Religion In The Age Of Romanticism Studies In Early Nineteenth Century Thought:

Religion in the Age of Romanticism Bernard M. G. Reardon, 1985-09-12 The conflict between Romantic thought of the early 1800s in Europe and traditional Christian beliefs resulted in liberalism competing against conservatism This text attempts to show how writers such as Schleiermacher Hegel Schelling and Auguste Comte did not reject religion despite the influence of the increasingly science oriented culture of their time *Routledge Library Editions: 19th Century Religion* Various Authors, 2021-07-09 Reissuing works originally published between 1973 and 1997 Routledge Library Editions 19th Century Religion 18 volumes offers a selection of scholarship covering historical developments in religious thinking Topics include the origin of Catholicism in America sexual liberation and religion in Europe and the emergence of Atheism in Victorian England This set also includes collections of sermons and essays from some of the most influential preachers of the nineteenth century **Christianity & Western Thought: Faith & reason in the 19th century** Colin Brown, Steve Wilkens, Alan G. Padgett, 1990 In this much anticipated sequel to Colin Brown's Christianity and Western Thought Volume 1 Steve Wilkens and Alan Padgett follow Christianity and philosophy's interaction through the monumental changes of the nineteenth century *Encyclopedia of the Romantic Era, 1760-1850* Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism **Romanticism and the Re-Invention of Modern Religion** Alexander J. B. Hampton, 2019-01-17 Early German Romanticism sought to respond to a comprehensive sense of spiritual crisis that characterised the late eighteenth century The study demonstrates how the Romantics sought to bring together the new post Kantian idealist philosophy with the inheritance of the realist Platonic Christian tradition With idealism they continued to champion the individual while from Platonism they took the notion that all reality including the self participated in absolute being This insight was expressed not in the language of theology or philosophy but through aesthetics which recognised the potentiality of all creation including artistic creation to disclose the divine In explicating the religious vision of Romanticism this study offers a new historical appreciation of the movement and furthermore demonstrates its importance for our understanding of religion today *Theology and the University in Nineteenth-Century Germany* Zachary Purvis, 2016-07-21 Theology and the University in Nineteenth Century Germany examines the dual transformation of institutions and ideas that led to the emergence of theology as science the paradigmatic project of modern theology associated with Friedrich Schleiermacher Beginning with earlier educational reforms across central Europe and especially following the upheavals of the Napoleonic period an impressive list of provocateurs iconoclasts and guardians of the old faith

all confronted the nature of the university the organization of knowledge and the unity of theology's various parts quandaries which together bore the collective name of theological encyclopedia Schleiermacher's remarkably influential programme pioneered the structure and content of the theological curriculum and laid the groundwork for theology's historicization Zachary Purvis offers a comprehensive investigation of Schleiermacher's programme through the era's two predominant schools speculative theology and mediating theology Purvis highlights that the endeavour ultimately collapsed in the context of Wilhelmine Germany and the Weimar Republic beset by the rise of religious studies radical disciplinary specialization a crisis of historicism and the attacks of dialectical theology In short the project represented university theology par excellence Engaging in detail with these developments Purvis weaves the story of modern university theology into the broader tapestry of German and European intellectual culture with periodic comparisons to other national contexts In doing so he Purvis presents a substantially new way to understand the relationship between theology and the university both in nineteenth century Germany and indeed beyond

The Philosophical Foundations of Early German Romanticism Manfred Frank, 2012-02-01 Often portrayed as a movement of poets lost in swells of passion early German Romanticism has been generally overlooked by scholars in favor of the great system builders of the post Kantian period Schelling and Hegel In the twelve lectures collected here Manfred Frank redresses this oversight offering an in depth exploration of the philosophical contributions and contemporary relevance of early German Romanticism Arguing that the early German Romantics initiated an original movement away from idealism Frank brings the leading figures of the movement Friedrich Schlegel and Friedrich von Hardenberg Novalis into concert with contemporary philosophical developments and explores the role that Friedrich Hölderlin and other members of the Homburg Circle had upon the development of early German Romantic philosophy

The Rebirth of Revelation Tuska Benes, 2022-02-22 The Rebirth of Revelation explores the different and important ways religious thinkers across Protestantism Catholicism and Judaism modernized the concept of revelation from 1750 to 1850

Figures of the Imagination Roger Hansford, 2017-03-16 This new study of the intersection of romance novels with vocal music records a society on the cusp of modernisation with a printing industry emerging to serve people's growing appetites for entertainment amidst their changing views of religion and the occult No mere diversion fiction was integral to musical culture and together both art forms reveal key intellectual currents that circulated in the early nineteenth century British home and were shared by many consumers Roger Hansford explores relationships between music produced in the early 1800s for domestic consumption and the fictional genre of romance

offering a new view of romanticism in British print culture He surveys romance novels by Ann Radcliffe Matthew Lewis Sir Walter Scott James Hogg Edward Bulwer and Charles Kingsley in the period 1790 1850 interrogating the ways that music served to create mood and atmosphere enlivened social scenes and contributed to plot developments He explores the connections between musical scenes in romance fiction and the domestic song literature treating both types of source and their intersection as examples of material culture Hansford s intersectional reading revolves around a series of imaginative figures including the minstrel fairies mermaids ghosts and witches and Christians engaged both in virtue and vice the identities of which remained consistent as influence passed between the art forms While romance authors quoted song lyrics and included musical descriptions and characters their novels recorded and modelled the performance of songs by the middle and upper classes influencing the work of composers and the actions of performers who read romance fiction

