The Old Faith and the Russian Land Douglas Rogers, 2016-02-04 *The Old Faith and the Russian Land* is a historical ethnography that charts the ebbs and flows of ethical practice in a small Russian town over three centuries The town of Sepych was settled in the late seventeenth century by religious dissenters who fled to the forests of the Urals to escape a world they believed to be in the clutches of the Antichrist Factions of Old Believers as these dissenters later came to be known have maintained a presence in the town ever since The townspeople of Sepych have also been serfs free peasants collective farmers and now shareholders in a post Soviet cooperative Douglas Rogers traces connections between the town and some of the major transformations of Russian history showing how townspeople have responded to a long series of attempts to change them and their communities tsarist era efforts to regulate family life and stamp out Old Belief on the Stroganov estates Soviet collectivization drives and antireligious campaigns and the marketization religious revival and ongoing political transformations of post Soviet times Drawing on long term ethnographic fieldwork and extensive archival and manuscript sources Rogers argues that religious political and economic practice are overlapping arenas in which the people of Sepych have striven to be ethical in relation to labor and money food and drink prayers and rituals religious books and manuscripts and the surrounding material landscape He tracks the ways in which ethical sensibilities about work and prayer hierarchy and inequality gender and generation have shifted and recombined over time Rogers concludes that certain expectations about how to be an ethical person have continued to orient townspeople in Sepych over the course of nearly three centuries for specific identifiable and often unexpected reasons Throughout he demonstrates what a historical and ethnographic study of ethics might look like and uses this approach to ask new questions of Russian Soviet and post Soviet history

Unity in Faith? J. M. White, 2020-11-03 The little known history of an attempt to end a religious schism in imperial Russia and the questions it raised about church and state Established in 1800 edinoverie translated as unity in faith was intended to draw back those who had broken with the Russian Orthodox Church over ritual reforms in the seventeenth century Called Old Believers they had been persecuted as heretics In time the Russian state began tolerating Old Believers in order to lure them out of hiding and make use of their financial resources as a means of controlling and developing Russia's vast and heterogeneous empire However the Russian Empire was also an Orthodox state and conversion from Orthodoxy constituted a criminal act So which was better for ensuring the stability of the Russian Empire managing heterogeneity through religious toleration or enforcing homogeneity through missionary campaigns Edinoverie remained contested and controversial throughout the nineteenth and early twentieth centuries as it was distrusted by both the Orthodox Church and the Old Believers themselves The state reinforced this ambivalence using edinoverie as a means by which to monitor Old Believer communities and employing it as a carrot to the stick of prison exile and the deprivation of rights In *Unity in Faith* James White's study of edinoverie offers an unparalleled perspective of the complex triangular relationship between the state
