Religions In Four Dimensions:

Religions in Four Dimensions, 1976 Religions in Four Dimensions Walter Arnold Kaufmann, 1976 Future of the Humanities James Hughes, 2017-07-05 First Published in 2017 Routledge is an imprint of Taylor Francis an Informa company

The World's Religions: The Study of Religion, Traditional and New Religion Peter Clarke, Stewart Sutherland, 2002-11 Examines the primitive traditional non mainstream religion and also 20th century sects such as the Moonies and Scientology Looks at the nature of religion the general philosophical issues Written by international specialists Understanding World Religions Irving Hexham, 2011-03-22 Globalization and high speed communication put twenty first century people in contact with adherents to a wide variety of world religions but usually valuable knowledge of these other traditions is limited at best On the one hand religious stereotypes abound hampering a serious exploration of unfamiliar philosophies and practices On the other hand the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world s many religions Understanding World Religions presents religion as a complex and intriguing matrix of history philosophy culture beliefs and practices Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion and he guides readers in responsible ways of carrying this out Of particular importance is Hexham s decision to explore African religions which have frequently been absent from major religion texts He surveys these in addition to varieties of Hinduism Buddhism Judaism Christianity and Islam Dynamics in the History of Religions between Asia and Europe, 2011-11-25 This first volume of the series Dynamics in the History of Religions reviews the opening conference of the K te Hamburger Kolleg at the Ruhr University Bochum The first section concentrates on the formation of what later come to be termed world religions through inter religious contact the second part focuses on the significance of interreligious contacts also during their expansive phase Methodological problems of multi perspective research and especially the lack of a general religious terminology are discussed in the third chapter while the final papers outline various aspects of secularization and re sacralisation in the age of globalisation as an effect of multicultural contacts in a world wide web of religious interferences Contributors include Marion Steinicke Volkhard Krech Peter Wick Victor H Mair Heiner Roetz Patrick Olivelle Jens Schlieter Guy Stroumsa Sarah Stroumsa Nikolas Jaspert Michael Lecker John Tolan Eun jeung Lee Michael Lackner Stephen C Berkwitz Sven Bretfeld Lucian H Ischer Jan Assmann Robert Ford Campany Russell McCutcheon Tim H Barrett Francesca Tarocco Ronald M Davidson Markus Zehnder Aslam Syed Marion Eggert Peter Schalk Peter Beyer Ian Reader Jos Casanova Heinz Georg Held **Exploring Religions in Motion** Michael Pye, 2013-03-22 These two volumes present Pye s methodological theoretical and field based interests in the study of religions Pye understands the study of religions to be an international enterprise with roots in both European and East Asian culture This relates to his active role in the International Association for the History of Religions IAHR as a former General Secretary and President The work is presented in seven sections which could be used in teaching assignments The

first volume begins with a lively introduction on Methodological Strategies followed by East Asian Starting Points a radical attempt to overcome Eurocentrism and Structures and Strategies which tackles globally significant institutional and ideological questions The second volume presents selected strands in the study of religions Comparing and Contrasting is followed by Tradition and Innovation including reference to specific new religions Transplantation and Syncretism is a definitive package on syncretism and includes new materials from South East Asia Finally Contextual Questions explores wider themes of identity plurality dialogue of religions religious education and peace These show how relevant the study of religions can be when it is distinctly and responsibly defined

Walter Kaufmann Stanley Corngold,2018-12-11 The first complete account of the ideas and writings of a major figure in twentieth century intellectual life Walter Kaufmann 1921 1980 was a charismatic philosopher critic translator and poet who fled Nazi Germany at the age of eighteen emigrating alone to the United States He was astonishingly prolific until his untimely death at age fifty nine writing some dozen major books all marked by breathtaking erudition and a provocative essayistic style He single handedly rehabilitated Nietzsche's reputation after World War II and was enormously influential in introducing postwar American readers to existentialism Until now no book has examined his intellectual legacy Stanley Corngold provides the first in depth study of Kaufmann's thought covering all his major works He shows how Kaufmann speaks to many issues that concern us today such as the good of philosophy the effects of religion the persistence of tragedy and the crisis of the humanities in an age of technology Few scholars in modern times can match Kaufmann's range of interests from philosophy and literature to intellectual history and comparative religion from psychology and photography to art and architecture Corngold provides a heartfelt portrait of a man who to an extraordinary extent transfigured his personal experience in the pages of his books This original study both appreciative and critical is the definitive intellectual life of one of the twentieth century's most engaging yet neglected thinkers It will introduce Kaufmann to a new generation of readers and serves as a fitting tribute to a scholar's incomparable libido sciendi or lust for knowledge

