**Religion, Feminism, and Freedom of Conscience** George Dempster Smith, 1994 No Marketing Blurb Religion, Feminism, and Freedom of Conscience George Dempster Smith, 1994 A dozen essays all but one from a September 1993 gathering in Salt Lake City examine how Mormon and humanist concurrence on the basic principles of freedom of consciousness and the right to exercise free agency developed into a divergence of opinion on for example the expulsion of two professors from Brigham Young University for expressing ideas at variance with Mormon doctrine No index Annotation copyright by Book News Inc Portland OR **Latter-day Dissent** Philip Lindholm, 2010-12-01 This volume collects for the first time in book form stories from the September Six a group of intellectuals officially excommunicated or disfellowshipped from the LDS Church in September of 1993 on charges of apostasy or conduct unbecoming Church members Their experiences are significant and yet are largely unknown outside of scholarly or more liberal Mormon circles which is surprising given that their story was immediately propelled onto screens and cover pages across the Western world Interviews by Dr Philip Lindholm Ph D Theology University of Oxford include those of the September Six Lynne Kanavel Whitesides Paul James Toscano Maxine Hanks Lavina Fielding Anderson and D Michael Quinn as well as Janice Merrill Allred Margaret Merrill Toscano Thomas W Murphy and former employee of the LDS Church s Public Affairs Department Donald B Jessee Each interview illustrates the tension that often exists between the Church and its intellectual critics and highlights the difficulty of accommodating congregational diversity while maintaining doctrinal unity a difficulty hearkening back to the very heart of ancient Christianity American Sociology of Religion Anthony J. implications Skepticism and Humanism attempts to meet this need It defends skepticism as a method for developing reliable knowledge by using scientific inquiry and reason to test all claims to truth It also defends scientific naturalism an evolutionary view of nature life and the human species Kurtz sees the dominant religious doctrines as drawn from an agricultural nomadic past and emphasizes the need for a new outlook applicable to the postindustrial information age At the same time he rejects postmodernism for abandoning science and embracing a form of nihilism There can be no doubt that as a new global civilization emerges scientific naturalism rationalism and secular humanism have something significant to say about the meaning of life Skepticism and Humanism shows how they can to foster democratic values and social prosperity The book will be important for philosophers scientists and all those concerned with contemporary issues     *Revealing the Sacred in Asian and Pacific America* Jane Iwamura,Paul Spickard,2013-10-11 Asian and Pacific Islander Americans constitute the fastest growing racial group in the United States They are also one of the most religiously diverse Through them Asian traditions such as Hinduism Sikhism Confucianism and Buddhism have been introduced into every major city and across a wide swath of Middle America The contributors to this volume provide an essential inter disciplinary resource for the study of Asian and Pacific Islander American religion     **Interpreter: A Journal of Mormon Scripture, Volume 1 (2012)** The Interpreter Foundation,2012-09-28 This is volume 1 2012 of Interpreter A Journal of Mormon Scripture by Interpreter Foundation It contains articles on diverse topics such as charity in defending the kingdom Nephi s esoteric exchange with the Spirit in 1 Nephi 11 the cultural context of Nephite apostasy a book review of Temple Themes in the Book of Moses a commentary on temple theology in John 17 a letter from John Sorenson to Michael Coe on Mesoamerica atheist piety a book review of Latter day Scripture Studies in the Book of Mormon Mormonism and Wikipedia and a book review of Understanding the Book of Mormon A Reader s Guide     **Facilitating Freedom of Religion or Belief: A Deskbook** W. *Freedom of Religion and Belief* Rinaldo Cristofori, Silvio Ferrari, 2016-12-05 The essays and articles

