Yang provides a comprehensive overview of the religious change in China under Communism Religion in Today's World Melissa Wilcox, 2013-12-19 Religion is a major force in contemporary society It is also one of the least understood social and political influences on individuals and communities In this innovative collection of original essays and classic readings experts explore the significance of contemporary religiosity as a source of meaning and motivation how it unites and divides us and how it is used politically and culturally Readers will be introduced to the broad debates in ways that will equip them to analyze discuss and make their own judgments about religion and society This book should be read by anyone interested in understanding religion as a central source of meaning and politics and is ideally suited for undergraduate teaching on religion and social issues and from a global perspective State, Market, and Religions in Chinese Societies , 2005-08-01 This collection of original new studies about Mainland China and Taiwan focuses on religious changes and especially the role of the state and market in affecting religious developments in these societies Information was gathered by participant observation and interviews primarily and the analysis of documents secondarily The topics covered are the growing interest in the study of religion the methods used by Christians to be able to coexist with a communist government revival techniques being used by Buddhist monks the strategies of Daoist priests and sect leaders to attract followers the significance of mass circulating morality books and the ongoing debate about the significance and nature of Confucianism The book will interest social scientists religious specialists journalists and others who want to understand the changing nature of Chinese societies and those interested in religious change in modernizing societies *The Encyclopedia of World Religions* Robert S. Ellwood, 2008 Contains nearly 600 brief entries on the world's religious traditions **Atlas of Religion in China: Social and Geographical Contexts** Fenggang Yang, 2018-09-04 The speed and the scale with which traditional religions in China have been revived and new spiritual movements have emerged in recent decades make it difficult for scholars to stay up to date on the religious transformations within Chinese society This unique atlas presents a bird's eye view of the religious landscape in China today In more than 150 full color maps and six different case studies it maps the officially registered venues of China's major religions Buddhism Christianity Protestant and Catholic Daoism and Islam at the national provincial and county levels The atlas also outlines the contours of Confucianism folk religion and the Mao cult Further it describes the main organizations beliefs and rituals of China's main religions as well as the social and demographic characteristics of their respective believers Putting multiple religions side by side in their contexts this atlas deploys the latest qualitative quantitative and spatial data acquired from censuses surveys and fieldwork to offer a definitive overview of religion in contemporary China An essential resource for all scholars and students of religion and society in China *The World's Religions* Peter B. Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in

which they are developing It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent Religion and The Transformation of Capitalism Richard H. Roberts,2012-10-02 This book addresses from a socio scientific standpoint the interaction of religions and forms of contemporary capitalism Contributors explore a wide range of interactions between economic systems and their socio cultural contexts *The "Inscrutably Chinese" Church* Nathan Faries,2010-09-23 The first half of the twenty first century promises to be a time of great change for the Christian church in the People s Republic of China The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close **China's Church Divided** Paul P. Mariani,2025-07-15 Paul P Mariani charts China s fraught Catholic revival after the Cultural Revolution as Catholics loyal to Rome clashed with a state sanctioned church Focusing on Shanghai where the state appointed Bishop Louis Jin Luxian found himself at odds with underground church leaders Mariani details a community perilously divided China's Governance Model Hongyi Lai,2016-06-10 Many studies of government in China either simply describe the political institutions or else focus critically on the weaknesses of the system such as corruption or the absence of Western style democracy Authors of these studies fail to appreciate the surprising ability of China s government to rapidly transform a once impoverished economy and to recover from numerous crises from 1978 to the present This book on the other hand takes a more balanced more positive view This view is based on a study of changes in China s institutions for coping with critical crises in governance since 1978 These changes include better management of leadership succession better crisis management improved social welfare the management of society through treating different social groups differently depending on their potential to rival the Party state and a variety of limited intra party and grassroots democracy This book applies to the Chinese model the term pragmatic authoritarianism It explains changes to and the likely future direction of China s governance model It compares current risks in China s governance with threats that terminated dynasties and the republic in China over the past four thousand years and concludes that the regime can be expected to survive a considerable period despite its existing flaws Few topics in Chinese politics are as significant as the nature state and prospects of the political regime While the topic had been unduly understudied for a long period of time a young generation of scholars has emerged on this subject Among others the book by Hongyi Lai stands

out and provides a comprehensive and penetrating analysis on this topic I am confident that his book will make a significant contribution to the study of Chinese politics and may well define the debate on China's political development governance and model for years to come Yongnian Zheng Director East Asian Institute National University of Singapore

Religion and the Global Politics of Human Rights Thomas Banchoff, Robert Wuthnow, 2011-05-04 Are human rights universal or the product of specific cultures Is democracy a necessary condition for the achievement of human rights in practice And when if ever is it legitimate for external actors to impose their understandings of human rights upon particular countries In the contemporary context of globalization these questions have a salient religious dimension Religion intersects with global human rights agendas in multiple ways including whether universal human rights are in fact an imposition of Christian understandings whether democracy the rule of the people is compatible with God's law and whether international efforts to enforce human rights including religious freedom amount to an illicit imperialism This book brings together leading specialists across disciplines for the first major survey of the religious politics of human rights across the world's major regions political systems and faith traditions The authors take a bottom up approach and focus particularly on hot button issues like human rights in Islam Falun Gong in China and religion in the former Soviet Union Each essay examines the interaction of human rights and religion in practice and the challenges they pose for national and international policymakers
