**Burton Frederick Porter**

## **Religion And Reason An Anthology:**

*Religion & Reason* Burton Frederick Porter, 1993 *Religion and Reason* presents 68 readings that address central questions in the philosophical study of religion. The book focuses primarily on the Judeo Christian religious tradition but also includes readings that explore early beliefs in religion such as magic witchcraft and mythology as well as selections on the belief systems of Islam Buddhism and Hinduism. It also provides unique coverage of religious movements and philosophical inquiry in modern times with essays on religion by Marx and Freud on secular and religious humanism and on theistic existentialism religion and politics black activism feminism and liberation theology. Included are introductory essays on the purpose of philosophical inquiry into religion as well as essays introducing each chapter.

**Discourse in Dialogue** Pat F. Rossi, 2014-07-24 *Discourse in Dialogue: Reflections in Fundamental Philosophical Theology* is a project which considers fundamental theological and philosophical perspectives in Catholic Christian theology. This project adumbrates a number of specifically intellectual themes namely philosophical and theological in character which pertain to the Catholic Christian tradition. These themes include a study of the following: the interrelationship of philosophy and theology; theological method and pluralism; the interpretation of scripture and its underlying hermeneutical principles; Christian anthropology in relation to philosophy of the human person; the Christological mystery and soteriology as well as the nature of Christian Philosophy, all of which are representative themes proper to fundamental philosophical theology. This work serves as an introductory text to the above cited questions while also providing more specific points of study for those interested in a more comprehensive reflection on contemporary philosophical and theological perspectives.

*Exploring the Philosophy of Religion* David Stewart, 2017-09-29 *Exploring the Philosophy of Religion* 7th Edition combines the best features of a text and a reader by offering clear analysis coupled with important primary source readings. Professor David Stewart called upon his 30 plus years of teaching experience to introduce students to the important study of philosophical issues raised by religion. Beginning students often find primary sources alone too difficult so this text offers primary source materials by a variety of significant philosophers including a balanced blend of classical and contemporary authors but the materials are supported by clearly written introductions which better prepare students to understand the readings.

**The Routledge Companion to Theism** Charles Taliaferro, Victoria S. Harrison, Stewart Goetz, 2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God. This has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over theism. While scholars with as diverse interests as Daniel Dennett, Terry Eagleton, Richard Dawkins, Jürgen Habermas and Rowan Williams have recently contributed books to this debate, theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume. *The Routledge Companion to Theism* addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences, social sciences and

humanities and to its wider cultural contexts The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy Rather The Routledge Companion to Theism investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction The five parts of the volume indicate its inclusive scope I What is Theism II Theism and Inquiry III Theism and the Socio Political Realm IV Theism and Culture V Theism as a Way of Life The result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that is much discussed but frequently misunderstood As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology The Routledge Companion to Theism promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars      Faith and Reason Richard Swinburne, 2005-09-29 Richard Swinburne presents a new edition of the final volume of his acclaimed trilogy on philosophical theology Faith and Reason is a self standing examination of the implications for religious faith of Swinburne's famous arguments about the coherence of theism and the existence of God By practising a particular religion a person seeks to achieve some or all of three goals that he worships and obeys God gains salvation for himself and helps others to attain their salvation But not all religions commend worship and different religions have different conceptions of salvation Faced with these differences Richard Swinburne argues that we should practice that religion which has the best goals and is more probably true than the creeds of other religions He proposes criteria by which to determine the probabilities of different religious creeds and he argues that while requiring total commitment faith does not demand fully convinced belief While maintaining the same structure and conclusions as the original classic this second edition has been substantially rewritten both in order to relate its ideas more closely to those of classical theologians and philosophers and to respond to more recent views In particular he discusses and ultimately rejects the view of Alvin Plantinga that the warrant of a belief depends on the process which produced it and John Hick's contention that all religions offer valid paths to salvation      *Philosophy of Religion* Louis J. Pojman, 2008-11-19 Covering the major issues of the field succinctly and lucidly this text takes an analytically rigorous approach and makes it accessible in presentation Pojman writes from an impartial perspective presenting various options and points of view while guiding students in their own search for truth within these often emotion laden crucial issues The text includes original discussions of religious experience the possibility that hope is an adequate substitute for belief and the relationship between ethics and religion      **Philosophy of Religion** Louis P. Pojman, 1994      *Studia Fabriana, Volume 1* Cornelio Fabro, 2019-02-21 In this first volume of the Studia Fabriana Series we are pleased to present the Acts of the Fabro Symposium which took place at the Catholic University of America in Washington D C on April 1st and April 2nd 2016 It is

our hope that these Acts and the Studia Fabriana Series will bring the thought of Cornelio Fabro into dialogue with modern philosophical discussions providing new insights and guidance to the truth that all men long for     *The Humanities* Frank Whaling,2019-10-08 No detailed description available for The Humanities     **God and Evidence** Rob Lovering,2013-06-20