selected for this volume analyze what is generally understood by freedom of religion and belief in today's world. The different aspects of this fundamental right are considered from the contents of freedom of religion to the possible limitations of this freedom and from the freedom of or freedom from conundrum to the question of the collective or individual right. This volume reflects legal philosophical and international perspectives, addresses numerous unanswered questions and offers an effective overview of the current literature and debate in this aspect of the discipline of law and religion. Religion, Law and the Politics of Ethical Diversity Claude Proeschel, David Koussens, Francesco Piraino, 2021-03-30. This book provides a multidisciplinary and comparative look at the contemporary phenomenon of conscientious objection or contestation in the name of religion and examines the key issues that emerge in terms of citizenship and democracy. These are analysed by looking at the different ways of challenging or contesting a legal obligation on the grounds of religious beliefs and convictions. The authors focus on the meaning of conscientious objection which asserts the legitimacy of convictions in particular religious convictions in determining the personal or collective relevance of the law and of public action. The book begins by examining the main theoretical issues underlying conscientious objection, exploring the implications of the protection of freedom of conscience, the place of religion in the secular public sphere and the recognition and respect of ethical pluralism in society. It then focuses on the question of exemptions and contestations of civil norms using a multidisciplinary approach to highlight the multiple and diverse issues surrounding them as well as the motives behind them. This book will be of great interest to scholars, specialists and graduate and advanced undergraduate students who are interested in issues of religious diversity. Researchers and policymakers in think tanks, NGOs and government units will find the volume useful in identifying key issues in understanding the phenomenon of conscientious objection and its implications in managing ethical diversity in contemporary societies. Journal of Feminist Studies in Religion, 2001. *Religion and the Global Politics of Human Rights* Thomas F. Banchoff, Robert Wuthnow, 2011. Are human rights universal or the product of specific cultures? Is democracy a necessary condition for the achievement of human rights in practice? This book surveys the religious politics of human rights across the world's major regions, political systems and faith traditions. **Cultivating Humanity** Martha C. Nussbaum, 1998-10-01. How can higher education today create a community of critical thinkers and searchers for truth that transcends the boundaries of class, gender and nation? Martha C. Nussbaum, philosopher and classicist, argues that contemporary curricular reform is already producing such citizens of the world in its advocacy of diverse forms of cross-cultural studies. Her vigorous defense of the new education is rooted in Seneca's ideal of the citizen who scrutinizes tradition critically and who respects the ability to reason wherever it is found in rich or poor, native or foreigner, female or male. Drawing on Socrates and the Stoics, Nussbaum establishes three core values of liberal education: critical self-examination, the ideal of the world citizen, and the development of the narrative imagination. Then taking us into classrooms and campuses across the nation, including prominent research universities, small independent colleges and religious

institutions she shows how these values are and in some instances are not being embodied in particular courses She defends such burgeoning subject areas as gender minority and gay studies against charges of moral relativism and low standards and underscores their dynamic and fundamental contribution to critical reasoning and world citizenship For Nussbaum liberal education is alive and well on American campuses in the late twentieth century It is not only viable promising and constructive but it is essential to a democratic society Taking up the challenge of conservative critics of academe she argues persuasively that sustained reform in the aim and content of liberal education is the most vital and invigorating force in higher education today *From Above and Below* Craig Livingston, 2013-06-01 2014 Best International Book Award Mormon History Association For the first century of their church's existence Mormon observers of international events studied and cheered global revolutions as a religious exercise As believers in divine human co agency many prominent Mormons saw global revolutions as providential precursors to the imminent establishment of the terrestrial kingdom of God French Revolutionary symbolism socialist critiques of industrialism American Indian nationalism and Wilsonian internationalism all became the raw materials of Mormon millennial theologies which were sometimes barely distinguishable from secular utopianism Many Mormon thinkers accepted secular revolutionary arguments that the old world order needed to be destroyed not merely reformed to clear the way for the new In *From Above and Below* author Craig Livingston tells the story of Mormon commentary on global revolutions from the European revolutions of 1848 to the collapse of Mormon faith in progress in the 1930s when revolutionary communist and fascist regimes exposed themselves as violent and repressive As the Church bureaucratized and assimilated to mainstream American and capitalist values Mormons became champions of the conservative view of political and social development for which they are known today The first Mormon converts in Mexico and France both political radicals would scarcely recognize the arch conservative twenty first century Church *Breaking the Mormon Code* Matthew A. Paulson, 2000-09 In Provo Utah there exists the Foundation for Ancient Research and Mormon Studies FARMS renowned as a Mormon think tank FARMS is owned and operated by Brigham Young University BYU and the Mormon Church Their mission seeks to repudiate the opposition applaud its supporters and justify many peculiar Mormon doctrines This book demonstrates that FARMS often twists the truths to justify Mormon doctrines To justify their position they often will utilize inane accusations misquotes and equivocation This collection of deceit from Mormon scholarship is what Matt Paulson has identified as the breaking of the Mormon Code *Religion, Pluralism, and Reconciling Difference* W. Cole Durham, Jr., Donlu D. Thayer, 2018-11-22 We live in an increasingly pluralized world This sociological reality has become the irreversible destiny of humankind Even once religiously homogeneous societies are becoming increasingly diverse Religious freedom is modernity's most profound if sometimes forgotten answer to the resulting social pressures but the tide of pluralization threatens to overwhelm that freedom's stabilizing force *Religion Pluralism and Reconciling Difference* is aimed at exploring differing ways of grappling with the resulting tensions and then asking will the tensions ultimately yield

poisonous polarization that erodes all hope of meaningful community Or can the tradition and the institutions protecting freedom of religion or belief be developed and applied in ways that still foster productive interactions stability and peace This volume brings together vital and thoughtful contributions treating aspects of these mounting worldwide tensions concerning the relationship between religious diversity and social harmony The first section explores controversies surrounding religious pluralism from different starting points including religious political and legal standpoints The second section examines different geographical perspectives on pluralism Experts from North and South America Europe Africa and the Middle East address these issues and suggest not only how social institutions can reduce tensions but also how religious pluralism itself can bolster needed civil society

**Legislating Morality** Lucinda J. Peach, 2002 A recurring issues in American political life is the role that religion plays in public lawmaking In this book Lucinda Peach sheds new light on this discussion by proposing a fresh and pragmatic alternative
