World Christianity and Marxism Denis R. Janz, 1998-04-09 Denis Janz argues that the encounter with Marxism has been the defining event for twentieth century Christianity No other worldview shook Christianity more dramatically and no other movement had as profound an impact on so many Now the Cold War is over and as we approach the end of the century we need Janz says to ask ourselves what happened This book is the first unified and comprehensive attempt to analyze this historic meeting between these two antagonistic worlds of thought and action The intellectual foundation of this antagonism is to be found in Karl Marx himself and thus the book begins with an account of Marx s assault on Christianity All the diverse philosophical and political manifestations of Marxism were ultimately rooted in Marx s thought and supporters based their greater or lesser hostilities toward Christianity on their reading of his critique Janz follows this with an overview of Christian responses to Marx extending from the mid 19th century to the onset of the Cold War He argues that within this time frame Christianity s negation of Marx was not absolute the loud no to Marx bore with it an important if muted yes With this intellectual groundwork in place Janz turns to an examination of the encounter as it unfolded in specific national contexts the United States the Soviet Union Poland Nicaragua Cuba China and Albania The experiences of these countries varied widely from Poland where Christianity maintained its strongest independence to Nicaragua where a Christian alliance with Marxism contributed to revolutionary change to Albania where a Stalinist government attempted to abolish religion entirely From this survey emerges the evidence that world Christianity has clearly internalized some of the prominent features of its antagonist suggesting that the Marxist project is not as utterly defunct as many have assumed **Religion in Communist China**

**China** Gerda Wielander,2013-10-08 This book argues that as new political and social values are formed in post socialist China Christian values are becoming increasingly embedded in the new post socialist Chinese outlook It shows how although Christianity is viewed in China as a foreign religion promoted by Christian missionaries and as such at odds with the official position of the state Christianity as a source of social and political values rather than a faith requiring adherence to a church is in fact having a huge impact The book shows how these values inform both official and dissident ideology and provide a key underpinning of morality and ethics in the post socialist moral landscape Adopting a variety of different angles the book investigates the role Christian thought plays in the official discourse on morality and love and what contribution Chinese Christians make to charitable projects It analyses key Christian publications and dedicates two chapters to Christian intellectuals and their impact on political liberal thinking in China The concluding chapter highlights gender roles the role of the Chinese diaspora and the overlap of the government and Christian agenda in China today The book challenges commonly held views on contemporary Chinese Christianity as a movement in opposition to the state by showing the diversity and complexity of Christian thinking and the many factors influencing it Resistance Under Communist China Ray
