

## CONFUCIANISM

### The four Religious Traditions of China

Chinese culture is marked by four main religious traditions: 1. The traditional folk religion 2. Taoism 3. Confucianism (had state patronage) 4. Buddhism

The “San-jiao heyi” concept The Chinese emphasis on harmony was also extended to “the unity of the three faiths” “San-jiao heyi” is still widely used to refer to Confucianism, Taoism and Buddhism.

More popular teachers such as Jiao Hong (1540-1620) taught that all three religions constitute in fact “a single teaching,” and all three should be believed because each merely uses separate language to articulate its truth.

Liu Mi (Active 1324):

“Although the Three Teaching are different,  
in the arguments they put forward, they are One.”

Emperor Xiaozong (1163-1189):

remained unthreatened However Hung argues that such tolerance had its limitations Since the mid eighteenth century the Qing court intentionally minimised the importance of the Islamic identity Restrictions were imposed on the Muslims external connections with Western Asia The Christian minority was kept distant from politics and the Han majority At the same time Confucian scholars began to acquire a new understanding of religion but they were not encouraged to get in touch with the Muslims and Christians This book demonstrates how from the late eighteenth to the early nineteenth century the Qing government prevented Confucian scholar bureaucrats from interfering in the religious life of Christians and Muslims and how the Confucians understanding of religion was reshaped during the implementation of such policy in the period This book reveals that a different kind of religious tolerance had already emerged among Sinophone intellectuals before their contact with the West This book goes beyond the assumption of a homogeneous Han society and pays attention to the religious groups that emerged after the seventeenth century which differed from or even contradicted Confucianism and other Chinese religions and it is concerned with how such alien communities influenced the development of Confucianism itself Wang Fan sen Academia Sinica This book significantly enriches our comprehension of how early modern Confucians as adherents of a state public religion engaged with Abrahamic religions By delving into the dynamics of interreligious interaction *Redefining Heresy and Tolerance* sheds new light on the encounters between Confucianism and the Abrahamic faiths offering fresh insights into the complex religious landscape of Asian culture Huang Chin shing Academia Sinica All Under Heaven John H. **Female Philosophers in Contemporary Taiwan and the Problem of Women in Chinese Thought** Jana S. Rošker, 2021-09-20

This book illuminates the problem of women in Chinese philosophy through the lens of the lives and work of two contemporary Taiwanese female philosophers It takes two approaches that have been relegated quite unfairly to the margins of dominant discourses The first is concerned with the work of women philosophical theorists who are still overshadowed by their male colleagues regardless of where they live their theoretical potential and the value of their research The second approach is related to the question of the role of Taiwanese philosophy in maintaining the continuity of the Chinese intellectual tradition in the second half of the twentieth century The book thus connects these two issues and provides a bridge linking them Although discrimination against female philosophical theorists on the one hand and the failure to recognize the important contribution of Taiwanese philosophy to the development of modern Chinese philosophy on the other seem at first glance to have little in common both harbor a problem that has its roots in discourses of exclusion emanating from the political historical and social inequalities associated with power structures

Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of

Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century
