**On the Scope and Truth of Theology** Robert C. Neville, 2006-06-05 A genuinely fresh theological project that accounts for the interdisciplinary nature of religion and its discontents

The Politics of Religious Studies Donald Wiebe, 1998 In The Politics of Religious Studies Donald Wiebe takes on a debate that has been raging in universities across North America and Europe for some years now

The issue is whether to approach religion as a science free from the dissemination of beliefs and evangelizing or to study it as a form of faith and therefore draw lines between believers and nonbelievers Wiebe persuasively argues the former claiming that if taught in a university religion must be treated as a science with all the objectivity and research that are brought to other subjects He further maintains that the study of theology should take place in seminaries which are the proper places for the pursuit of religion as a creed Exploring the true meaning and role of an academic Wiebe shows how by propagating religion instructors are abandoning their academic task to explain everything and enjoin nothing Certain to incite controversy The Politics of Religious Studies is an intelligent manifesto guaranteed to help readers look at academia the search for knowledge and the idea of religion in an entirely new light

**Understanding Religious Pluralism** Peter C. Phan, Jonathan Ray, 2014-08-01 Our contemporary world is fast becoming religiously diverse in a variety of ways Thanks to globalization and migration to mention only two current worldwide trends people of diverse and sometimes mutually hostile faiths are now sharing neighborhoods and encountering one another's religious traditions on a daily basis For scholars in religious studies and theology the issue to be examined is whether religious diversity is merely the result of historical development and social interaction or whether it is inherent in the object of belief part of the very structure of faith and our attempts to understand and express it The essays in this volume range from explorations of the impact of religious diversity on religious studies to examples of interfaith encounter and dialogue and current debates on Christian theology of religion These essays examine not only the theoretical issues posed by religious pluralism to the study of religion and Christian theology but also concrete cases in which religious pluralism has been a bone of contention Together they open up new vistas for further conversation on the nature and development of religious pluralism

**Theology and Science on the Evolution of Religion** Tom Uytterhoeven, 2024-09-14 This book studies the much debated implications of sociobiology for religion It explores the answers to questions such as Is

religion merely the result of natural selection Do religious ideas literally make up people s minds determining how they think and act Critically engaging philosopher Daniel Dennett s view on cultural evolution the book argues that the relation between religious concepts and religious believers is one of continuous creative dialogue This dialogical relation allows meaning to emerge and leaves room for free will thus contradicting Dennett s position The book provides a concise introduction to the questions at play where religion and science meet Drawing on sources from science philosophy and theology it offers an example of how a constructive interaction of different disciplines can lead to new perspectives on the complex phenomenon of religion

**A Trinitarian Theology of Religions** Gerald R. McDermott, Harold A. Netland, 2014-04-17 Named by the International Bulletin of Missionary Studies as an Outstanding Book of 2014 for Mission Studies Over the last four decades evangelical scholars have shown growing interest in Christian debates over other religions seeking answers to essential questions How are we to think about and relate to other religions be open to the Spirit and at the same time remain evangelical and orthodox Gerald R McDermott and Harold A Netland offer critiques of a variety of theologians and religious studies scholars including evangelicals but also challenge evangelicals to move beyond parochial positions This volume is both a manifesto and a research program critically evaluating the last forty years of Christian treatments of religious others and proposing a comprehensive direction for the future It addresses issues relating to the religions in both systematic theology and missiology taking up long debated questions such as contextualization salvation revelation the relationship between culture and religion conversion social action and ecumenism It concludes with responses from four leading thinkers of African Asian and European backgrounds Veli Matti K rkk inen Vinoth Ramachandra Lamin Sanneh and Christine Schirrmacher

*Religious Studies for Laymen* Charles Elmer Beals, 1913

*Christianity and World Religions* Gavin D'Costa, 2009-03-09 Why has the reality of other religions become a big problem for Christianity In the past Christianity has been able to largely ignore other religions but in recent decades not just the reality but the vitality of other religions has become a challenge This accessible book tackles a number of questions arising from these changes is belonging to one religion rather than another merely a matter of cultural preference is salvation the same among all religions and what can be learned from other religions Considering wider issues of how modernity has defined religion Gavin D Costa provides a substantial critique of secular ways of controlling religions and shows how Christianity is very well suited to deal with religious plurality at the doctrinal and social level The book makes a decisive contribution to debates about the clash between Islam and the West arguing that the major threat to religious freedoms come from secularism and that Islam and Christianity both have the resources to develop a vibrant and pluralist public square informed by intellectual debate By engaging with the core questions and suggesting a pathway through the various answers that have been proposed in recent years this is an ideal introduction to the field and one which will help stimulate ideas and discussions

**Theology Without Walls** Jerry L. Martin, 2019-10 Thinking about ultimate reality is becoming increasingly transreligious This transreligious turn follows

inevitably from the discovery of divine truths in multiple traditions Global communications bring the full range of religious ideas and practices to anyone with access to the internet Moreover the growth of the nones and those who describe themselves as spiritual but not religious creates a pressing need for theological thinking not bound by prescribed doctrines and fixed rituals This book responds to this vital need The chapters in this volume each examine the claim that if the aim of theology is to know and articulate all we can about the divine reality and if revelations enlightenments and insights into that reality are not limited to a single tradition then what is called for is a theology without confessional restrictions In other words a Theology Without Walls To ground the project in examples the volume provides emerging models of transreligious inquiry It also includes sympathetic critics who raise valid concerns that such a theology must face This is a book that will be of urgent interest to theologians religious studies scholars and philosophers of religion It will be especially suitable for those interested in comparative theology inter religious and interfaith understanding new trends in constructive theology normative religious studies and global philosophy of religion

*The Primacy of God: The Virtue of Religion in Catholic Theology* R. Jared Staudt, 2022-02-08 To contemporary minds the notion of justice toward God is seldom considered and often foreign Far more discussed is how God might either undermine or motivate social justice The Primacy of God by R Jared Staudt offers an important intervention With the aid of St Thomas Aquinas Staudt argues that it is vital for both contemporary society and contemporary Catholic theology to return to the traditional view of God as the one to whom all human and social action must be ordered and to recover the virtue of religion as the virtue which orders all other virtues to God Not only does Staudt helpfully remind readers of the ancient philosophical and biblical notion of worship as a dictate of the natural law he also illuminates the way in which Christian liturgy as an enactment of Christ's high priesthood is the great fulfillment of natural and biblical worship Accordingly Staudt secures religion as essential for the virtue of love This brings Staudt to criticize modern theologians like Karl Barth who claimed that religion is inherently idolatrous as well as Karl Rahner who claimed that love of neighbor is the highest moral act Staudt also considers the question of religious truth in light of the plurality of religions soliciting the assistance of Hans Urs von Balthasar and Joseph Ratzinger as well as the way in which religion relates to the development of culture engaging the great Catholic social historian Christopher Dawson The Primacy of God is a much needed work that ought to set the agenda for Catholic theology in the twenty first century

*Christians and Religious Pluralism* Alan Race, 1993      **An Introduction to Theology in Global Perspective** Stephen B. Bevans, 2009
