

What are religious attitudes to social justice?

**BLACK
LIVES
MATTER**

STARTER:

Challenge: What do you think we mean by the term 'social justice'?

More challenging: How would you expect Christians or Muslims to react towards 1) the BLM movement 2) Feminist movements.

Mega challenge: Explain whether any social justice movements you can think of could clash with some conservative religious ideas.

Religion And Social Justice:

Religion and Social Justice S. Thakur, 1996-10-04 This book is a philosophical examination of the relationship between religion and social justice Its main thesis is that since the primary purpose of religion is the moral and spiritual transformation of human nature it ought not to be construed as a direct instrument of social justice on earth as it is by Liberation theologians for example as well as by many liberal Christians and Jews Indirectly however religion may well be a pre condition of social justice For it can be argued that without the counteracting effects of the moral and spiritual values prescribed by religion the liberal vision of individual rights and social justice may be self defeating Humanity is best served if this liberal vision is counterbalanced by the completely contrary utopia enshrined in the biblical idea of the kingdom of God and its equivalents in the other great religions of the world Religion and Social Justice Shivesh Chandra Thakur, 1996

Christian Faith and Social Justice: Five Views Vic McCracken, 2014-06-19 The Judeo Christian tradition testifies to a God that cries out demanding that justice roll down like waters righteousness like an ever flowing stream Amos 5 24 Christians agree that being advocates for justice is critical to the Christian witness And yet one need not look widely to see that Christians disagree about what social justice entails What does justice have to do with healthcare reform illegal immigration and same sex marriage Should Christians support tax policies that effectively require wealthy individuals to fund programs that benefit the poor Does justice require that we acknowledge and address the inequalities borne out of histories of gender and ethnic exclusivity Is the Christian vision distinct from non Christian visions of social justice Christians disagree over the proper answer to these questions In short Christians agree that justice is important but disagree about what a commitment to justice means Christian Faith and Social Justice makes sense of the disagreements among Christians over the meaning of justice by bringing together five highly regarded Christian philosophers to introduce and defend rival perspectives on social justice in the Christian tradition While it aspires to offer a lucid introduction to these theories the purpose of this book is more than informative It is purposefully dialogical and is structured so that contributors are able to model for the reader reasoned exchange among philosophers who disagree about the meaning of social justice The hope is that the reader is left with a better understanding of range of perspectives in the Christian tradition about social justice

Religion and Social Justice For Immigrants Pierrette Hondagneu-Sotelo, 2006-10-18 Religion has jumped into the sphere of global and domestic politics in ways that few would have imagined a century ago Some expected that religion would die as modernity flourished Instead it now stares at us almost daily from the front pages of newspapers and television broadcasts Although it is usually stories about the Christian Right or conservative Islam that grab headlines there are many religious activists of other political persuasions that are working quietly for social justice This book examines how religious immigrants and religious activists are working for equitable treatment for immigrants in the United States The essays in this book analyze the different ways in which organized religion provides immigrants with an arena for mobilization civic participation

and solidarity Contributors explore topics including how non Western religious groups such as the Vietnamese Caodai are striving for community recognition and addressing problems such as racism economic issues and the politics of diaspora how interfaith groups organize religious people into immigrant civil rights activists at the U S Mexican border and how Catholic groups advocate governmental legislation and policies on behalf of refugees *Christianity and Social Justice* Jon Harris,2022-03-04 Christianity and Social Justice is everything Christians need to understand and answer the social justice movement in one book From its history secular manifestations and Christian variations Jon Harris thoroughly describes the movement shows how it threatens orthodoxy and offers powerful responses **Religion as social justice (lects.)**. Religion & Society Lucinda Mosher, 1992 *All Religions Believe in Justice*, 2017 This case study explores the contributions that ecumenical faith based activist groups make to economic social justice movements The study looks at how religious leaders frame social justice issues within their faith communities the role faith plays in social movements and how various faith traditions work together to achieve their common goals Furthermore I consider how religion motivates faith leaders to participate in activist movements and look at how these religious figures use their role as a moral authority to bring about social change In order to investigate these questions I conducted in depth interviews with 10 members of the Interfaith Center for Worker Justice ICWJ a faith based activism group in San Diego I also conducted participant observation with the Interfaith Center for Worker Justice and the Justice Can't Wait Coalition This study found that ecumenical faith groups have four major objectives in social justice movements educating about social issues deescalating community issues on an interpersonal level acting as a witness in situations of injustice and coalition building with both religious and secular groups Additionally faith leaders are skilled at providing a moral framework for social justice movements that links political beliefs to ethical or religious beliefs

