Religion In Leeds:

Religion in Leeds Alistair Mason, 1994-01-01 Religion and Place in Leeds John Minnis, Trevor Mitchell, 2015-04-01
Religious and cultural diversity has been a key feature of the city of Leeds for almost 200 years and has resulted in the building of many fine churches chapels and synagogues these are now joined by mosques gurdwaras and a mandir Tracing the architectural response to the changing conditions of the inner city and suburbs this book examines the buildings associated with the groups of newcomers to Leeds thus charting a great change in the city's religious life It is suggested that both the brand new purpose built places of worship and the way in which existing buildings have been adapted also reveal significant continuities with how Christian groups expanded in the 19th century The alterations made to Leeds churches to adapt them to changing liturgical requirements and to the pastoral and social requirements of the present day are discussed The context of the architectural expression of faith in Leeds in the 20th and early 21st centuries will also assist those concerned with the conservation of places of worship Counting Religion in Britain, 1970-2020 Clive D. Field, 2021-12-09
Counting Religion in Britain 1970 2020 the fourth volume in the author's chronological history of British secularization sheds significant new light on the nature scale and timing of religious change in Britain during the past half century with particular reference to quantitative sources Adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship Summative analysis of these indicators by means of a secularization dashboard leads to a reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by product of modernization Secular Theories on Religion Tim Jensen, Mikael Rothstein, 2000 Scholars of religious studies from Europe and North America explore what a secular or scientific study of religion should be like what methods it should apply what aims and what kind of scientific thinking should be pursued They also consider scholars as public intellectuals operating within and influenced by general societal developments The 18 essays provide a survey of current thinking in the field Distributed in the US by ISBS c Book News Inc
Secularization in the Long 1960s Clive D. Field, 2017 Using empirical research this study provides a clear guide to the current state of the debate surrounding secularization in Britain during the long 1960s **Religion** L. M. Barley, C. D. Field, B. A. Kosmin, J. S. Nielsen, 2014-06-28 This volume reviews the publicly available sources of statistical information on religion The majority of this data relates to the Christian churches and is split between the serial or recurrent sources in the first review and the ad hoc survey data in the second The third sets out the available Jewish data which comprise the best recorded and the most extensive of the sources in the non Christian sector and the final review brings together statistical sources on the remaining religions practised in the UK This book will be an invaluable source of information for researchers

and practitioners in the field

In Good Faith Marie Parker-Jenkins, Dimitra Hartas, Barrie A. Irving, 2019-05-23 First published in 2005 this timely volume challenges those who see faith schools as contributing positively to the well being of society and responding to parent choice to think through the implications of September 11 for our multi ethnic and multi faith society without taking a position on the ultimate necessity

