Religious Ethics A Systems Approach

Niklas Luhmann

Religious Ethics A Systems Approach:

Religious Ethics James F. Smurl, 1971 **The Moral Quest** Stanley J. Grenz, 2016-09-27 Stanley J Grenz masterfully leads readers into a theological engagement with moral inquiry that is a first rate introduction to Christian ethics *A Systems Theory of Religion* Niklas Luhmann, 2013-01-09 *A Systems Theory of Religion* still unfinished at Niklas Luhmann's death in 1998 was first published in German two years later thanks to the editorial work of Andr Kieserling One of Luhmann's most important projects it exemplifies his later work while redefining the subject matter of the sociology of religion Religion for Luhmann is one of the many functionally differentiated social systems that make up modern society All such subsystems consist entirely of communications and all are autopoietic which is to say self organizing and self generating Here Luhmann explains how religion provides a code for coping with the complexity opacity and uncontrollability of our world Religion functions to make definite the indefinite to reconcile the immanent and the transcendent Synthesizing approaches as disparate as the philosophy of language historical linguistics deconstruction and formal systems theory cybernetics *A Systems Theory of Religion* takes on important topics that range from religion's meaning and evolution to secularization turning decades of sociological assumptions on their head It provides us with a fresh vocabulary and a fresh philosophical and sociological approach to one of society's most fundamental phenomena **A Bibliographic Guide to the**

Comparative Study of Ethics John Braisted Carman, Mark Juergensmeyer, William Darrow, 1991-04-26 This bibliography is the culmination of four years work by a team of noted scholars its annotated entries are organised by religious tradition and cover each tradition's central concepts offering a judicious selection of primary and secondary works as well as recommendations of cross cultural topics to be explored Specialists in the history and literature of religions and comparative religion will find this bibliography a valuable research tool *Explorations In Global Ethics* Sumner B Twiss, 2018-03-08

Inspired by the 1993 Parliament of the World's Religions this volume for the first time brings the scholarly discipline of comparative religious ethics into constructive collaboration with the community of interreligious dialogue The contributors draw from both communities of discourse in addressing questions of method and theory and global moral issues such as human rights distributive justice politics of war international business the environment and genocide in a cross cultural context Inspired by the 1993 Parliament of the World's Religions this volume for the first time brings the scholarly discipline of comparative religious ethics into constructive collaboration with the community of interreligious dialogue Its design is premised on two important insights First interreligious dialogue offers to comparative religious ethics a new more persuasive rationale agenda of issues and practical orientation Second comparative religious ethics offers to interreligious dialogue an arsenal of critical tools and methods which will enhance the sophistication of its practical work In this way both theory a dominant concern and strength of comparative religious ethics and praxis a dominant concern and strength of interreligious moral dialogue are joined together in mutual effort each contributing to the benefit of the other The volume's contributors

share this vision of collaboration drawing explicitly from both communities of discourse in a manner that crosses disciplinary and professional boundaries to deal creatively and constructively with important methodological and global moral issue Although theory and practice cannot easily be separated in such a collaborative project for the purpose of clarity the volume is divided into two main parts The first specifically engages questions of method theory and the social role of the public intellectual the second on substantive moral themes and issues many of which were raised at the 1993 Parliament Taken together the volumes essays articulate and illustrate new ways of approaching contemporary moral concerns cross culturally yet with a rigor appropriate to our complex and pluralistic world **Black Womanist Ethics** Katie G. Cannon,2006-02-09

This study articulates the distinctive moral character of the Afro American women s community Beginning with a reconstructive history of the Afro American woman s situation in America the work next traces the emergence of the Black woman s literary tradition and explains its importance in expressing the moral wisdom of Black women The life and work of Zora Neale Hurston is examined in detail for her unique contributions to the moral tradition of the Afro American woman A final chapter initiates a promising exchange between the works of Hurston and those of Howard Thurman and Martin Luther King Jr A pioneering and multi dimensional work Black Womanist Ethics is at once a study in ethics gender and race **The Publishers Weekly** ,1972 *Mysticism and Morality* Richard H. Jones,2004-01-01 In *Mysticism and Morality* author