The World's Religions Peter Clarke,Friedhelm Hardy,Leslie Houlden,Stewart Sutherland,2004-01-14 Gives an account of the history the theological basis the practice and the current state of the study of religion and religions throughout the world Combines a clear and non technical style of presentation with a structure and range of contributions which reflect the richness and complexity of religion itself of the religions of the world and the study of religions Comprehensive index bibliographies and suggestions for further reading Intriguing philosophical questions are raised about the nature of religion and the qualities needed for studying it Times Higher Education Supplement Excellent book remarkably successful impressive as much for the sheer scale of the undertaking as for its consistent standard of analysis It is a fine achievement which will serve both as a very suitable textbook for students and a reliable guide to the state of scholarship in the History and Study of Religions Heythrop Journal

Dictionary of Modern American Philosophers John R. Shook,2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic

philosophers and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science, and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. While all the major post-Civil War philosophers are represented, the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers, including hundreds of presently obscure thinkers. In many cases, the *Dictionary of Modern American Philosophers* offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought.

Religion, Language, and Power Nile Green, Mary Searle-Chatterjee, 2008-07-15

Religion, Language and Power shows that the language of religion is far from neutral and that the packaging and naming of what English speakers call religious groups or identities is imbued with the play of power. Religious Studies has all too often served to amplify voices from other centers of power, whether scripturalist or otherwise normative and dominant. This book's de-centering of English classifications goes beyond the remit of most postcolonial studies in that it explores the classifications used in a range of languages, including Arabic, Sanskrit, Chinese, Greek, and English, to achieve a comparative survey of the roles of language and power in the making of religion. In contextualizing these uses of language, the ten contributors explore how labels are either imposed or emerge interactively through discursive struggles between dominant and marginal groups. In dealing with the interplay of religion, language, and power, there is no other book with the breadth of this volume.

Rethinking Religion in India Esther Bloch, Marianne Keppens, Rajaram Hegde, 2009-12-24

Critically assesses recent debates about the colonial construction of Hinduism. Written by experts in their field, the chapters present historical and empirical arguments as well as theoretical reflections on the topic, offering new insights into the nature of the construction of religion in India.

Religion and Mental Health John F. Schumaker, 1992

Some argue that religious beliefs foster security of mind and mental stability, maintaining that they offer a sense of hope, meaning, and purpose, provide a reassuring fatalism that enables the believer to better withstand suffering and pain, and give people a sense of power and control through association with an omnipotent force. Others assert, however, that religious beliefs can undermine mental health in ways that include generating excessive levels of guilt, encouraging the unhealthy repression of anger, and creating anxiety and fear with threats of punishment for sinful behavior. This interdisciplinary collection presents previously unpublished papers on the controversial relationship between religious behavior and mental health. Schumaker has assembled a distinguished international roster of contributors, sociologists and anthropologists as well as psychiatrists and psychologists of religion, representing a wide range of opinions concerning the mental health implications of religious belief and practice. Taken together, the papers provide a comprehensive overview of theory and research in the field. Included are papers on the