of faith schools The authors conducted research in several faith based schools representative both of older religious traditions in England and Wales and of those which have been more recently established The focus was on state funded faith based schools but a range were visited to provide an overview of issues facing all faith based schools as well as those specific to newly funded institutions After World Religions Christopher R Cotter,David G. Robertson,2016-02-05 The World Religions Paradigm has been the subject of critique and controversy in Religious Studies for many years After World Religions provides a rationale for overhauling the World Religions curriculum as well as a roadmap for doing so The volume offers concise and practical introductions to cutting edge Religious Studies method and theory introducing a wide range of pedagogical situations and innovative solutions An international team of scholars addresses the challenges presented in their different departmental institutional and geographical contexts Instructors developing syllabi will find supplementary reading lists and specific suggestions to help guide their teaching Students at all levels will find the book an invaluable entry point into an area of ongoing scholarly debate *Writing the City in British Asian Diasporas* Sean McLoughlin,William Gould,Ananya Jahanara Kabir,Emma Tomalin,2014-07-11 In 1962 the Commonwealth Immigrants Act hastened the process of South Asian migration to postcolonial Britain Half a decade later now is an opportune moment to revisit the accumulated writing about the diasporas formed through subsequent settlement and to probe the ways in which the South Asian diaspora can be re conceptualised *Writing the City in British Asian Diasporas* takes a fresh look at such matters and will have multi disciplinary resonance worldwide The meaning and importance of local multi local and trans local dynamics is explored through a devolved and regionally accented comparison of five British Asian cities Bradford the East End of London Manchester Leicester and Birmingham Analysing the writing of these differently configured cities since the 1960s its main focus is the significant discrepancies in representation between differently positioned texts reflecting both dominant institutional discourses and everyday lived experiences of a locality Part I offers a comprehensive yet still highly contested reading of each city s archives Part II examines how the arts and humanities fields of History Religion Gender and Literary Cultural Studies have all written British Asian diasporas and how their perspectives might complement the better established agendas of the social sciences Providing an innovative analysis of South Asian communities and their multi local identities in Britain today this interdisciplinary book will be of interest to scholars of South Asian Studies Migration Ethnic and Diaspora Studies as well as Sociology Anthropology and Geography **The Search for Faith and the Witness of the Church** Church of England. The Zoroastrian Diaspora John R. Hinnells, 2005-04-28 What is the distinctive Zoroastrian experience and what is the common diasporic experience The Zoroastrian Diaspora is the outcome of twenty years of research and of archival and fieldwork in eleven countries involving approximately 250 000 miles of travel It has also involved a survey questionnaire in eight countries yielding over 1 840 responses This is the first book to attempt a global comparison of Diaspora groups in six continents Little has been written about Zoroastrian communities as far apart as China East Africa Europe America and Australia or on Parsis in Mumbai post Independence Each chapter is based on unused original sources ranging from nineteenth century archives to contemporary newsletters The book also includes studies of Zoroastrians on the Internet audio visual resources and the modern development of Parsi novels in English As well as studying the Zoroastrians for their own inherent importance this book contextualizes the Zoroastrian migrations within contemporary debates on Diaspora studies John R Hinnells examines what it is like to be a religious Asian in Los Angeles or London Sydney or Hong Kong Moreover he explores not only how experience differs from one country to another but also the differences between cities in the same country for example Chicago and Houston The survey data is used firstly to consider the distinguishing demographic features of the Zoroastrian communities in various countries and secondly to analyse different patterns of assimilation between different groups men and women and according to the level and type of education Comparisons are also drawn between people from rural and urban backgrounds and between generations in religious beliefs and practices including the preservation of secular culture

The Growth of Religious Diversity: Traditions Gerald Parsons, 1993 These two volumes consider the significance of religion in post war Britain concentrating on the decline of the specifically Christian Society and the emergence of a culturally and religiously plural society

Education, Religion and Diversity L. Philip Barnes, 2014-02-05 In this thoughtful and provocative book Philip Barnes challenges religious educators to re think their field and proposes a new post liberal model of religious education to help them do so His model both confronts prejudice and intolerance and also allows the voices of different religions to be heard and critically explored While Education Religion and Diversity is directed to a British audience the issues it raises and the alternative it proposes are important for those educators in the United States who believe that the public schools have an important role in teaching students about religion Walter Feinberg Professor Emeritus of Education Policy Organization and Leadership at the University of Illinois Urbana Champaign Philip Barnes offers a penetrating and lucid analysis of the strengths and weaknesses of modern religious education in Britain He considers a range of epistemological and methodological issues and identifies two contrasting models

of religious education that have been influential what he calls a liberal and a postmodern model After a detailed review and criticism of both he outlines his own new post liberal model of religious education one that is compatible with both confessional and non confessional forms of religious education yet takes religious diversity and religious truth claims seriously Essential reading for all religious educators and those concerned with the role of religion in schools Bernd Schr der Professor of Practical Theology and Religious Education University of G ttingen What place if any does religious education have in the schools of an increasingly diverse society This lucid and authoritative book makes an incisive contribution to this crucial debate Roger Trigg is Emeritus Professor of Philosophy University of Warwick and Senior Research Fellow Ian Ramsey Centre Oxford The challenge of diversity is central to education in modern liberal democratic states and religious education is often the point where these differences become both most acute and where it is believed of all curriculum subjects resolutions are most likely to be found Education Religion and Diversity identifies and explores the commitments and convictions that have guided post confessional religious education and concludes controversially that the subject as currently theorised and practised is incapable of challenging religious intolerance and of developing respectful relationships between people from different communities and groups within society It is argued that despite the rhetoric of success which religious education is obliged to rehearse in order to perpetuate its status in the curriculum and to ensure political support a fundamentally new model of religious education is required to meet the challenge of diversity to education and to society A new framework for religious education is developed which offers the potential for the subject to make a genuine contribution to the creation of a responsible respectful society Education Religion and Diversity is a wide ranging provocative exploration of religious education in modern liberal democracies It is essential reading for those concerned with the role of religion in education and for religious and theological educators who want to think critically about the aims and character of religious education