Richard Jones explores an often neglected question of religious ethics Is mysticism moral Through a discussion of several religious traditions including Hinduism Jainism Buddhism Tantrism Daoism and Christianity Jones fills a major void in the scholarly literature by considering all relevant points pertaining to mysticism Rather than looking at mysticism abstractly the book focuses on such topics as ritual practice and the processes of mystical becoming This work provides new perspectives for those interested in ethics and will prove essential to anyone interested in comparative philosophy and cross cultural studies of religion **Comparative Ethics in Hindu and Buddhist Traditions** Roderick Hindery,1978 The exploratory

volume in the new field of comparative ethics serves the diverse goals of groups variously interested in International law and morality in comparative religious ethical ideals or simply in cross cultural literature and drama The author draws moral ideals from primary Hindu sources popular and formal literary and spiritual The same method is applied for Buddhist moral texts Introducing method in comparative ethics with a synopsis of Hindu mystical tradition the author discusses in detail ethics in the Rgveda Upanisads Laws of Manu Ramayana Gita other popular classics poetry drama philosophers and reformers After summarizing pluralism in Hindu ethics the author sketches ethical thought in Mahayana Buddhist texts The book contains elaborate notes two appendices critical textual matter a diagram of topical parallels a bibliography and an index Understanding Religious Abuse and Recovery Patrick J. Knapp,2021-04-21 Currently there are at least four major

identifiable perspectives on how people best understand and recover from religious abuse Both secular and faith based Christian adherents can be variously identified in each of these approaches This book examines these viewpoints and

evaluates their various strengths and limitations It concludes that each perspective is helpful to the extent possible given the limitations of its respective philosophic or theological assumptions This book summarizes each viewpoint and suggests a larger contextual perspective helpful to better understand involvement in and recovery from religiously abusive environments The conclusion is an integration of the various conceptual frameworks and a different model SECURE is described that includes essential principles and practical strategies necessary for recovery from religious abuse Suggestions are made for future research and study both for academics with interest in the cultic studies and counseling fields and for various people negatively affected by religious abuse and in need of recovery

The Systemic Approach in Sociology and Niklas Luhmann Jiří Šubrt,2020-04-29 The systemic approach to sociology is widely considered to be one of the most important conceptions in sociology at the end of the 20th century In this book ubrt provides a comprehensive overview and critical appraisal of the theory of social systems

The School Counselor's Guide to Multi-Tiered Systems of Support Emily Goodman-Scott,Jennifer Betters-Bubon,Peg Donohue,2019-06-04 The School Counselor s Guide to Multi Tiered Systems of Support is the first book to provide school counseling practitioners students and faculty with information and resources regarding the alignment and implementation of Comprehensive School Counseling Programs CSCPs such as the ASCA National Model and Multi Tiered Systems of Support MTSS This innovative text provides a strong theoretical and research base as well as practical examples from the field case studies and relevant hands on resources and tools to assist school counselors in comprehending facilitating and strengthening the implementation of CSCPs particularly through MTSS alignment Furthermore chapters include pertinent information from the CACREP standards and the ASCA National Model This book is an essential resource for pre service and practicing school counselors as well as their leaders supervisors and faculty looking to better understand and utilize the overlap between CSCPs and MTSS to strengthen school counseling programs to better serve students schools and communities

Research in the Social Scientific Study of Religion, Volume 22 Ralph L. Piedmont,Andrew Village,2011-07-12 Research in the Social Scientific Study of Religion publishes empirical and theoretical studies of religion from a wide range of disciplines and from all parts of the globe A special section is devoted to the issue of psychological type and religion and especially how psychological type can increase our understanding of Christian ministry Alongside this section are papers presenting studies on subjects such as civic participation suffering with God and spirituality Together these papers represent important contributions that advance theory and evidence in a number of different fields of contemporary relevance to the study of religion Contributors to the present volume include William L Smith Pidi Zhang G Michael Leffel Keith M Wilson Ronan Bernas Liza Benovenli Elizabeth Fuller Ja Sinnott Sarah Waterman Andrew Village Leslie J Francis Mandy Robbins Keith Wulff Christopher F J Ross Michael Whinney Lewis Burton Bruce G Fawcett David Tilley Susan H Jones and Andrew Ryland

