*Morality Truly Christian, Truly African* Paulinus Ikechukwu Odozor C.S.Sp., 2014-11-15 Given the largely Eurocentric nature of moral theology in the history of the Roman Catholic Church what will it take to invest the theological community in the history and moral challenges of the Church in other parts of the world especially Africa What is to be gained for the whole Church when this happens in a deep and lasting way In this timely and important study Paulinus Ikechukwu Odozor brings greater theological clarity to the issue of the relationship between Christianity and African tradition in the area of ethical foundations He also provides a constructive example of what fundamental moral theology done from an African and Christian especially Catholic moral theological point of view could look like Following a brief history of the development of African Christian theology Odozor examines responses of African theologians to African tradition and Christian responses to the reality of non Christian religions In a context where the African religious experience and heritage are powerful sources of meaning and identity Christian evangelization raises questions both about the African primal religions and about Christianity itself and its

claims Odozor takes up the subject of moral reasoning in an African Christian theological ethics and concludes with case studies that show how the African Church has tried to inculturate moral discourse on a religiously pluralistic continent and relate the healing gospel message to African situations Students and scholars of moral theology and ethics and church leaders will profit from the issues raised in *Morality Truly Christian Truly African* **Law, Religion and Human**

**Flourishing in Africa** M. Christian Green, 2019-05-19 A shared interest of law and religion is the advancement of human flourishing yet there is no common understanding of what it means for humans to flourish and the means by which to attain a flourishing life The concept of human flourishing is especially important for Africa where community and national development compete with forces of conflict and scarce resources In the broadest sense the concept of human flourishing focuses our attention on having a comprehensively good or worthwhile life but various religious and legal traditions suggest different norms for measuring the quality of life and designing the institutional structures that could best facilitate and preserve it **Religious Ethics** William Schweiker, David A. provides a robust collection of vibrant discourses on African social ethics and ethical practices It focuses on how the ethical thoughts of Africans are forged within the context of everyday life and how in turn ethical and philosophical thoughts inform day to day living The essays frame ethics as a historical phenomenon best examined as a historical movement the dynamic ethos of a people rather than as a theoretical construct It thereby offers a bold incisive and fresh interpretation of Africa's

ethical life and thought      *Africa's Social and Religious Quest* Randee Ijatuyi-Morphé, 2014-01-30 This well crafted book probes the key dimensions of Africa's existential predicament. It constitutes an intellectual response to a gnawing African situation, the starting point for grasping Africa's social and religious quest. Beyond split explanations of external versus internal factors, e.g. colonization, slavery vs. leadership, cultural values, this study accounts more comprehensively for emergent issues shaping this situation. The situation reflects a gamut of problems in traditional African religion and material culture, which hitherto defines African communality, politics and destinies vis-à-vis the cosmos and nature. Thus African religion and communities, each with its own attendant values, do not operate by critical engagement with larger issues of society and civilization, especially those shaped by the advent of post-modernity. Rather, they operate via adaptation. The communal drive for natural and social harmony inevitably produces a preservationist view of culture, leaving things as they are. This study takes an integrative approach to religion, society and civilization, eschews dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africa's quest today.

*The Routledge Handbook of Religion and Animal Ethics* Andrew Linzey, Clair Linzey, 2018-09-29 The ethical treatment of non-human animals is an increasingly significant issue, directly affecting how people share the planet with other creatures and visualize themselves within the natural world. *The Routledge Handbook of Religion and Animal Ethics* is a key reference source in this area, looking specifically at the role religion plays in the formation of ethics around these concerns. Featuring thirty-five chapters by a team of international contributors, the handbook is divided into two parts. The first gives an overview of fifteen of the major world religions' attitudes towards animal ethics and protection. The second features five sections addressing the following topics: Human Interaction with Animals; Killing and Exploitation; Religious and Secular Law; Evil and Theodicy; Souls and Afterlife. This handbook demonstrates that religious traditions, despite often being anthropocentric, do have much to offer to those seeking a framework for a more enlightened relationship between humans and non-human animals. As such, *The Routledge Handbook of Religion and Animal Ethics* is essential reading for students and researchers in religious studies, theology and animal ethics, as well as those studying the philosophy of religion and ethics more generally.
