Daniel R. Schwartz,2024-04 Apart from an opening survey of modern study of ancient Jewish history which emphasizes the foundational role of German Jewish scholars the studies united in this volume apply philological methods to the writings of four of them Heinrich Graetz Isaak Heinemann Elias Bickerman n and Abraham Schalit In each case it is argued that some seemingly trivial anomaly or infelicity in a publication about such ancient characters as Antiochus Epiphanes Herod and

Josephus points to the way in which the historian constructed and revised his understanding of the Jews situation under Greeks or Romans in light of his perception of the Jews situation under the Second or Third Reich The collection also includes a study that focuses on a Jewish medievalist Philipp Jaff and unravels the indirect but inexorable process that led from a scholarly feud about the editing of medieval Latin texts in the 1860s to the Berlin Antisemitism Dispute Berliner Antisemitismusstreit of 1879 1881 which is commonly viewed as the opening act of modern German antisemitism

The New Reform Judaism Dana Evan Kaplan,2020-04-01 This is the book that American Jews and particularly American Reform Jews have been waiting for a clear and informed call for further reform in the Reform

movement In light of profound demographic social and technological developments it has become increasingly clear that the Reform movement will need to make major changes to meet the needs of a quickly evolving American Jewish population Younger Americans in particular differ from previous generations in how they relate to organized religion often preferring to network through virtual groups or gather in informal settings of their own choosing Dana Evan Kaplan an American Reform Jew and pulpit rabbi argues that rather than focusing on the importance of loyalty to community Reform Judaism must determine how to engage the individual in a search for existential meaning It should move us toward a critical scholarly understanding of the Hebrew Bible that we may emerge with the perspectives required by a postmodern world Such a Reform Judaism can at once help us understand how the ancient world molded our most cherished religious traditions and guide us in addressing the increasingly complex social problems of our day

Religious Zionism, Jewish Law, and the Morality of War Robert Eisen, 2017-09-01 Ever since the state of Israel was established in 1948 it has been plagued by war and that has presented religious Zionists with an immense challenge Jewish law prior to 1948 includes little material on war because it developed during centuries when Jews had neither a state nor an army The leading rabbis of the religious Zionist community have therefore had to create an entire body of laws on this subject where practically none had existed beforehand These rabbis have responded to the challenge with remarkable energy and ingenuity Religious Zionist rabbis have produced a corpus of laws on war that is both comprehensive and nuanced and these laws now serve as a critical source of guidance for Orthodox Israelis serving in their country's military The present study is a pioneering work on this fascinating chapter in the history of Jewish law a chapter that up to now has received relatively little attention from academic scholars Robert Eisen examines how five of the most prominent rabbis in the religious Zionist community have dealt with key moral issues in war The figures include R Abraham Isaac Kook R Isaac Halevi Herzog R Eliezer Waldenberg R Shaul Yisraeli and R Shlomo Goren Eisen also examines how the positions of these rabbis compare with those of international law These explorations provide critical insight into the worldview of religious Zionism which in recent years has become increasingly influential in Israeli politics