God and Evidence presents a new set of compelling problems for theistic philosophers The problems pertain to three types of theistic philosopher which Lovering defines here as theistic inferentialists theistic non inferentialists and theistic fideists Theistic inferentialists believe that God exists that there is inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic non inferentialists believe that God exists that there is non inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic fideists believe that God exists that there is no discoverable probabilifying evidence inferential or non inferential of God's existence and that it is nevertheless acceptable morally if not otherwise to have faith that God exists Lovering argues that each type of theistic philosopher faces a problem unique to his type and that they all share two particular problems Some of these problems take us down an entirely new discursive path others down a new discursive path branching off from an old one     *Justified Faith without Reasons?* Valentin Teodorescu,2023-11-06 This study intends to show that the answer to the question whether faith can be justified without proofs can be resolved by importing ideas from Søren Kierkegaard's and Alvin Plantinga's affirmative take on the matter There is a deep similarity between the way they understand belief in God and belief in Christianity The authors share the modern idea that there is an objective truth combining it with the postmodern stance that no method exists which would guarantee access to it One can see at both authors not only a deep commonality of ideas but also a remarkable way in which their understandings augment each other Whereas Kierkegaard comes to the provocative conclusion that if a person wants to live authentically she will meet Christ on her life's journey without needing any proof Plantinga's inquiry contributes to the rational plausibility of this Justified Faith without Reasons project     **The Future of Reason, Science and Faith** J. Andrew Kirk,2016-12-05 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian faith Kirk contributes to the current debate about the intellectual basis and integrity of Western culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual resources worthy to be reckoned with This book's principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism

afresh as a means for the renewal of culture and society      *The Metaphysics of Religion* Michael S. Jones, 2006 Lucian Blaga was an early twentieth century European philosopher whose work was suppressed at the height of his career by the creation of the Romanian Socialist Republic Blaga's philosophical writings are rich and creative spanning metaphysics epistemology philosophy of science philosophical anthropology aesthetics philosophy of culture philosophy of history and philosophy of religion Mircea Eliade wrote that Blaga was the most gifted and critical original thinker in the history of Romanian philosophy Because of historical circumstances Blaga's philosophy has not become known outside of his own country although within Romania it continues to be read and discussed Were it to become known outside of Romania Blaga's philosophy could provide interesting contributions to contemporary philosophical discussions The thesis of this book is that Blaga's philosophy can make valuable contributions to contemporary Anglo American philosophy In order to support this thesis Blaga's philosophical system is explained in detail so that the reader may see how it can be applied to a variety of philosophical issues philosophy of religion in order to demonstrate that it can contribute to contemporary Anglo American discussions Michael S Jones is Assistant Professor of Philosophy at Liberty University      **Frederic Henry Hedge** Bryan F. LeBeau, 1985-01-01 Pittsburgh Theological Monograph New Series General Editor Dikran Y Hadidian      **Faith and Reason** Ronald H. Nash, 1994-04 This book explores philosophical questions that have important implications for the truth and rationality of the Christian faith      **Research Handbook on Interdisciplinary Approaches to Law and Religion** Russell Sandberg, Norman Doe, Bronach Kane, Caroline Roberts, 2019 Following 9 11 increased attention has been given to the place of religion in the public sphere Across the world Law and Religion has developed as a sub discipline and scholars have grappled with the meaning and effect of legal texts upon religion The questions they ask however cannot be answered by reference to Law alone therefore their work has increasingly drawn upon work from other disciplines This Research Handbook assists by providing introductory but provocative essays from experts on a range of concepts perspectives and theories from other disciplines which can be used to further Law and Religion scholarship      **Everyday Philosophy** Gene Bammel, 2005-03-03 Philosophy always buries its undertakers Philosophy comes to life in every generation not only because each generation has its distinctive problems but also because the genius of the great minds of the past is pertinent to our current concerns This book applies the thoughts of the great philosophers to medical ethics problems like Transplants Abortion and Euthanasia It compares the visions of Plato and Aristotle with those of the Buddha Confucius and with Darwin Freud and Nietzsche It compares Judaism Christianity and Islam in the face of contemporary atheism It concludes with maps of the ancient medieval and modern philosophical worlds and shows the relevance of the past when dealing with our current most appalling problems      What is this thing called Philosophy of Religion? Muslims as Actors Jacques Waardenburg, 2012-02-13 This book deals with Islamic studies and with the question how the scholarly study of religion can contribute to the study of Islam The author advocates studying Islamic phenomena as signs and symbols interpreted and applied in diverse ways in existing traditions He stresses the role of Muslims as actors in the ongoing debate about the articulation of Islamic ways of life and construction of Islam as a religion A careful study of this debate should steer clear of political religious and ideological interests Research in this area by Muslims and non Muslim scholars alike should address the question of what Muslims have made of their Islam in specific circumstances Current political contexts have created an unhealthy climate for pursuing an open approach to Islam based on reading observing listening and reflecting Yet precisely nowadays we need to look anew at ways of Muslim thinking and acting that refer to Islam and to avoid certain schemes of interpreting Muslim realities that are no longer adequate for present day Muslim life situations Muslim recourse to Islam can be studied as human constructions of value and meaning and relations between Muslims and others can be seen in terms of human interaction without blame always falling on Islam as such