Haskalah Olga Litvak,2012-12-13 Commonly translated as the Jewish Enlightenment the Haskalah propelled Jews into modern life Olga Litvak argues that the idea of a Jewish modernity championed by adherents of this movement did not originate in Western Europe s age of reason Litvak contends that the Haskalah spearheaded a Jewish religious revival better understood against the background of Eastern European Romanticism Based on imaginative and historically grounded readings of primary sources Litvak presents a compelling case for rethinking the relationship between the Haskalah and the experience of political and social emancipation Most importantly she challenges the prevailing view that the Haskalah provided the philosophical mainspring for Jewish liberalism In Litvak s ambitious interpretation nineteenth century Eastern European intellectuals emerge as the authors of a Jewish Romantic revolution Fueled by contradictory longings both for community and for personal freedom the poets and scholars associated with the Haskalah questioned the moral costs of civic equality and the achievement of middle class status In the nineteenth century their conservative approach to culture as the cure for the spiritual ills of the modern individual provided a powerful argument for the development of Jewish nationalism Today their ideas are equally resonant in contemporary debates about the ramifications of secularization for the future of Judaism

Speculative Theology and Common-Sense Religion Linden J. DeBie, 2008-05-15 Evangelicals in nineteenth century America had a headquarters at Princeton Charles Hodge never expected that a former student of Princeton and his own replacement during his hiatus in Europe John W Nevin would lead the German Reformed Church s seminary in a new and in his mind destructive direction The two along with their institutions would clash over philosophy and religion producing some of the best historical theology ever written in the United States The clash was broad influencing everything from hermeneutics to liturgy but at its core was the philosophical antagonism of Princeton s Scottish common sense perspective and the German speculative method employed

by Mercersburg Both Princeton and Mercersburg were the cautious and critical beneficiaries of a century of European Protestant science philosophy and theology and they were intent on adapting that legacy to the American religious context For Princeton much of the new European thought was suspect In contrast Mercersburg embraced a great deal of what the Continent offered Princeton followed a conservative path never straying far from the foundation established by Locke They enshrined an evangelical perspective that would become a bedrock for conservative Protestants to this day In contrast Nevin and the Mercersburg school were swayed by the advances in theological science made by Germany's mediating school of theology They embraced a churchy idealism called evangelical catholicism and emphatically warned that the direction of Princeton and with it Protestant American religion and politics would grow increasingly subjective thus divided and absorbed with individual salvation They cautioned against the spirit of the growing evangelical bias toward personal religion as it led to sectarian disunity and they warned evangelicals not to confuse numerical success with spiritual success In contrast Princeton was alarmed at the direction of European philosophy and theology and they resisted Mercersburg with what today continues to be the fundamental teachings of evangelical theology Princeton's appeal was in its common sense philosophical moorings which drew rapidly industrializing America into its arms Mercersburg countered with a philosophically defended churchly idealism based on a speculative philosophy that effectively critiqued what many to this day find divisive and dangerous about America's current Religious Right *E.T.A. Hoffmann's Musical Aesthetics* Abigail Chantler, 2017-07-05

Whilst E T A Hoffmann 1776 1822 is most widely known as the author of fantastic tales he was also prolific as a music critic productive as a composer and active as a conductor This book examines Hoffmann's aesthetic thought within the broader context of the history of ideas of the late eighteenth and early nineteenth centuries and explores the relationship between his musical aesthetics and compositional practice The first three chapters consider his ideas about creativity and aesthetic appreciation in relation to the thought of other German romantic theorists discussing the central tenets of his musical aesthetic the idea of a religion of art of the composer as a genius and the listener as a passive genius In particular the relationship between the multifaceted thought of Hoffmann and Friedrich Schleiermacher is explored providing some insight into the way in which diverse intellectual traditions converged in early nineteenth century Germany In the second half of the book Hoffmann's dialectical view of music history and his conception of romantic opera are discussed in relation to his activities as a composer with reference to his instrumental music and his two mature large scale operas *Aurora* and *Undine* The author also addresses broader issues pertaining to the ideological and historical significance of Hoffmann's musical and literary oeuvre *From Calvin to Barth* Phillip D. R. Griffiths, 2014-07-21

The Enlightenment caused a paradigm shift in the worldview of most people living in the Western world Those Christian doctrines associated with the Protestant Reformation were believed to be no longer tenable The great German theologian Karl Barth appeared to provide a remedy for this with a theology that harkened back to Protestant Reformation *From Calvin to Barth* examines just how successful Barth was in

returning to the old ways to ascertain whether he did espouse the thinking of men like John Calvin or whether he simply provided a theological system that was just another face of post Enlightenment liberal thinking *The Anglican Imagination*
Robert Boak Slocum, 2016-03-03 The variety and depth of Anglican theology is best engaged through personal encounter with its many sources the theologians and theological witnesses themselves Anglican theology is often worked out in personal terms that provide a synthesis between reflection on the truths of faith and the particular contexts of culture and life This book presents modern Anglican theology through a unique gallery This theological gallery includes a portrait or sketch of ten Anglican writers DuBose Farrer Stringfellow Brooks Kemper DeKoven McCord Adams Polkinghorne Gore and Macquarrie Theological description interpretation and application are included for each with the presentations differing as widely as the theologians and theological witnesses themselves Drawing together understandings and experiences of faith this will be an invaluable resource for students of Anglican theology and anyone who seeks to understand the distinctive perspectives and contributions of Anglicanism relative to living faith and daily life