Media Portrayals of Religion and the Secular Sacred Kim Knott, Elizabeth Poole, 2016-04-29 Is it true that Christianity is being marginalised by the secular media at the expense of Islam Are the mass media Islamophobic Is atheism on the rise in media coverage Media Portrayals of Religion and the Secular Sacred explores such questions and argues that television and newspapers remain key sources of popular information about religion They are particularly significant at a time when religious participation in Europe is declining yet the public visibility and influence of religions seems to be increasing Based on analysis of mainstream media the book is set in the context of wider debates about the sociology of religion and media representation The authors draw on research conducted in the 1980s and 2008 10 to examine British media coverage and representation of religion and contemporary secular values and to consider what has changed in the last 25 years Exploring the portrayal of Christianity and public life Islam and religious diversity atheism and secularism and popular beliefs and practices several media events are also examined in detail the Papal visit to the UK in 2010 and the ban of the controversial Dutch MP Geert Wilders in 2009 Religion is shown to be deeply embedded in the language and images of

the press and television and present in all types of coverage from news and documentaries to entertainment sports reporting and advertising A final chapter engages with global debates about religion and media The Growth of Religious Diversity - Vol 1 Gerald Parsons, 2012-11-12 This two volume set considers the role and significance of religion in post war Britain focusing in particular upon the closely inter related themes of the decline of a specifically Christian Society and the emergence of a culturally and religiously plural society Three core questions are examined in depth to what extent and in what ways has religion remained a significant factor in British culture and society in the period since 1945 what role does religion play in interpreting and understanding the development of a multi cultural and multi ethnic society in post war Britain and to what extent has Britain remained or ceased to be a religious society during this period Volume 1 Traditions analyses the history and development of the major religious groups present in Britain in the period since 1945 The major religious traditions examined include the traditional Christian churches Judaism Islam Hinduism Sikhism Afro Caribbean religious groups New Religious Movements and the implicit religion of the silent majority who remain detached from organised religion but are by no means simply secular Volume 2 Controversies explores some of the challenges tensions and controversies presented by the emergence of an increasingly religiously plural society in Britain since 1945 In particular it focuses on the impact of religious pluralism on both the Christian churches and other religious traditions the relationship between communal and national identities and religion women and religion and the relationship between religion and changing attitudes to personal and especially sexual morality *Entrepreneurship and Religion* Léo-Paul Dana, 2010-01-01 I wish this book had been around when I tried to teach about entrepreneurship in its social context life would have been much easier with these informed sources Alistair R Anderson Aberdeen Business School UK This rich and detailed book makes a very timely contribution to extending our understanding of entrepreneurship in its social context Using selected examples the respected contributors show how the values developed in religious beliefs and practices shape entrepreneurship For too long the entrepreneur has been characterized as an isolated economically driven individual thus ignoring how enterprise and entrepreneurs are products of their society their culture and their religion This innovative book discusses both entrepreneurship and religion as well as indicating how the synthesis of beliefs and practices combine in entrepreneurial endeavours It provides a conceptually useful way of framing the individualistic entrepreneur in his or her social and cultural context demonstrating how entrepreneurial agency operates within and through a variety of religious contexts Illustrated with original photographs this captivating book will be warmly welcomed by students and researchers with interests in entrepreneurship sociology religion and cultural studies Government policy makers in immigration will also find this book an invaluable read