SPIRITUALITY AND SOCIAL JUSTICE Norma Jean Profitt, Cyndy Baskin, 2019 Over the past three decades there has been an appreciably renewed interest in spirituality and or religion in social work practice Spirituality and Social Justice explores how critically informed spirituality i.e spirituality grounded in a critical social work framework theory serves as a political force and an inspiration in the pursuit of social and ecological justice in the social work profession Writing from various spiritual and religious backgrounds including Indigenous Wiccan Islamic and Christian the contributors social work practitioners and academics alike draw on spiritual practices lived experiences research and literature to illuminate how spirituality orients their ways of being and acting in the world to build a kinder fairer and more egalitarian society Arguing for a critical conceptualization of spirituality as the practice of ethical relations and moral accountability this collection raises the spiritual challenge for the social work profession of facing historical and contemporary forms of the colonization of Indigenous Peoples and moving toward ally ship and solidarity with them

Furthermore this collection highlights the indivisibility of spirituality from the everyday efforts to pursue social justice through right relationships and individual and collective actions thereby challenging the notion that social work practice requires one to leave one's faith and spirituality at the door to be an unbiased practitioner and embracing the fact that one's spirituality is at the core of who one is. It also accentuates how spirituality in the quest for social justice is actualized. Part One foregrounds Indigenous spirituality as resistance and decolonization. Part Two further explores the complex subject of the ethical and political dimensions of spirituality from a variety of spiritual and religious worldviews and Part Three delves into spirituality in teaching and learning contexts both inside and beyond the social work classroom.

Lucinda Mosher, 1996-12-01 *Catholic Activism Today* Maureen K. Day, 2020-06-09 Uncovers why Catholic organizations fail to foster civic activism. The American Catholic Church boasts a long history of teaching and activism on issues of social justice. In the face of declining religious and community involvement in the twenty first century many modern day Catholic groups aspire to revive the faith as well as their connections to the larger world. Yet while thousands attend weekly meetings designed to instill religiosity and a commitment to civic engagement these programs often fail to achieve their more large scale goals. In *Catholic Activism Today* Maureen K Day sheds light on the impediments to successfully enacting social change. She argues that popular organizations such as JustFaith Ministries have embraced an approach to civic engagement that focuses on mobilizing Catholics as individuals rather than as collectives. There is reason to think this approach is effective these organizations experience robust participation in their programs and garner reports of having had a transformative effect on their participants' lives. Yet Day shows that this approach encourages participants to make personal lifestyle changes rather than contend with structural social inequalities thus failing to make real inroads in the pursuit of social justice. Moreover the focus on the individual serves to undermine the institutional authority of the Catholic Church itself shifting American Catholics' perceptions of the Church from a hierarchy that controls the laity to one that simply influences it as they pursue their individual paths. Drawing on three years of interview survey and participant observation data *Catholic Activism Today* offers a compelling new take on contemporary dynamics of Catholic civic engagement and its potential effect on the Church at large.

Faith, Social Justice, and Public Policy Gary Maring, 2012-06-01 Gary Maring a progressive person of faith discusses key social justice policy issues of the day such as economic inequality poverty homelessness human rights health care peacemaking and environmental stewardship which need support from the progressive faith spiritual and secular communities. He says we need to rediscover a passion and a moral call to action among these communities. Otherwise we let the Religious Right and their political supporters dominate the media and move our country backward on social justice issues. Finally he says we need a call to compassion and justice the common tenets of most religious traditions. Mr Maring brings significant credibility on social justice issues as one of the founders of N Street Village a comprehensive transition home for homeless women now serving more than 60 percent of the population of homeless women in D C. As a founder and a current

Board member of N Street Village Gary Maring shares the experience of seeking biblical justice in an urban congregation s challenged community Opening the doors to the homeless by his DC church Luther Place came to be seen by many as the essence of faith based response to the critical needs of the community The diverse interreligious and secular base of supporters continues to this day helping to live out the concepts of hospitality and shalom peace with justice in service at N Street Village Mr Maring makes the important observation that churches are the largest beneficiary of charitable giving and they have tremendous property and other financial resources which can be pooled with government and private resources to create community social justice programs on a significant scale as was done with N Street Village a 20 million public private partnership development Mr Maring also offers an extensive bibliography of progressive theologians and shares their insight regarding the biblical call for social justice the transformation occurring in institutional religion and the role of faith in public policy
