life seems confused Yet he finds powerful forces guiding him to where he is most uncomfortable He knows he is flawed with failure possessed by dangerous ambitions and confused by memory shadows He wanders seemingly without purpose while moving with the relentless guidance of people and events You may see your own religious beliefs lived or distorted Innocently these sneak into George's living but they come as if by some design He finds a variety of people rejecting and accepting them carelessly His own life plans give way to horrific events as well as the most uplifting Somehow he keeps on his way without personal direction He s

clumsy comical tragic and perhaps hope filled He is his own person without suspecting his own destiny until a burst of clarity renders him amazing A patient reader will get his or her amazing reward for loyalty      **Million Wings** Dr. Surinder Kansala,2016-01-08 It is not another book on global idealism only rather is a visionary book of realistic global balance of human hearts and minds to expand human happiness It refines the concepts of heartfelt happiness to fulfill dreams and desires in a harmonic coordination with the rest of the world may it be anything ranging from birth to death desires to spirituality food to sex education to occupation love affairs to flirtiness family to politics science to the God etc Human happiness needs human ways of happiness not only the idealistic guidelines The basic fundamental strategy is to widen the comfort zone of human to the maximum range by raising the freedom to highest possible levels and reducing the responsibilities to minimum possible limits the book gives a common humanistic base to all of the idealistic standards of the world and declares the actual human behavior capacities and limitations as a minimum criteria to be followed to achieve human happiness My dear friends Million Wings supports motivates and guides every human being on the earth to fly with a smile in the sky of his dream life      **Society and Nature** Hans Kelsen,2014-05-22 First published in 1998 This is Volume XIV of eighteen in the Sociology of Behaviour and Psychology series This text is concerned with sociological inquiry into society and nature Written in 1946 it investigates the idea that society and nature if conceived of as two different systems of elements are the results of two different methods of thinking and are only as such two different objects The same elements connected with each other according to the principle of causality constitute nature connected with each other according to another namely a normative principle they constitute society      Chinese Religions J.
