Religion in the Ancient Near East and Asia Nicole Maria Brisch, Fumi Karahashi, 2023-04-03 The recent years have seen an upswing in studies of women in the ancient Near East and related areas This volume which is the result of a Danish Japanese collaboration seeks to highlight women as actors within the sphere of the religious In ancient Mesopotamia and other ancient civilizations religious beliefs and practices permeated all aspects of society and for this reason it is not possible to completely dissociate religion from politics economy or literature Thus the goal is to shift the perspective by highlighting the different ways in which the agency of women can be traced in the historical and archaeological record This perspectival shift can be seen in studies of elite women who actively contributed to religious gift giving or participated in temple economies or through showing the limits of elite women's agency in relation to diplomatic marriages Additionally several

contributions examine the roles of women as religious officials and the language worship or invocation of goddesses This volume does not aim at completeness but seeks to highlight points for further research and new perspectives *Space and Time in the Religious Life of the Near East* Nicolas Wyatt,2001-12-01 Space and time are basic features of the world view even the theology of many religions ancient and modern How did the world begin and how will it end What is the importance of religious architecture in symbolizing sacred space Where and how do we locate the self The divine world Wyatt s textbook treats ancient Near Eastern religions from a perspective that allows us to access how religion shapes and orders the world of human thought and experience The book is designed especially for classroom use each chapter provided with suggested reading copious quotations from ancient texts and summaries The subject matter is treated by topic not according to individual religions so that the reader understands the essential points of similarity and difference between religious systems and how they model their universe **Dictionary of the Old Testament: Wisdom, Poetry & Writings** Tremper Longman III,Peter Enns,2008-06-06 Tremper Longman III and Peter E Enns edit this collection of 148 articles by over 90 contributors on Job Psalms Proverbs Ecclesiastes Song of Songs Lamentations Ruth and Esther **Encyclopedia of World Religions** Encyclopaedia Britannica, Inc.,2008-05-01 A guide to the religions of the world and to the concepts movements people and events that have shaped them It includes features such as entries on religious movements and concepts historical and legendary figures divinities religious sites and ceremonies images that show sacred places vestments rituals objects and texts and more *A Companion to Greek Religion* Daniel Ogden,2010-02-01 This major addition to Blackwell s Companions to the Ancient World series covers all aspects of religion in the ancient Greek world from the archaic through the classical and into the Hellenistic period Written by a panel of international experts Focuses on religious life as it was experienced by Greek men and women at different times and in different places Features major sections on local religious systems sacred spaces and ritual and the divine **World Religions** Jeff Hay,2009-03-06 This encyclopedia provides numerous entries covering world religions including gods and other holy figures concepts historical figures places rites and festivals Entries cover major and less prominent religions around the world describing their histories tenets customs and world views Readers will view entries that describe the lives of fifty significant figures in the histories of various religions Also presented are excerpts from eighteen religious writings speeches and sacred texts *Geography, Religion, Gods, and Saints in the Eastern Mediterranean* Erica Ferg,2020-01-16 Geography Religion Gods and Saints in the Eastern Mediterranean explores the influence of geography on religion and highlights a largely unknown story of religious history in the Eastern Mediterranean In the Levant agricultural communities of Jews Christians and Muslims jointly venerated and largely shared three important saints or holy figures Jewish Elijah Christian St George and Muslim al Khi r These figures share peculiar characteristics such as associations with rain greenness fertility and storms Only in the Eastern Mediterranean are Elijah St George and al Khi r shared between religious communities or characterized by these same agricultural attributes attributes that also were shared

by regional religious figures from earlier time periods such as the ancient Near Eastern Storm god Baal Hadad and Levantine Zeus This book tells the story of how that came to be and suggests that the figures share specific characteristics over a very long period of time because these motifs were shaped by the geography of the region Ultimately this book suggests that regional geography has influenced regional religion that Judaism Christianity and Islam are not historically or textually speaking separate religious traditions even if Jews Christians and Muslims are members of distinct religious communities and that shared religious practices between members of these and other local religious communities are not unusual Instead shared practices arose out of a common geographical environment and an interconnected religious heritage and are a natural historical feature of religion in the Eastern Mediterranean This volume will be of interest to students of ancient Near Eastern religions Judaism Christianity Islam sainthood agricultural communities in the ancient Near East Middle Eastern religious and cultural history and the relationships between geography and religion