interaction of religion and self esteem life meaning and well being sexual and marital adjustment anxiety depression suicide psychoticism rationality self actualization and various patterns of anti social behavior Religion is also considered in relation to the mental health of women the elderly and children Contributions addressing mental health in non Western religious groups add an important cross cultural dimension to the volume *A Democratic Approach to Religion News* Ahmed Topkev,2024-03-26 This book introduces the first systematic and unified four dimension democratic approach to newspaper religion reporting It explores the coverage of faith with a particular focus on Christianity and Islam in the British and Turkish national press The results of framing analysis conducted through content analysis of 1 022 news articles reveal that in both countries alongside the contrasting portrayals of the minority religions even the dominant religions had a disproportioned employment of the four dimensions spiritual world life political and conflict It contributes to scholarship not only empirically but also theoretically and methodologically with its theoretical and methodological contribution surpassing its empirical findings As such it will transcend geographical and temporal boundaries making it appealing and relevant to an international audience of academics professionals and students in the fields of journalism religion democracy media communication society and culture as well as individuals from various backgrounds **Religion in America** Julia Corbett Hemeyer,2016-02-19 Religion in America 7th Edition provides a comprehensive yet concise introduction to the changing religious landscape of the United States Extensively revised and updated to reflect current events and trends this new edition continues to engage students in reflection about religious diversity Julia Corbett Hemeyer presents the study of religion as a tool for developing appreciation of communities of faith other than one s own and for understanding the dynamics at work in religion in the United States today SOCIOLOGY OF RELIGIONS MIR MOHAMMAD IBRAHIM,2008-04-17 Considerable number of books and research articles have been published on the concept of religion and comparative religion But rarely has any religious scholar elaborated the contribution of different religions from sociological point of view This well researched and erudite study discusses the concept of religion with special reference to Dr Ali Shariati an eminent sociologist and Muslim scholar of Iran He brought forth the unique dimensions of the comparative study of religions The text provides a complete sociological background of various religions and stresses their contributions In addition different Islamic ideals and thoughts which need to be understood in modernist s religious perspective are discussed For example the concepts of Imamah Ijtihad Enjoining good and forbidding evil and Hajj are dealt from a sociological viewpoint Finally even the less known dimensions of Islamic ideologies are explained The book is intended for the postgraduate students of Islamic Studies Research scholars and postgraduate students of philosophy may also find the book useful In addition any reader who is interested in sociology of religion and in particular the ideology and other aspects of Islam will benefit from this book

International Empirical Studies on Religion and Socioeconomic Human Rights Hans-Georg Ziebertz,2020-03-06 Socioeconomic rights include rights with regard to social security labour and employment as well as cultural rights which

may be regarded as a shield for the protection of human dignity especially of specific groups such as women children and refugees The enforceability of socioeconomic rights clearly distinguishes them from other rights These rights need perhaps more than others the support of civil society Because states have leeway in how resources are distributed civil society has a major impact on what resources are used to fulfil socio economic rights One of the actors in the public arena are religious traditions respective Churches Most of them have developed ethical standards for individual conduct and rules for living together in society based on their basic scriptures All three monotheistic religions Judaism Christianity and Islam are marked by a caring engagement for the poor the sick the old and the foreign From an empirical perspective the general research question of this volume is how young people understand and evaluate socioeconomic rights and to which degree religious convictions and practices are connected with attitudes towards these human rights Can religion be identified as a force supporting the human rights regime and which additional concepts strengthen or weaken the consent to these rights The richness of empirical data contributes to a better understanding how socioeconomic rights are legitimated in the opinion of more than 10 000 respondents in 14 countries

Religion and Conflict Attribution Francis-Vincent Anthony,Chris Hermans,Carl J.A. Sterkens,2014-10-30 Religion can play a dual role with regard to conflict It can promote either violence or peace Religion and Conflict Attribution seeks to clarify the causes of religious conflict as perceived by Christian Muslim and Hindu college students in Tamil Nadu India These students in varying degrees attribute conflict to force driven causes namely to coercive power as a means of achieving the economic political or socio cultural goals of religious groups The study reveals how force driven religious conflict is influenced by prescriptive beliefs like religious practice and mystical experience and descriptive beliefs such as the interpretation of religious plurality and religiocentrism It also elaborates on the practical consequences of the salient findings for the educational process

Philosophy Bridging the World Religions P. Koslowski,2013-04-18 This is the fifth and last volume of the EXPO Discourses of the World Religions World Exposition EXPO 2000 Hannover Germany The series aims at a deeper understanding of the similarities and differences between Hinduism Buddhism Judaism Christianity and Islam in their theological and philosophical propositions It sees in philosophy a bridge between the religions and a means to overcome religious hostility and fundamentalism and to further the dialogue of the religions

Thinking on the Edge: An Interdisciplinary Look at Ideological Extremism Jocelyn J. Bélanger,Mark Dechesne,Angel Gomez,2021-12-03

This is likewise one of the factors by obtaining the soft documents of this **Religions In Four Dimensions** by online.