Advanced Methodologies William Grassie,2010-07-26 During much of twentieth century social scientists were predicting that religious would gradually

diminish and disappear with the spread of science education movements in many parts of the world a source of both hope and concern in the twenty first century Alongside this trend the last decade saw a resurgence of interest in the scientific study of religious and spiritual phenomena among researchers in diverse fields Psychology sociology and anthropology still play central roles in such studies but these disciplines are now supplemented by economics epidemiology evolutionary psychology cognitive neuroscience and behavioral genetics among others

The Routledge Companion to Business Ethics Eugene Heath, Byron Kaldis, Alexei Marcoux, 2018-02-12 The field of business ethics continues to expand intellectually and geographically During the past five decades scholars have developed and deepened their inquiries into the ethics of commercial and corporate conduct This Companion provides a novel overview of the discipline of business ethics covering the major areas of the field as well as new and emerging topics The eight thematic units range over an extraordinary set of subjects and include chapters on the history and pedagogy of business ethics moral philosophy the nature of business responsibilities within the firm economic institutions the 2008 financial crisis globalization and business ethics in different regions of the world Led by a well respected editorial team this unique volume gathers an international array of experts whose various critical approaches yield insights from areas such as public policy economics law and history in addition to business and philosophy With its fresh analyses wide scope and clarity of approach this volume will be an essential addition to library collections in business management and applied ethics

Technology, Management and the Evangelical Church John Weaver, 2020-04-02 This book explores the technological innovations and management practices of evangelical Christian religions Beginning from the late 19th century the author examines the evangelical church's increasing appropriation of business practices from the secular world as solutions to organizational problems He notes especially the importance of the church growth movement and the formation of church networks Particular attention is paid to the history of evangelical uses of computer technology including connections the Christian Right has made within Silicon Valley Most significantly this book offers one of the first academic explorations of the use of cybernetics systems theory and complexity theory by evangelical leaders and management theorists

Traditions of Systems Theory Darrell Arnold, 2013-12-17 The term systems theory is used to characterize a set of disparate yet related approaches to fields as varied as information theory cybernetics biology sociology history literature and philosophy What unites each of these traditions of systems theory is a shared focus on general features of systems and their fundamental importance for diverse areas of life Yet there are considerable differences among these traditions and each tradition has developed its own methodologies journals and forms of analysis This book explores this terrain and provides an overview of and guide to the traditions of systems theory in their considerable variety The book draws attention to the traditions of systems theory in their historical development especially as related to the humanities and social sciences and shows how from these traditions various contemporary developments have ensued It provides a guide for strains of thought that are key to understanding 20th century intellectual life in many areas

Evolution, Cognition, and the History of Religion: A New Synthesis Anders Klostergaard Petersen, Gilhus Ingvald Sælid, Luther H. Martin, Jeppe Sinding Jensen, Jesper Sørensen, 2018-10-08 Evolution Cognition and the History of Religion A New Synthesis comprises 41 chapters that push for a new way of conducting the study of religion thereby transforming the discipline into a genuine science of religion The recent resurgence of evolutionary approaches on culture and the increasing acknowledgement in the natural and social sciences of culture s and religion s evolutionary importance calls for a novel epistemological and theoretical framework for studying these two areas The chapters explore how a new scholarly synthesis founded on the triadic space constituted by evolution cognition cultural and ecological environment may develop Different perspectives and themes relating to this overarching topic are taken up with a main focus on either evolution cognition and or the history of religion

A Political Theology of the Bureaucratic State Steven T. Lane, 2024-10-29 Liberal democracies of the twenty first century face the continuing economic tensions of globalization and the various populist political responses In A Political Theology of the Bureaucratic State Steven T Lane argues that a deeper problem exists underneath the neoliberal system of contemporary democratic capitalism the bureaucratic state and the ways it deploys its sovereignty Yet these problems have received little attention from Christian political thinkers in the fields of ethics or political theology By bringing thinkers from across the academic disciplines from political philosophy and economics to biblical interpretation and public policy and using modern case studies related to public health and welfare state Lane address the foundational issues affecting liberal democracies and the claims to power they make against their citizens
